CALL MEETING TO ORDER

The Community Redevelopment Agency (CRA) Board Meeting was called to order by Vice-Chairperson Wiggins at 4:42 pm.

Members Present: Jennifer Brahier, Allison Patton, Charles Bare, Casey Jones, Jared Moore, Delarian Wiggins

Members Absent: Teniade Broughton

Absent: Mayor D.C. Reeves

BOARD MEMBER DISCLOSURE

CRA Board Members Jones, Patton, and Wiggins disclosed ownership or control of interest directly or indirectly of property in the Community Redevelopment Area.

CHAIRPERSON'S REPORT

None.

ADMINISTRATOR'S COMMUNICATIONS

CRA Administrative Officer Victoria D'Angelo provided a brief update on the CRA Affordable Housing Small-Scale Rental Development Program (RDP). She noted that there has been a delay in bringing the program before the Board, but expressed hope that it will be presented at the November 2025 CRA meeting. Ms. D'Angelo also discussed the sister program to the RDP, which will focus on homeowners. She mentioned that once a draft of this program is completed, it will be distributed to Board members for their review.

APPROVAL OF MINUTES

1. 25-1283 CRA MEETING MINUTES - 9/08/2025

Recommendation:

A motion to approve was made by Board Member Bare and seconded by Board Member Brahier.

The motion passed by the following vote:

Yes: 6 Jennifer Brahier, Allison Patton, Charles Bare, Casey Jones, Jared Moore, Delarian Wiggins

No: 0 None

DISCUSSION ITEMS

None.

ACTION ITEMS

2. 25-829 AWARD OF BID NO. 25-041 - 2025 ADA SIDEWALKS IMPROVEMENT PROJECT

Recommendation: That the Community Redevelopment Agency (CRA) recommend that City Council award Bid Alternate - "Q" Street under Bid No. 25-041, 2025 ADA Sidewalks Improvement Project to Gulf Beach Construction, Inc. of Gulf Breeze, Florida, the lowest and most responsible bidder in the amount of $42,225 with a 10% contingency of $4,222.50 for a total of $46,447.50. Further,

that the CRA authorize the CRA Chairperson to take the actions necessary to administer this contract and complete the work, consistent with the bid and contracting documents.

A motion to approve was made by Board Member Moore and seconded by Board Member Patton.

CRA Administrative Officer Victoria D'Angelo gave an overview of the item. Staff responded to questions accordingly.

The motion passed by the following vote:

Yes: 6 Jennifer Brahier, Allison Patton, Charles Bare, Casey Jones, Jared Moore, Delarian Wiggins
No: 0 None

3. 25-1225 REVISION OF COMMERCIAL PROPERTY IMPROVEMENT PROGRAM TARGET AREA BOUNDARIES

Recommendation: That the Community Redevelopment Agency (CRA) approve revision of the Commercial Property Improvement Program (CPIP) target area boundaries as enumerated herein.

A motion to approve was made by Board Member Bare and seconded by Board Member Brahier.

Board Member Bare, who sponsored the item, provided a brief overview. He explained that the Commercial Property Improvement Program (CPIP) has been limited in its reach to many businesses over the years and expressed his desire, in prior discussions with CRA staff, to expand the program's availability to include more businesses within the area. Shirley Baylis, CRA Program Manager, provided a presentation on the CPIP, and staff responded to questions accordingly**.**

The motion passed by the following vote:

Yes: 6 Jennifer Brahier, Allison Patton, Charles Bare, Casey Jones, Jared Moore, Delarian Wiggins
No: 0 None

PRESENTATIONS

None.

BOARD MEMBERS COMMENTS

Board Member Brahier discussed the use of CRA funds generated from property taxes in relation to districts that do not have designated CRA areas. She addressed the discrepancies in funding between CRA districts and those that receive allocations from the General Fund, emphasizing the importance of being mindful of opportunities to free up funding for areas outside CRA boundaries. Board Member Patton highlighted the importance of reviewing budget allocations not covered by CRA funding to identify potential activities for inclusion in the next fiscal year's budget. Board Member Bare thanked CRA staff for their efforts in revising the CPIP target area boundaries. CRA Administrative Officer Victoria D'Angelo provided clarification regarding the use of CRA funds for infrastructure and maintenance projects, explaining how these expenditures must align with the CRA Redevelopment Plans.

UPDATE ON PORTLAND LOO INSTALLATION - BID NO. 25-035

SUMMARY:

On August 11, 2025, the CRA awarded Bid # 25-035, Portland Loo Installation to J Green Construction Services for installation of restroom units at MLK Plaza, Blake Doyle Skate Park and Bruce Beach Park. Installation of the restrooms at MLK Plaza and Blake Doyle Skate Park are underway. An update will be provided regarding installation of the additional restroom at Bruch Beach Park. There is no longer a request or need for an additional restroom at this site. The CRA is asked to discuss its interest in removing the restroom from the scope and/or identifying an alternative location.

PRIOR ACTION:

SUBJ: Notice of Intent to Award

The City of Pensacola intends to award the contract to J. Green Construction Services, Inc., as indicated in the attached tabulation. Thank you for your interest in the City's project. This notice serves as the City's notice of intent to award.

Protest of the intent to award must be in writing and received in the Purchasing Office within five business days, no later than 10:00 A.M. on July 18, 2025. Protest must be delivered to:

Dedria Lunderman
Purchasing Manager
City Hall, 6th floor
222 West Main Street
Pensacola, FL 32502
purchasing@cityofpensacola.com

A detailed explanation of the protest must specify each and every one of the grounds asserted for the protest. It must be signed by an individual authorized to represent the bidder, and must cite the law, rule, local ordinance, procedure or ITB provision on which the protest is based. In addition, the protestor must specify facts and evidence sufficient for the City to determine the validity of the protest.

We hope that you will be able to participate in future opportunities with the City.

SUBJECT:

APPROVAL OF CHANGE ORDER TO CONTRACT WITH SESSIONS CONTRACTORS GROUP INC. - RFP NO. 25-030

RECOMMENDATION:

That the Community Redevelopment Agency (CRA) recommend that City Council approve a change order to the contract with Sessions Contractors Group Inc. in response to RFP No. 25-030 Alice Williams Library Renovation project in the amount of $123,875 using allocated project funds. Also, that the CRA authorize the Mayor to take the actions necessary to execute and administer the contract through project completion.

HEARING REQUIRED: No Hearing Required

SUMMARY:

This action further advances the City of Pensacola Strategic Plan Goals #3-Support for Youth Experiences and #8-Neighborhoods that Celebrate Culture and Honor Legacy.

The City of Pensacola was awarded an African American Cultural and Historical (AACH) grant from the Department of State (DOS) for the repair and restoration of the Alice S. Williams Library building at 1015 North E Street near the end of fiscal year 2022. In FY23, the Conmmunity Redevelopment Agency committed $300,000 of additional project funding with the reallocation of Westside Redevelopment Revenue Bond funds. This July, the CRA further reallocated $250,000 in Westside funds to the project with the award of the solicitation for construction. The construction portion of the project began its solicitation for proposals in April 2025 and the selection committee voted unanimously to award the contract to Sessions Contractors Group.

Subsequent to the issuance of the solicitation, a final use of the building as a daycare facility for babies under one years of age was solidified, which necessitated previously-identified post-grant work modifications to accommodate this specific usage. These modifications include the installation of an additional fire protection wall, protective fixtures, and a camera-monitoring system, costing approximately $43,000 in usage-related increases. During the internal demolition, a number of hazards were also uncovered that required addressing. The removal

of lead-based paint encased in the building's soffits, the remediation of black mold, along with the subsequent drywall and structural beam repairs from termite damage, accounts for approximately $79,000 in condition-mandated additive change orders.

The original purchase order amount to Sessions Contractors Group was $779,425, which this change order would increase to $903,300. City ordinance requires City Council approval for change orders over 5% of the original amount of award. The allocated available funding for the project is sufficient to accommodate the change order and the project is still expected to be completed by end of the year.

PRIOR ACTION:

October 10, 2022 - CRA Board approved the reallocation of $300,000 of 2017 Westside Redevelopment Revenue Bond funds to the Alice S. Williams project.

October 13, 2022 - City Council approved the acceptance of the AACH grant award for the Alice S. Williams project in the amount of $500,000.

July 14, 2025 - CRA Board approved the reallocation of $250,000 in 2017 Westside Redevelopment Revenue Bond funds to the project and recommended that City Council award the contract under RFP No. 25-030 to Sessions Contractors Group Inc.

July 17, 2025 - City Council approved the award of contract from RFP No. 25-030 Alice Williams Renovation project to Sessions Contractors Group.

FUNDING:

Budget:	$500,000	AACH Grant - Alice Williams Renovation Project
	$550,000	2017 Westside Redevelopment Revenue Bond Funds
Actual:	$1,050,000	Total

FINANCIAL IMPACT:

Funding is available for this change order from the grant funds and previously-allocated CRA Westside funds, totaling $1,050,000.

RECOMMENDATION TO ADOPT RESOLUTION NO. 2025-73 - JOINT PARTICIPATION AGREEMENT FOR GARDEN/ALCANIZ I-110 RAMP LANDSCAPING

RECOMMENDATION:

That the Community Redevelopment Agency (CRA) recommend that City Council adopt Resolution No. 2025-73 authorizing and directing the Mayor to execute a Joint Participation Agreement (JPA) with the Florida Department of Transportation (FDOT) to receive funding in the amount of $200,000 for landscape revitalization improvements to the Garden and Alcaniz I-110 ramp.

SUMMARY:

This action will advance the City of Pensacola Strategic Plan Goal #6: Public Spaces that Connect Communities. The action will also advance 2025 Urban Core Redevelopment Plan Recommendation #5: Transportation, Streets, and Parking and the Wright & Alcaniz Special Demonstration Project.

On June 14, 2025, the Community Redevelopment Agency (CRA) approved the design and authorized staff to proceed with a project to revitalize the landscaping at the I-110 off ramp located at Alcaniz and Garden Streets. In support of the project, funding has been secured through the State of Florida Department of Transportation Roadside Beautification Program through a Joint Participation Agreement. These funds are available for landscape revitalization work that will consist of removal of various diseased and underperforming plantings, irrigation repair, new landscape installation and screening of adjacent property located along the ramp in accordance with the attached design plans. Maintenance of the project area required under the JPA will be funded annually by the Community Redevelopment Agency (CRA) pursuant to the CRA's interlocal agreement with the City of Pensacola.

PRIOR ACTION:

June 14, 2025 - The Community Redevelopment Agency (CRA) approved the design and authorized CRA staff to proceed with the project to revitalize the landscaping at the I-110 off-ramp located at Alcaniz and Garden Streets.

FUNDING:

Budget:	$ 200,000	FDOT JPA Funding
	$ 12,413	CRA Fund - Garden Streetscape
	$ 13,260	CRA Fund - Maintenance Interlocal
	$ 225,673	TOTAL
Actual:	$ 212,413	Landscape Construction/Establishment
	$ 13,260	CEI/Permit Coordination (Est.)
	$ 225,673	TOTAL

FINANCIAL IMPACT:

Funding is available in the CRA Fund budget in the amount of $25,675.00. A separate supplemental budget resolution will appropriate the JPA funds.

RESOLUTION

NO. 2025-73

A RESOLUTION
TO BE ENTITLED:

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PENSACOLA AUTHORIZING THE MAYOR TO EXECUTE A JOINT PARTICIPATION AGREEMENT WITH THE STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION FOR INSTALLATION AND MAINTENANCE OF LANDSCAPING ON SR 30 (US 98B) GARDEN STREET & SR 291 ALCANIZ STREET, I-110 RAMP EXIT; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the exit ramp from I-110 terminating at Garden and Alcaniz Streets is a main gateway into the City of Pensacola (hereinafter, the "**City**"); and

WHEREAS, the City seeks to revitalize the area with landscaping improvements; and

WHEREAS, funding has been allocated by the State of Florida through the Roadside Beautification Assistance Program to assist the City in installing the landscaping improvements as described in the attached Joint Participation Agreement (hereinafter, the "**Agreement**"); and

WHEREAS, the State of Florida Department of Transportation (hereinafter, the "**Department**") has offered financial assistance through the Roadside Beautification Assistance Program, with a maximum participation by the Department of $200,000.00, as detailed in the attached Agreement.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF PENSACOLA, FLORIDA:

Section 1. The City shall enter into the Roadside Beautification Assistance Program Joint Partnership Agreement with the Department.

Section 2. The City affirms its acceptance of future maintenance and other attendance costs occurring after completion of the landscape improvements at the termination point of the I-110 exit at SR 30 (98) Garden Street & SR 291 Alcaniz Street.

Section 3. The Mayor and City Clerk are hereby authorized and directed to execute and attest the Agreement for landscape improvements between the City and the Department.

Section 3. This resolution shall become effective on the fifth (5^{th}) business day after adoption, unless otherwise provided pursuant to Section 4.03(d) of the City Charter of the City of Pensacola.

JOINT PARTICIPATION AGREEMENT
BETWEEN
STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION
AND
CITY of PENSACOLA, ESCAMBIA COUNTY

Financial Project No.: **456919-1-58-01**
Contract No.: **AT409**
Vendor No.: **F596000406002**

This Joint Participation Agreement ("Agreement") is between the STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION, "**DEPARTMENT,**" and the CITY of PENSACOLA, "**CITY**." The **DEPARTMENT** and the **CITY** are desirous of having the **CITY** make certain improvements in connection with **Financial Project Identification Number (FP ID) 456919-1-58-01** for landscape improvements along SR 30 (US 98B) Garden Street & SR 291 Alcaniz Street, Pensacola, Florida, hereinafter referred to as the **"PROJECT." The PROJECT will have an Installation Phase and a Maintenance Phase, which is further described herein.** The **DEPARTMENT** and the **CITY** may sometimes be referred to in this Agreement as a "Party", and collectively as the "Parties."

1. The **DEPARTMENT** and the **CITY** have the authority under Section 339.12, Florida Statutes, to enter into this Agreement; and

2. A Roadside Beautification Assistance Program has been created by Section 334.044(26), Florida Statutes, to "provide for the conservation of natural roadside growth and scenery and for the implementation and maintenance of roadside beautification programs"; and

3. The **CITY** has certified the **DEPARTMENT** that it has met the eligibility requirements of said Section 334.044(26), Florida Statutes; and

4. The **DEPARTMENT** shall reimburse the **CITY** for services as further described in this Agreement and in Exhibit "A" Scope of Services, attached hereto; and

5. The **CITY**, by resolution No. 2025-73, a copy of which is attached hereto as Exhibit "D", has authorized the Mayor or CITY Official to enter into this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants, promises and representations contained herein, the Parties agree as follows:

6. The recitals in paragraphs 1-5 above are true and correct and are made a part of this Agreement.

7. **SERVICES AND PERFORMANCE**

A. The **CITY** shall be responsible for the preparation of all design plans for the **PROJECT** at the **CITY's** sole expense. Said design plans shall include the design for the installation and maintenance of any and all plants, planting material, and irrigation systems, to be maintained by the **CITY** under this Agreement (the "Plans"). The Plans shall be deemed to be incorporated by this reference into this Agreement upon completion by the **CITY.**

B. The **CITY** shall have the sole responsibility for resolving claims and requests for the additional work for the **PROJECT**. The **CITY** will make best efforts to obtain the **DEPARTMENT'S** input in its decisions.

C. The **CITY** shall furnish the services with which to undertake and complete the **PROJECT**, which shall consist of both an i) Installation Phase and ii) Maintenance Phase, said services being further described in Exhibit "A" to this Agreement.

D. The **CITY** agrees to undertake and complete the **PROJECT** in accordance with all applicable statutes, rules and regulations, including **DEPARTMENT** standards and specifications and in accordance with District Three Landscape Care Guide – Landscape and Irrigation Care along the State Highway System, dated February 4, 2016, as may be amended or revised from time to time ("Landscape Care Guide"), which is hereby incorporated by reference into this Agreement. The **CITY** shall take the necessary steps to ensure the **PROJECT** is completed within state or **CITY** right-of-way, or an appropriate easement has been acquired for off right-of-way actions. The **CITY** shall be responsible for obtaining clearances/permits required for the **PROJECT** from the appropriate permitting authorities.

i). The **CITY** is responsible for obtaining a landscape permit and any bore permits required from the **DEPARTMENT** prior to performing the work.

ii). The **CITY** shall notify the **DEPARTMENT** field office responsible for overseeing the **PROJECT** at least 48 hours prior to beginning work on the **PROJECT**.

E. Upon completion of the Installation Phase of the **PROJECT**, the appropriate **CITY** representative shall certify to the **DEPARTMENT** that the Installation Phase of **PROJECT** has been completed in accordance with the Plans and specifications, and all the terms and conditions of this Agreement. Said certification shall be done by forwarding a completed Certification of Completion form, attached hereto as Exhibit "C," in accordance with Section 11.L. of this Agreement. Completion of the Installation Phase of the **PROJECT** shall be subject to final acceptance and certification by the **DEPARTMENT**.

F. The **DEPARTMENT** will be entitled at all times to be advised as to the status of work being done by the **CITY** and of the details thereof. Therefore, the **CITY** shall provide a monthly report on the first business day of the month to the **DEPARTMENT** project manager during the Installation Phase.

G. If the **CITY** hires a consultant, it must certify that its consultant has been selected in accordance with the Consultants Competitive Negotiation Act (Section 287.055, Florida Statutes).

H. The **CITY** shall not sublet, assign or transfer this Agreement without prior written consent of the **DEPARTMENT**.

I. The **CITY** shall have sole responsibility for maintaining the subject landscaping according to **DEPARTMENT** standards and specifications, as well as stipulations outlined in the Landscape Care Guide. Upon the execution of this Agreement, The **CITY** certifies that is has received a copy of the Landscape Care Guide and agrees to be bound by the terms and conditions contained therein.

J. Upon completion of the Installation Phase of the **PROJECT** by the **CITY**, the **CITY** will assume responsibility for the Maintenance Phase of the **PROJECT**, which includes, irrigation and other related materials identified in the Plans, and will conduct such maintenance as specified in accordance with any maintenance plan identified in the notes of the **PROJECT** Plans, as well as the requirements set forth in the Landscape Care Guide. The **CITY** shall coordinate with the **DEPARTMENT's** District Landscape Project Manager or their designee to inspect the **PROJECT** on a quarterly basis and subsequently make corrections based on each quarterly inspection. In the event the **CITY** fails to maintain the **PROJECT** in accordance with a maintenance schedule and plan, the **DEPARTMENT**, at its option, may perform the required maintenance and the **CITY** shall reimburse the **DEPARTMENT** for the costs.

K. The **CITY**:

i). Shall utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the **CITY** during the term of the contract; and

ii). Shall expressly require any subcontractors performing work or providing services pursuant to the state contract to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

8. TERM

A. The **CITY** shall commence the project activities subsequent to the execution of this Agreement and said activities shall be performed in accordance with the following schedule:

i). Installation Phase

The term of the Installation Phase of the **PROJECT** shall commence subsequent to execution of this Agreement and shall end on the date the **DEPARTMENT** receives from the **CITY** notification and certification of completion of the Installation Phase in accordance with Section 7.E. of this Agreement, or **December 31, 2027**, whichever occurs first. The Installation Phase shall include a 365-day establishment period. If the **CITY** does not complete the Installation Phase of the **PROJECT** by **December 31, 2027**, or by means of written extension(s) of time by the Department's District Secretary or Designee grants a written extension prior to expiration of the Agreement, the Agreement will expire on the last day of the scheduled completion of the Installation Phase as provided in this paragraph.

ii). Maintenance Phase

The term of the Maintenance Phase of the **PROJECT** shall commence on the date the **CITY** provides certification of completion of the Installation Phase in accordance with Section 7.E. of this Agreement.

9. REIMBURSEMENT AND PAYMENT

A. i) The total cost of the **PROJECT** is estimated at **$200,000.00.** The **DEPARTMENT** shall reimburse the **CITY** for **one hundred percent (100%)** of the total actual costs directly related to the Installation Phase of the **PROJECT,** in an amount not to exceed **TWO HUNDRED THOUSAND and 00/100 DOLLARS ($200,000.00),** for actual costs incurred. It is understood and agreed to by the Parties that the total reimbursement amount under this Agreement shall not exceed **$200,000.00**, unless otherwise provided herein or as may be subsequently agreed to by the Parties through the execution of an amendment. The method of compensation is further described in Exhibit "B", which is attached hereto. Any additional costs, such as design costs of the **PROJECT**, costs relating to the Maintenance Phase of the **PROJECT**, or other items not covered by this Agreement, shall be the **CITY's** sole responsibility.

ii) The **CITY** shall submit one invoice (3 copies) plus supporting documentation required by the **DEPARTMENT** to the Department's Landscape Project Manager, 1074 Highway 90, Chipley, FL, 32428, for

approval and processing.

iii) The **DEPARTMENT** shall reimburse the **CITY** upon receipt of a properly submitted invoice and all supporting documentation. Supporting documentation shall include a copy of the cancelled check tendered by the **CITY** to the consultant/contractor who performed the work under the **PROJECT**. Supporting documentation shall also include dates of services and items of work performed on the **PROJECT**.

iv) Invoices shall be submitted by the **CITY** in detail sufficient for a proper pre-audit and post-audit thereof, based on quantifiable, measurable and verifiable deliverables as established in Exhibit "A," Scope of Services Plans when approved by the **DEPARTMENT**. Deliverables must be received and accepted in writing by the **DEPARTMENT's** Project Manager or designee prior to reimbursements.

v) Supporting documentation must establish that the deliverables were received and accepted in writing by the **DEPARTMENT** and must also establish that the required minimum level of service to be performed was met, and that the criteria for evaluating successful completion was met, as specified in Section 7 and Exhibit "A" of this Agreement.

vi) The **CITY** may receive progress payments for deliverables based on a percentage of services that have been completed, approved and accepted to the satisfaction of the **DEPARTMENT** when properly supported by detailed invoices and acceptable evidence of payment. The final balance due under this Agreement will be reimbursed upon completion of all **PROJECT** services, receipt of final construction cost documentation and proper submission of a detailed invoice and when the **PROJECT** has been inspected, approved and accepted to the satisfaction of the **DEPARTMENT** in writing.

vii) If the schedule for performance exceeds 30 days the **CITY** shall submit invoices to the **DEPARTMENT** at the end of each calendar month. The **CITY** shall prepare and submit monthly invoices to the **DEPARTMENT** in a format acceptable to the **DEPARTMENT**. Optionally, in an extended performance as referred to in this item, the **CITY** may submit one complete invoice in the form and in accordance with the method required in items i), ii), iii), iv), v) and vi) above.

viii) If this Agreement involves units of deliverables, then such units must be received and accepted in writing by the Contract Manager prior to payments.

ix) Bills for fees or other compensation for services or expenses shall be submitted in detail sufficient for a proper preaudit and post-audit thereof.

x) Travel costs will not be reimbursed.

B. Records of costs incurred under terms of this Agreement shall be maintained and made available upon request to the **DEPARTMENT** at all times during the period of this Agreement and for five (5) years after final payment is made. Copies of these documents and records shall be furnished to the **DEPARTMENT** upon request. Records of costs incurred include the **CITY's** general accounting records and the project records, together with supporting documents and records of the **CITY** and all subcontractors performing work on the **PROJECT**, and all other records of the **CITY** and subcontractors considered necessary by the **DEPARTMENT** for a proper audit of costs.

C. The **DEPARTMENT** during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The **DEPARTMENT** shall require a statement from the Comptroller of the **DEPARTMENT** that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding one year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years. Accordingly, the State of Florida's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature.

10. TERMINATION AND DEFAULT

A. If the **DEPARTMENT** determines the performance of the **CITY** is not satisfactory, the **DEPARTMENT** shall have the option of (a) immediately terminating the Agreement, or (b) notifying the **CITY** of the deficiency with a requirement that the deficiency be corrected within a specified time, otherwise the Agreement will be terminated at the end of such time, or the **DEPARTMENT** will take whatever action is deemed appropriate by the **DEPARTMENT**.

B. The **DEPARTMENT** may cancel this Agreement in whole or in part at any time the interest of the **DEPARTMENT** requires such termination. The **DEPARTMENT** also reserves the right to terminate or cancel this Agreement in the event the **CITY** shall be placed in either voluntary or involuntary bankruptcy. The **DEPARTMENT** further reserves the right to terminate or cancel this Agreement in the event of an assignment being made for the benefit of creditors. This Agreement may be canceled by the **CITY** upon (60) sixty days written notice to the **DEPARTMENT**.

C. If the **DEPARTMENT** requires termination of the Agreement for reasons other

than the unsatisfactory performance of the **CITY**, the **DEPARTMENT** shall notify the **CITY** of such termination, with instructions to the effective date of termination or specify the stage of work at which the Agreement is to be terminated.

D. If the Agreement is terminated before performance is completed, the **CITY** shall be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed an amount which is the same percentage of the contract price as the amount of work satisfactorily completed is a percentage of the total work called for by this Agreement. All work in progress will become the property of the **DEPARTMENT** and will be turned over promptly by the **CITY**.

11. MISCELLANEOUS

A. Participants (in this document identified as **CITY**) providing goods and services to the **DEPARTMENT** should be aware of the following time frames. Upon receipt, the **DEPARTMENT** has ten (10) working days to inspect and approve the goods and services unless the bid specifications, purchase order or contract specify otherwise. The **DEPARTMENT** has twenty (20) days to deliver a request for payment (voucher) to the Department of Financial Services. The twenty (20) days are measured from the latter of the date the invoice is received, or the goods or services are received, inspected, and approved.

B. If a warrant in payment of an invoice is not issued within forty (40) days after receipt of the invoice and receipt, inspection, and approval of the goods and services, a separate interest penalty at a rate as established pursuant to Section 55.03(1), F.S., will be due and payable, in addition to the invoice amount to the **CITY**. Interest penalties of less than one (1) dollar will not be enforced unless the **CITY** requests payment. Invoices which have to be returned to a **CITY** because of **CITY** preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the **DEPARTMENT**.

C. A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for Participants who may be experiencing problems in obtaining timely payment(s) from the **DEPARTMENT**. The Vendor Ombudsman may be contacted at (850) 413-5509.

D. The **CITY** shall allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the **CITY** in conjunction with this Agreement. Failure by the **CITY** to grant such public access shall be grounds for immediate unilateral cancellation of this Agreement by the **DEPARTMENT**.

E. The **CITY** shall comply with all federal, state and local laws and ordinances applicable to the work or payment for work thereof. The **CITY** shall not discriminate on the grounds of race, color, religion, sex or national origin in the performance of work under this Agreement.

F. No funds received pursuant to this Agreement may be expended for lobbying the Legislature, the judicial branch, or a state agency.

G. The **CITY** and the **DEPARTMENT** agree that the **CITY**, its employees, and subcontractors are not agents of the **DEPARTMENT** as a result of this Agreement.

H. It is understood between the Parties hereto that any part of or the entire **PROJECT** may be removed, relocated or adjusted at any time in the future as determined to be necessary by the **DEPARTMENT** in order that the associated state road be widened, altered or otherwise changed to meet with the future criteria or planning of the **DEPARTMENT**. The **DEPARTMENT** shall give the **CITY** notice regarding such removal, relocation or adjustment and the **CITY** shall be allowed sixty (60) calendar days to remove all or part of the **PROJECT** at its own cost. The **CITY** shall own that part of the **PROJECT** it removes. After the sixty (60) calendar day's removal period, the **DEPARTMENT** may remove, relocate or adjust the **PROJECT** as it deems best. Wherever the **CITY** removes a **PROJECT** pursuant to this Agreement, the **CITY** shall restore the surface of the affected portion of the **PROJECT'S** premises to the same safe and trafficable condition as existed prior to installation of such **PROJECT**.

I. This Agreement shall be governed by and interpreted in accordance with the laws of the State of Florida. Any provision herein determined by a court of competent jurisdiction, or any other legally constituted body having jurisdiction, to be invalid or unenforceable shall be severable and the remainder of this Agreement shall remain in full force and effect, provided that the invalidated or unenforceable provision is not material to the intended operation of this Agreement. Venue of any judicial proceedings arising out of this Agreement shall be in Leon County, Florida.

J. This document incorporates and includes all prior negotiations, correspondence, conversations, agreements, or understandings applicable to the matters contained herein, and the Parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, it is agreed that no deviation from the terms hereof shall be predicated upon any prior representation or agreements whether oral or written. It is further agreed that no modification, amendment, or alteration in the terms and conditions herein, nor any extension of time for completion of any phase of the PROJECT, shall be effective unless contained in a written document executed with the same formality and of equal dignity herewith.

K. PUBLIC ENTITY CRIME INFORMATION AND ANTI-DISCRIMINATION STATEMENT: A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list. An entity or affiliate who has been placed on the discriminatory vendor list may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity.

L. Any and all notices, reports, invoices, and certifications required pursuant to the terms of this Agreement shall be sent by First Class United States Mail to the addresses listed below; provided, however, that the **DEPARTMENT** may, by written authorization to the **CITY**, allow for a separate means of notification:

DEPARTMENT

SCOPE OF SERVICES

Landscape of SR 30 (US 98B) Garden Street & SR 291 Alcaniz Street, Pensacola, Florida

FP ID: 456919-1-58-01

Project: Landscape along SR 30 (US 98B) Garden Street & SR 291 Alcaniz Street, Pensacola

Project Summary: The intent of this project is to create and increase the emphasis on landscape scenery and conservation of natural roadside growth along and within SR 30 (US 98B) Garden Street and SR 291 Alcaniz Street, right of way. The project will be maintained by the City of Pensacola in conjunction with the Florida Department of Transportation.

Select sections of this roadway are proposed where the city believes will be most aesthetically appealing and ecologically sustainable, and with consideration of driver safety in mind (i.e. clear zone, sight distance, etc.). These plantings areas may contain canopy trees and other flowering understory species where standards allow. Other hearty shrubs may be placed in any planting beds as well. Groundcover and filler trees may be considered and added as appropriate. All plants will be natural Florida Friendly. No irrigation is proposed for this project currently. Project will require a one-year establishment by the contractor.

Estimated Cost: $200,000.00

The project design, set-backs, tree heights, etc. are subject to change pending field condition. Proposed plantings are also subject to change during construction based on availability.

EXHIBIT "B"
Method of Compensation

Landscape of SR 30 (US 98B) Garden Street & SR 291 Alcaniz Street, Pensacola, Florida

FP ID: 456919-1-58-01

For satisfactory completion of all services related to the purchase of the plant materials, fertilizer, and the cost for labor associated with the installation of the planting detailed in Exhibit "A" Scope of Services of this Agreement, the **DEPARTMENT** shall reimburse the **CITY** in an amount not to exceed **TWO HUNDRED THOUSAND and 00/100 DOLLARS ($200,000.00),** for actual costs incurred.

The **CITY** may receive progress payments for actual costs incurred for deliverables based on the percentage of services that have been completed, approved and accepted to the satisfaction of the **DEPARTMENT** when properly supported by detailed invoices and acceptable evidence of payment. The final balance due under this Agreement will be reimbursed upon completion of all **PROJECT** services, receipt of final construction cost documentation and proper submission of a detailed invoice and when the **PROJECT** has been inspected, approved and accepted to the satisfaction of the **DEPARTMENT** in writing.

RESOLUTION

SPONSOR: Teniadé Broughton - Chairperson

SUBJECT:

SUPPLEMENTAL BUDGET RESOLUTION NO 2025-83 CRA - CARRYFORWARD AND REALLOCATION OF URBAN CORE CRA FUNDS FOR SOUTH PALAFOX PEDESTRIAN IMPROVEMENT PROJECT

RECOMMENDATION:

That the Community Redevelopment Agency (CRA) adopt Supplemental Budget Resolution No. 2025-83 CRA.

A RESOLUTION OF THE PENSACOLA COMMUNITY REDEVELOPMENT AGENCY APPROVING AND CONFIRMING REVISIONS AND APPROPRIATIONS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2026; PROVIDING FOR AN EFFECTIVE DATE.

SUMMARY:

Award of this project will advance the City of Pensacola Strategic Plan Goal #2: Safe Streets for All Mobilities as well as Strategic Plan Goal #5: More Walkable, Mixed-Use Districts.The project will also advance the 2025 Urban Core Redevelopment Plan Recommendation #5: Transportation, Streets and Parking and the Hashtag and Waterfront Development Special Demonstration Project.

The South Palafox Street Pedestrian Improvements Project was one of four roads identified for improvement as part of the Hashtag Connector project of the Waterfront Framework Plan from June 2019. This plan is attached to this item.

This project aims to promote friendly sidewalk spaces, resting spots, shade, and active storefronts. Further, it will enhance pedestrian and vehicular circulation in downtown Pensacola, Florida, along South Palafox Street and adjacent areas, while incorporating additional pedestrian safety upgrades. The project focuses on improving the pedestrian experience through thoughtful landscape architecture and engineering services. The design areas include:

- South Palafox Street: From south of Garden Street to north of Main Street.
- Romana Street: Between Baylen Street and Jefferson Street.
- Intendencia Street: Between Baylen Street and Jefferson Street.

- Government Street: Between Baylen Street and Jefferson Street.

The base bid portion of this project focuses on roadway modifications and infrastructure improvements to improve drainage, installation of raised crosswalks, new pavers at intersections and sidewalk areas, lush landscaping and irrigation, ballast stone planter walls, street furniture, litter receptacles, bike racks, and “Palafox Planters”.

Further, the base bid approach requires the entirety of S. Palafox between Main and Garden to be completely closed off to vehicular traffic. During this time, the contractor is expected to work 24 hours per day, 7 days per week, including holidays and rain days. Once the work on S. Palafox is completed, the contractor will shift to performing work on the side streets. Even so, the contractor is responsible for maintaining full pedestrian access and business accessibility throughout all project phases.

Finally, the base bid approach incorporates an early completion financial incentivize of 10% of the base bid for completion of the entirety of S. Palafox between Garden and Main Street by May 24, 2026, and 5% of the base bid for completion of the entirety of S. Palafox between Garden and Main Street by June 13, 2026.

The funding within the 2019 Urban Core Bond Fund and CRA Fund is being requested to be reappropriated from the following line items to complete the project:

$4,316,956.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Construction
$123,652.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Engineering Fees
$539.00	2019 Urban Core Bond Fund - Hashtag
4,441,147.00	**SUBTOTAL - 2019 UC BONDS**
$1,493,164.00	CRA Fund - Complete Streets (FY2025)
$1,011,500.00	CRA Fund - Complete Streets (FY2026)
$216,087.00	CRA Fund - Acquisition and Redevelopment (FY2026)
2,720,751.00	**SUBTOTAL - CRA FUND**

PRIOR ACTION:

July 14, 2025 - The Community Redevelopment Agency (CRA) authorized staff to place the ("New Palafox/South Palafox Pedestrian Improvement Project") out to bid.

FUNDING:

Budget: $3,046,132.00 FP&L Contribution

$399,193.00	Parking Revenue Fund
$4,316,956.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Construction
$123,652.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Engineering Fees
$539.00	2019 Urban Core Bond Fund - Hashtag
$157,400.00	CRA Fund - Complete Streets - S Palafox Improvements
$1,493,164.00	CRA Fund - Complete Streets (FY2025)
$1,011,500.00	CRA Fund - Complete Streets (FY2026)
$216,087.00	CRA Fund - Acquisition and Redevelopment (FY2026)
$10,764.623.00	TOTAL

Actual:	$7,687,942.50	Contract Base Bid for Construction
	$768,794.25	Required 10% Contingency
	$768,794.25	10% Incentivized Early Completion
	$491,145.18	Design
	$694,303.20	Contracted Project Management, CEI, Marketing Coordinator, and Archeological Services from Insight Global
	$307,517.70	Project Oversight and Engineering Allocation by City Staff
	$46,125.66	Geotechnical Testing/Miscellaneous
	$10,764,622.74	TOTAL

FINANCIAL IMPACT:

Within the Urban Core CRA Fund, a balance of $65,447.82 remains for the South Palafox Improvements project within Complete Streets. In conjunction with this item, the CRA is being asked to adopt a supplemental budget resolution carrying forward Fiscal Year 2025 funding within the 2019 Urban Core Bond Fund, in the amount of $4,441,147.00 from Hashtag Phase I, as well as, the CRA Fund in the amount of $1,558,611.00 from Complete Streets, and reallocating funding within Fiscal Year 2026 in the amount of $1,227,587.00 from Complete Streets and Acquisition and Redevelopment. Upon approval by the CRA, a separate supplemental budget resolution will be presented to City Council to appropriate the Florida Power and Light (FP&L) contribution and the aforementioned reallocations within the CRA Fund and 2019 Urban Core Bond Fund to fund the project.

SUBJECT:

AWARD OF BID NO. 25-045 - SOUTH PALAFOX PEDESTRIAN IMPROVEMENTS

RECOMMENDATION:

That the Community Redevelopment Agency (CRA) recommend that City Council award the base bid portion of Bid 25-045, SOUTH PALAFOX PEDESTRIAN IMPROVEMENTS to Site and Utility, LLC of Pensacola, FL, the lowest and most responsible bidder with a base bid of $7,687,942.50, plus a 10% early completion incentive of $768,794.25, plus a 10% contingency of $768,794.25 for a total of $9,225,531.00. Further, that the CRA authorize the Mayor to take the actions necessary to execute and administer this contract and complete the work, consistent with the bid, contracting documents, and the Mayor's Executive Powers as granted in the City Charter.

SUMMARY:

Award of this project will advance the City of Pensacola Strategic Plan Goal #2: Safe Streets for All Mobilities as well as Strategic Plan Goal #5: More Walkable, Mixed-Use Districts.The project will also advance the 2025 Urban Core Redevelopment Plan Recommendation #5: Transportation, Streets and Parking and the Hashtag and Waterfront Development Special Demonstration Project.

The South Palafox Street Pedestrian Improvements Project was one of four roads identified for improvement as part of the Hashtag Connector project of the Waterfront Framework Plan from June 2019. This plan is attached to this item.

This project aims to promote friendly sidewalk spaces, resting spots, shade, and active storefronts. Further, it will enhance pedestrian and vehicular circulation in downtown Pensacola, Florida, along South Palafox Street and adjacent areas, while incorporating additional pedestrian safety upgrades. The project focuses on improving the pedestrian experience through thoughtful landscape architecture and engineering services. The design areas include:

- South Palafox Street: From south of Garden Street to north of Main Street.
- Romana Street: Between Baylen Street and Jefferson Street.
- Intendencia Street: Between Baylen Street and Jefferson Street.

- Government Street: Between Baylen Street and Jefferson Street.

The base bid portion of this project focuses on roadway modifications and infrastructure improvements to improve drainage, installation of raised crosswalks, new pavers at intersections and sidewalk areas, lush landscaping and irrigation, ballast stone planter walls, street furniture, litter receptacles, bike racks, and “Palafox Planters”.

Further, the base bid approach requires the entirety of S. Palafox between Main and Garden to be completely closed off to vehicular traffic. During this time, the contractor is expected to work 24 hours per day, 7 days per week, including holidays and rain days. Once the work on S. Palafox is completed, the contractor will shift to performing work on the side streets. Even so, the contractor is responsible for maintaining full pedestrian access and business accessibility throughout all project phases.

Finally, the base bid approach incorporates an early completion financial incentivize of 10% of the base bid for completion of the entirety of S. Palafox between Garden and Main Street by May 24, 2026, and 5% of the base bid for completion of the entirety of S. Palafox between Garden and Main Street by June 13, 2026.

The funding within the 2019 Urban Core Bond Fund and CRA Fund is being requested to be reappropriated from the following line items to complete the project:

$4,316,956.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Construction
$123,652.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Engineering Fees
$539.00	2019 Urban Core Bond Fund - Hashtag
4,441,147.00	**SUBTOTAL - 2019 UC BONDS**
$1,493,164.00	CRA Fund - Complete Streets (FY2025)
$1,011,500.00	CRA Fund - Complete Streets (FY2026)
$216,087.00	CRA Fund - Acquisition and Redevelopment (FY2026)
2,720,751.00	**SUBTOTAL - CRA FUND**

PRIOR ACTION:

July 14, 2025 - The Community Redevelopment Agency (CRA) authorized staff to place the ("New Palafox/South Palafox Pedestrian Improvement Project") out to bid.

FUNDING:

Budget:	$3,046,132.00	FP&L Contribution
	$399,193.00	Parking Revenue Fund
	$4,316,956.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Construction

$123,652.00	2019 Urban Core Bond Fund - Hashtag Phase 1 Engineering Fees

$1,493,164.00	CRA Fund - Complete Streets (FY2025)
$1,011,500.00	CRA Fund - Complete Streets (FY2026)
$216,087.00	CRA Fund - Acquisition and Redevelopment (FY2026)
$10,764.623.00	TOTAL

Actual:	$7,687,942.50	Contract Base Bid for Construction
	$768,794.25	Required 10% Contingency
	$768,794.25	10% Incentivized Early Completion
	$491,145.18	Design
	$694,303.20	Contracted Project Management, CEI, Marketing Coordinator, and Archeological Services from Insight Global
	$307,517.70	Project Oversight and Engineering Allocation by City Staff
	$46,125.66	Geotechnical Testing/Miscellaneous
Total:	$10,764,622.74	TOTAL

FINANCIAL IMPACT:

Within the Urban Core CRA Fund, a balance of $65,447.82 remains for the South Palafox Improvements project within Complete Streets. In conjunction with this item, the CRA is being asked to adopt a supplemental budget resolution carrying forward Fiscal Year 2025 funding within the 2019 Urban Core Bond Fund, in the amount of $4,441,147.00 from Hashtag Phase I, as well as, the CRA Fund in the amount of $1,558,611.00 from Complete Streets, and reallocating funding within Fiscal Year 2026 in the amount of $1,227,587.00 from Complete Streets and Acquisition and Redevelopment. Upon approval by the CRA, a separate supplemental budget resolution will be presented to City Council to appropriate the Florida Power and Light (FP&L) contribution and the aforementioned reallocations within the CRA Fund and 2019 Urban Core Bond Fund to fund the project as well as award the Bid for the project.

HASHTAG CONNECTOR

The Hashtag Connector is a proposal for the Downtown and Bayfront areas to better connect the areas along the city's waterfront, support multi-modal transportation, offer opportunities for development, and promote public spaces.

The proposal outlines strategic modifications to the mobility networks in the Hashtag area, including traffic changes, a complete and connected bike network, and strategic curb modifications to better accommodate pedestrian circulation, bioswales, and planting. In addition, the proposal outlines a signature palette of paving materials, street furniture, and plant communities that will create a distinct landscape for the Bayfront area. The proposed Hashtag Connector Plan prioritizes users in Street Design. Pedestrians are given priority with the design of friendly sidewalk spaces, resting spots, shade, and active storefronts.

RESOLUTION

SPONSOR: Teniadé Broughton - Chairperson

SUBJECT:

SUPPLEMENTAL BUDGET RESOLUTION NO. 2025-82 CRA - CARRYFORWARD AND REALLOCATION OF WESTSIDE CRA FUNDING FOR BAPTIST REDEVELOPMENT PROJECT

RECOMMENDATION:

That the Community Redevelopment Agency (CRA) adopt Supplemental Budget Resolution No. 2025-82 CRA.

A RESOLUTION OF THE PENSACOLA COMMUNITY REDEVELOPMENT AGENCY APPROVING AND CONFIRMING REVISIONS AND APPROPRIATIONS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2026; PROVIDING FOR AN EFFECTIVE DATE.REVISIONS AND APPROPRIATIONS FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 2026; PROVIDING FOR AN EFFECTIVE DATE.

SUMMARY:

This action will advance City of Pensacola Strategic Plan Goal #1: Attainable Housing for All Income Levels, Goal #4: Resilient Waterfronts & Neighborhoods, Goal #5: More Walkable, Mixed-Use Districts, Goal #6: Public Spaces that Connect Communities, Goal #7: Thriving Innovation & Businesses, and Goal #8: Neighborhoods that Celebrate Culture and Honor Legacy.

The project will also advance the 2025 Westside Redevelopment Plan's Baptist Hospital Redevelopment project, under recommendation #2, Economic Development.

Funding within the 2017 Westside Bond Fund and the Westside TIF CRA Fund is being requested to be reappropriated to the Baptist Hospital Redevelopment Project. The funding is requested for the following anticipated expenses related to the project:

- Demolition and Decommissioning (Main Campus)
- Owners Representation for Demolition and Decommissioning (Main Campus)
- Carrying Costs/Maintenance & Management — (est. 6 months)
- Redevelopment Advisory Services - (starting budget)

PRIOR ACTION:

October 21, 2024 - City Council accepted Grant Agreement No. WL095 with the Florida Department of Commerce and adopted Supplemental Budget Resolution No. 2024-84 appropriating the grant proceeds.

October 23, 2025 - City Council adopted Supplemental Budget Resolution No. 2025-72 appropriating the Baptist Donation proceeds.

FUNDING:

Budget:	$ 1,171,400.00	2017 Westside Bond Fund - Baptist Redevelopment
	7,000,000.00	Special Grants Fund - State Appropriations Grant
	5,854,797.00	Special Grants Fund - Donation Proceeds
	150,000.00	2017 Westside Bond Fund - Cervantes/Pace CDBG
	100,388.00	2017 Westside Bond Fund - Baptist CDBG
	103,735.00	2017 Westside Bond Fund - Westside Infrastructure
	185,000.00	Westside TIF Fund - Acquisition and Redevelopment (FY2025)
	300,000.00	Westside TIF Fund - Acquisition and Redevelopment - Cervantes/Pace CDBG (FY2026)
	$14,865,320.00	TOTAL
Actual:	$ 532,167.80	Due Diligence (est.)
	12,776,800.00	Demolition and Decommissioning
	956,351.35	Owner Representative Services - Demo and Decommissioning
	300,000.00	Carrying Costs - (est. 6 months)
	300,000.00	Redevelopment Advisor - Starting budget
	$14,865,319.15	TOTAL

FINANCIAL IMPACT:

Within the CRA Series 2017 Project Fund, a balance of $654,232 remained within the Baptist Redevelopment Project Account. Upon adoption of the supplemental budget resolution, a similar item will be presented to City Council requesting the carry forward and reallocation of Fiscal Year 2025 funding within the 2017 Westside Bond Fund, in the amount of $1,008,355 for the balance remaining in the Baptist Redevelopment project as well as from Baptist CDBG, Cervantes/Pace CDBG, and Westside Infrastructure, as well as within the Westside TIF Fund

in the amount of $185,000 from FY 25 Acquisition and Redevelopment and $300,000 from the FY 26 Acquisition & Redevelopment for Cervantes/Pace CDBG. City Council will also be requested to carry forward the grant proceeds from the Florida Department of Commerce. The donation proceeds from Baptist Hospital were previously appropriated in October 2025.

ACTION ITEM

SPONSOR: Teniadé Broughton - Chairperson

SUBJECT:

AWARD OF CONTRACT RFQ NO. 25-008 - DECOMMISSIONING AND DEMOLITION (D&D) CONTRACTOR FOR THE FORMER BAPTIST HOSPITAL COMPLEX

RECOMMENDATION:

That the Community Redevelopment Agency (CRA) recommend that City Council award a contract under Request for Qualifications (RFQ) # 25-008, DECOMMISSIONING AND DEMOLITION (D&D) CONTRACTOR to Northstar Contracting Group, Inc. in the amount of $12,776,800.00. Further, that the CRA authorize the Mayor to take the actions necessary to execute and administer this contract and complete the work, consistent with the bid, contracting documents, and the Mayor's Executive Powers as granted in the City Charter.

SUMMARY:

This action will advance City of Pensacola Strategic Plan Goal #1: Attainable Housing for All Income Levels, Goal #4: Resilient Waterfronts & Neighborhoods, Goal #5: More Walkable, Mixed-Use Districts, Goal #6: Public Spaces that Connect Communities, Goal #7: Thriving Innovation & Businesses, and Goal #8: Neighborhoods that Celebrate Culture and Honor Legacy. The project will also advance the 2025 Westside Redevelopment Plan's Baptist Hospital Redevelopment project, under recommendation #2, Economic Development.

The City issued a Request for Qualifications (RFQ) for a decommissioning and demolition contractor for the former Baptist Hospital complex on October 31, 2024. A selection committee was formed to review the written RFQ responses, and rank and shortlist firms to receive a Request for Proposals (RFP). The committee comprised City employees Erica Grancagnolo, Brad Hinote, Ken Ibold and Russell Sweatt. The committee shortlisted six (6) firms to receive the RFP. The shortlist is attached to this item.

On January 14, 2025, the City issued the RFP. The selection committee ranked the proposals and a Notice of Intent to Award (NOI) was issued on April 4, 2025. A copy of the NOI is attached. Subsequently, a licensing omission was realized for LM Sessler Wrecking & Excavating, Inc., disqualifying the firm. As a result, Northstar Contracting Group, Inc. was designated the top ranked and most qualified firm responding to the RFQ/RFP.

A copy of the negotiated contract is attached. Negotiated terms include removal of the North Parking Lot from the project scope, deducting $362,000 from the project cost.

PRIOR ACTION:

October 21, 2024 - City Council accepted Grant Agreement No. WL095 with the Florida Department of Commerce and adopted Supplemental Budget Resolution No. 2024-84 appropriating the grant proceeds.

October 23, 2025 - City Council adopted Supplemental Budget Resolution No. 2025-72 appropriating the Baptist Donation proceeds.

FUNDING:

Budget:	$ 1,171,400.00	2017 Westside Bond Fund - Baptist Redevelopment
	7,000,000.00	Special Grants Fund - State Appropriations Grant
	5,854,797.00	Special Grants Fund - Donation Proceeds
	150,000.00	2017 Westside Bond Fund - Cervantes/Pace CDBG
	100,388.00	2017 Westside Bond Fund - Baptist CDBG
	103,735.00	2017 Westside Bond Fund - Westside Infrastructure
	185,000.00	Westside TIF Fund - Acquisition and Redevelopment (FY2025)
	300,000.00	Westside TIF Fund - Acquisition and Redevelopment - Cervantes/Pace CDBG (FY2026)
	$14,865,320.00	TOTAL
Actual:	$ 532,167.80	Due Diligence (est.)
	12,776,800.00	Demolition and Decommissioning
	956,351.35	Owner Representative Services - Demo and Decommissioning
	300,000.00	Carrying Costs - (est. 6 months)
	300,000.00	Redevelopment Advisor - Starting budget
	$14,865,319.15	TOTAL

FINANCIAL IMPACT:

Within the CRA Series 2017 Project Fund, a balance of $654,232 remained within the Baptist Redevelopment Project Account. Upon adoption of the supplemental budget resolution, a similar item will be presented to City Council requesting the carry forward and reallocation of Fiscal Year 2025 funding within the 2017 Westside Bond Fund, in the amount of $1,008,355 for the balance remaining in the Baptist Redevelopment project as well as from Baptist CDBG, Cervantes/Pace CDBG, and Westside Infrastructure, as well as within the Westside TIF Fund

in the amount of $185,000 from FY 25 Acquisition and Redevelopment and $300,000 from the FY 26 Acquisition & Redevelopment for Cervantes/Pace CDBG. City Council will also be requested to carry forward the grant proceeds from the Florida Department of Commerce. The donation proceeds from Baptist Hospital were previously appropriated in October 2025.

CITY OF PENSACOLA

REQUEST FOR QUALIFICATIONS

RFQ NO.: 25-008

DECOMMISSIONING AND DEMOLITION (D&D) CONTRACTOR FOR THE FORMER BAPTIST HOSPITAL COMPLEX

The City of Pensacola (City) requests statements of qualifications from professional Demolition and Materials Removal teams experienced in the Decommissioning and Demolition (D&D). The Scope of Work for the D&D contract is described in this Request for Qualifications (RFQ) and hereinafter referred to collectively as the "Project."

Sealed and complete hardcopy proposals **with original or electronic signature**, and **five (5) additional copies**, plus **one (1) complete and identical electronic copy (PDF)** on flash drive or CD, must be received no later than **December 5, 2024, 2:30 P.M.**, local time, at the following location.

City Hall (lobby)
222 West Main Street
Pensacola, Florida, 32502
Attention: Purchasing

Submissions received after the closing time will not be accepted. Multiple responses from the same entity will not be accepted.

Alternatively, electronic bids may be submitted to Demandstar or Central Bidding. Both sites require registration and varying fees for notifications and document downloads. **If submitting electronic bids and a bid/proposal bond is required, that bond must be mailed separately to the address above.**

Specifications will be posted to the City's website at www.cityofpensacola.com/bids.aspx. Addenda will be posted to the City's website. **Bidders are responsible for obtaining addenda and are advised to check the website frequently.** There is no cost to view or download documents from the City website.

At the conclusion of the selection process, notifications will be sent to successful and unsuccessful teams. A Notice of Shortlist will also be posted to the City's website at www.cityofpensacola.com/bids.aspx. Respondents are advised to check the website frequently. The Notice will identify the selected Respondents to this RFQ to whom the subsequent RFP will be issued.

Documentation associated with this RFQ, if not attached, may be obtained from the City of Pensacola website, www.cityofpensacola.com/bids.aspx. **Any addendum issued will**

be posted to the City's website. Respondents are responsible for obtaining addenda and are advised to check the website frequently.

RESPONDENTS MAY RELY ONLY UPON THE INFORMATION EXPRESSLY STATED IN THIS REQUEST FOR QUALIFICATIONS AND IN WRITTEN ADDENDA HERETO THAT ARE ISSUED BY THE CITY AND POSTED TO THE CITY'S WEBSITE, WWW.CITYOFPENSACOLA.COM/BIDS.ASPX. IN NO EVENT MAY RESPONDENTS RELY UPON AN OTHER STATEMENTS OR INFORMATION, WRITTEN OR ORAL, FROM ANY OTHER SOURCE WHATSOEVER.

Any questions concerning the RFQ should be addressed and submitted in writing no later than 10:00 A.M., local time, on November 22, 2024 to:

Dedria Lunderman, Purchasing Manager

SECURITY NOTICE

Due to coronavirus concerns, visitors to City Hall may be required to stay in the lobby unless otherwise directed.

Late submittals will not be accepted.

PROJECT INFORMATION

SECTION 1: OVERVIEW OF PROJECT

1.1 General

The former Baptist Hospital Complex (FBHC) consists of 43 parcels and a smaller number of structures that cover an area of 39.70-acres. The locations of the various parcels comprising the FBHC are shown on Figure 1. The main hospital building is located at 1000 W Moreno St, Pensacola, FL 32501. Based on grant funding requirements, the demolition may be completed in two phases; the main campus which includes parcels north of Moreno Street will be primary the focus of this RFQ and will be referred to as Phase 1. The parcels south of Moreno Street will be considered Phase 2 and may be included as an add alternate to this project.

General descriptions of the FBHC are described below:

Phase 1

- **Main hospital building**: The main hospital building opened in 1951 and is in the central portion of the property, bounded by North E Street to the East and West Moreno Street to the south. The main hospital building is approximately 178,000 square feet area (floor 1) with five floors. Floor 1 is the most extensive floor of the building, which contains multiple areas including the registration area, cafeteria, emergency room, boiler room, laundry, shipping/receiving area, facilities, etc.

Floors 2 through 5 were mostly utilized for different hospital units, offices, nursing stations, and patient rooms. The rooftop of floor 4 has a helicopter pad, with a fire suppression system. Ground mounted transformers are located near the northeastern corner of the main hospital building. Multiple groundwater monitoring wells are present within this vicinity. The laundry is currently active but will be relocated prior to D&D.

- **North towers**: The north towers are medical offices located north of the main hospital building. There are three buildings, which are connected on by a shared first floor and hallway encompassing approximately 78,000 square feet (floor 1). The north towers have five floors and are mainly used for offices and health clinics. There is also a pharmacy, laboratory, and radiology center on the first floor. Ground mounted transformers are located near the southeast corner of the northeast tower.

- Paved parking areas are present in the northern portion of the site and adjacent to the main hospital building to the west. Many subsurface utilities are present within the roads and right of ways.

Phase 2

- **Behavioral Health Unit (BHU**): The BHU is on the southern portion of the Subject Property. The building is rectangular in shape, encompassing approximately 16,500 square feet (floor 1). The building has four floors and was used mainly as offices, nurses' stations, and patient rooms. There is a cafeteria area, recreation rooms as well. There is a single ground mounted transformer near the southeastern corner of the building. A diesel AST is located on the southern side of the BHU.

- **Other buildings**: Seven stand-alone, single-story buildings are located on the southern/south-eastern portion of the Subject Property. Most of these buildings were used as medical clinics or offices and are currently vacant. One building is still occupied at 1000 W. Blount Street, and is the office building for Re-Entry Alliance Pensacola, Inc. Two of the buildings located at 1015 West Moreno Street were observed to have deteriorating and flaking exterior paint (potentially lead-based), some of which had fallen to the ground surface.

Currently, the majority of the FBHC buildings are vacant and medical equipment and furnishings have been removed. The main hospital building, and north towers were vacated in 2023. Multiple separate buildings south of the main hospital building are also vacant with some building still in temporary use for storage and other functions. All buildings will be vacant at the time of D&D. Hazardous materials and building materials surveys are currently being executed. Preliminary information indicates that universal waste, e-waste, asbestos containing materials (ACM), lead-based paint, fuel and lubricants, and some relatively small amounts of chemicals used by the hospital may be present.

The surrounding area is residential and there is a possibility of construction activities in this area concurrent with demolition.

A Request for Proposal (RFP) will be issued to all Submitters who are short-listed pursuant to this RFQ. The RFP will contain a "D&D criteria package". In the event of a conflict between the description of the Project in this RFQ and such D&D criteria package, contained in the RFP, the RFP D&D criteria package shall govern. It is anticipated that the RFP will be issued in January 2025.

1.2 Scope of Work
The Work subject to this RFQ is generally as follows:

- Develop demolition plans and specifications and an interim site utility plan and associated specifications,
- Prepare project budgets and schedules and provide regular updates to the City,
- Secure all necessary permits and approvals for the abatement, demolition and utility activities with support from the City's Project Team,
- Execute the abatement of hazardous building materials, to demolish the buildings, to implement the interim site utility plan in a safe manner considering the local community, and to complete any remediation of contaminated soils around the buildings described in the D&D criteria package,
- Close out all necessary permits and approvals, comply with and adhere to all of City's policies and programs regarding Business Equity, and
- Provide all necessary documentation to evidence the successful completion of the D&D

1.4 Budget
The budget for this project includes grant funding, and the D&D contractor must adhere to all grant requirements.

1.5 Project Procurement Schedule
The following is the Project Procurement Schedule. The City reserves the right to modify the Project Procurement Schedule. *Note: the schedule pertaining to the activities of the subsequent RFP and award is tentative and will be confirmed in the RFP once issued. Those post-RFQ activities are included in the below schedule for illustrative purposes only.*

Date	**Activity**
October 31, 2024	RFQ release
November 22, 2024	Questions due
December 5, 2024	RFQ responses due
December 19, 2024	Shortlisting for Oral Presentations
January 9, 2025	Oral presentations and shortlist for RFP (by invitation only)
January 9, 2025	*Anticipated date for issuance of RFP (by invitation only)*

February 7, 2025	*Anticipated due date for RFP*
March 2025	*Anticipated award/contact*
April 2025	*Anticipated Notice to proceed*

1.6 Definitions

Addendum: A document or information issued by the City and posted on the City's website (www.cityofpensacola.com/bids.aspx) that modifies or supplements another Procurement Document or provides new, different, or additional information concerning the Procurement or the Project.
Business Day: Any day on which the City is open for regularly conducted business.
Contractor: The entity with which the City enters the prime D&D contract with the City.
Contractor Team: All entities listed by the Contractor as providing services or construction on the Project. The Contractor should list only key members of the Contractor Team in the SOQ. Subcontractors with limited roles should not be listed.
Key Team Member: Individuals who will be assigned to the Project who play an important role in the design, construction, or management of the Project.
Procurement: The City's process for selecting a Contractor for this Project.
Procurement Documents: All documents issued by the City in connection with the Procurement or Project.
Projects of Similar Scope and Complexity:

a) Projects of a similar size and budget that included D&D and construction of large medical, office and commercial facilities
b) Projects that utilize an integrated delivery method that require strong coordination and integration of the D&D and construction professionals and early involvement of the construction professionals during planning
c) Projects where the Contractor met specified price targets using additive and deductive alternates

RFP: The City's Request for Proposals, which will be issued to submitters who are short-listed through this RFQ selection process.
RFQ: The City's Request for Qualifications, which allows the qualification-based selection of a shortlist of Submitters who will be provided with the subsequent RFP.
Short-Listed Submitter: A D&D Contractor selected by the SOQ evaluation committee to receive the Request for Proposals.
SOQ: A Statement of Qualifications submitted in response to this solicitation.
City of Pensacola (City): The City of Pensacola.
Submitter: A Contractor that submits an SOQ under this procurement.

SECTION 2: PROCUREMENT PROCESS

2.1 General Information

2.1.1 Compliance with Legal Requirements

This Procurement will be in accordance with all applicable federal, state, and local laws, and City of Pensacola policies and procedures.

2.1.2 Conflict of Interest and Communications with the City of Pensacola

a) Consultants who assisted the City in the RFQ/RFP preparations may not propose or participate on any Contractor Team on this Project. The City of Pensacola may make a written determination to waive a potential conflict of interest if the role of the Consultant was limited to provision of technical data and/or reports and did not include assistance in development of instructions to Submitters, evaluation criteria, or other influence that presents a conflict of interest in the sole judgement of the City of Pensacola.
b) Submitters are required to conduct the preparation of their SOQs with professional integrity and free of lobbying activities. Communication with the City of Pensacola regarding this Project shall be via email only and directed to the City of Pensacola Contact Person listed in this RFQ. Do not communicate about the Project or the Procurement with any other City of Pensacola employees, representatives, or consultants. Communication with other City of Pensacola employees, representatives, or consultants regarding the Procurement may cause the firm involved to be disqualified from submitting under this Procurement. Any verified allegation that a responding Submitter or Team Member or an agent or consultant of the foregoing has made such contact or attempted to influence the evaluation, ranking, and/or selection of short-listed Submitters may be the cause for City of Pensacola to disqualify the Submitter team from submitting an SOQ or Proposal, to disqualify the Team Member from participating in the Procurement, and/or to discontinue any further consideration of such Submitter or Team Member.
c) Following the City of Pensacola's selection of short-listed firms, certain communications and contacts between short-listed firms and the City of Pensacola will be permitted. Acceptable communications shall be further described in the Request for Proposals that will be provided to each shortlisted firm.

2.1.3 Expenses

The City of Pensacola accepts no liability for the costs and expenses incurred by firms in responding to this Procurement. Each Submitter that enters into the Procurement process shall prepare the required materials, the SOQ, and the Proposal at its own expense and with the express understanding that the Submitter cannot make any claims whatsoever for reimbursement from the City of Pensacola for the costs and expenses associated with the process, even in the event the City of Pensacola cancels this Project or rejects all Proposals.

2.1.4 Public Disclosure

All documentation and submittals provided to the City of Pensacola may be considered public documents under applicable laws and may be subject to disclosure. Submitters recognize and agree that the City of Pensacola will not be responsible or liable in any way for any losses that the Submitter may suffer from the lawful disclosure of information or materials to third parties.

2.2 City of Pensacola Rights and Procurement Conditions

The City of Pensacola reserves without limitation, and may exercise at its sole discretion, the following rights and conditions with regard to this Procurement process:

a) To cancel the Procurement process and reject any and all submissions

b) To waive any informality or irregularity
c) To revise the Procurement Documents and Schedule
d) To reject any Submitter that submits an incomplete or inadequate response or is not responsive to the requirements of this RFQ
e) To require confirmation of information furnished by a Submitter, require additional information from a Submitter concerning its SOQ or Proposal and require additional evidence of qualifications to perform the work described in this RFQ or a subsequent RFP
f) To contact references who are not listed in the Submitter's SOQs and investigate statements on the SOQs and/or qualification of the Submitter and any firms or individuals identified in the SOQ
g) To consider alternative technical concepts, solutions, and/or approaches identified by Submitters
h) To take any action affecting the RFQ process, the RFP process, or the Project that is determined to be in the City of Pensacola's best interest
i) Approve or disapprove of the use of particular Subconsultants, Subcontractors, or Key Team Members and/or substitutions and/or changes to Subconsultants, Subcontractors, or Key Team Members from those identified in the SOQ or Proposal. Such approval or disapproval shall not be unreasonably exercised.

2.3 Outline of the Procurement Process

2.3.1 Phase 1: Request for Qualifications (RFQ).

a) This RFQ invites firms to submit SOQs describing in detail their technical, management, and financial qualifications to plan, permit, execute, and close out the Project. The issuance of this RFQ is the first phase of the Procurement process. A Submitter must be a partnership, corporation, or other legal entity that (1) is certified under Section 489.119, Florida Statutes, to engage in contracting through a certified or registered general contractor or a certified or registered building contractor as the qualifying agent , or (2) is qualified under Section 471.023, Florida Statutes, to practice or to offer to practice engineering, or (3) is qualified under Section 481.29, Florida Statutes, to practice or to offer to practice architecture.
b) The information required to be submitted in the SOQ is described in Exhibit A to this RFQ.
c) Submitters will submit their SOQ and other deliverables required pursuant to this Procurement at the time and in the manner set forth in this RFQ and any Addenda. The City of Pensacola will not consider SOQ or other deliverables that are submitted after the Time set forth in the RFQ. Submitters are solely responsible for making sure that the City of Pensacola receives the SOQ in a timely fashion.
d) The City of Pensacola will evaluate the information submitted by each Submitter to 1) determine whether the Submitter meets the mandatory minimum requirements and 2) evaluate the SOQ provided by each Submitter pursuant to the evaluation system described below. Any Submitter who fails to meet the mandatory minimum requirements set forth in this SOQ will be deemed non-

responsive and will not be considered further by the City of Pensacola in this Procurement.

e) All SOQs will be evaluated in accordance solely with the criteria established in the RFQ and any Addenda issued thereto. The evaluation criteria are listed in Section 2.3.3 below, including the relative weight or importance given to each criterion.
f) Through the scoring process, the City will determine the appropriate number of responsive and responsible firms that will be selected as Short-Listed Submitters. Only those firms that have been short-listed will be invited to submit a Proposal in response to the subsequent RFP.
g) The scores from the SOQ evaluations will be carried forward to the final evaluation and selection but will be used only if necessary to break a tie, as described more fully in the RFP.
h) This SOQ does not contain a Price Proposal, and no pricing information should be submitted. Short-Listed Submitters will submit a Proposal pursuant to the instructions set forth in the RFP to be issued at a later date.

2.3.2 Phase 2: Request for Proposal (RFP) & Selection Process

The City of Pensacola will issue an RFP to the Short-Listed Submitters. The RFP will further detail the evaluation criteria and other elements of the RFP process. Shortlisted firms will be invited to a pre-submittal site visit.

2.3.3 Evaluation and Ranking of Submitters

In the evaluation and ranking of Submitters responding to this RFQ, the Evaluation Committee will consider the information submitted in each SOQ according to the criteria listed below. The result of the evaluation will be a comparative ranking of Submitters, with the most highly qualified moving forward to the RFP phase, where a new set of evaluation criteria included in the RFP will be used.

To select and evaluate Submitters during the RFQ phase, the evaluation criteria will be given the following relative weights. See Exhibit A for the required components of each criterion:

SOQ Criteria	**Weight**
Team Organization, Staffing, and Availability of Resources	15 Points
Relevant Project Experience based upon up to five (5) project descriptions of similar complexity, magnitude and cost.	30 Points
Past Budget and Schedule Performance	15 Points
Project Delivery Approach	15 Points
Past Demolition Performance	10 Points
Safety Record	5 Points
Quality, Completeness, and Readability of SOQ package	5 Points
If applicable, Certification as or partnership with a Small, Minority, or Woman-owned Business Enterprise	3 Points
If applicable, Certification as or partnership with a city-eligible Veteran Business Enterprise Firm	2 Points
Total Points:	**100 Points**

Note: The results of the SOQ evaluations will be carried forward in the final RFP evaluation only to serve as a tiebreaker if needed.

SECTION 3: SOQ SUBMISSION REQUIREMENTS

The SOQ submission shall comply with the following format requirements:

3.1 Submitters shall submit 5 hard copies of the SOQ, along with a Portable Document Format (.pdf) file on flash drive or CD.

3.2 The body of the SOQ shall be organized in accordance with the Submittal Content Requirements found in Exhibit A.

3.3 The SOQ is limited to a maximum of 60 pages allocated to the sections in Exhibit A for which points are specified. The 60 pages must be numbered and may be allocated in any way the Submitter deems appropriate.

Not counted toward the 60-page limit are:

- A maximum 2-page cover letter. The cover letter must include agreement with the statement: *I affirm under the penalties of perjury that the facts and information included in this Statement of Qualifications are true and correct to the best of my knowledge and belief.*
- Section dividers without text other than labels
- Forms required by the City of Pensacola and included in this SOQ
- Form 300A required by Criterion 6 in Exhibit A

THE CITY OF PENSACOLA, FLORIDA
REQUEST FOR QUALIFICATIONS
CONTRACTUAL SERVICES
GENERAL CONDITIONS

To ensure acceptance, all respondents submitting qualifications to the City of Pensacola shall be governed by the following conditions, attached specifications, and qualification form(s) unless otherwise specified. Qualifications not submitted on the qualification form(s) provided shall be rejected, and qualifications not complying with these conditions will be subject to rejection. **Multiple submittals from the same entity will not be accepted.**

1. **Alternate Solutions:** During the drafting of written specifications, a sincere effort is made to describe services best suited to the needs of the City. However, the City invites qualifications with alternate solutions to the performance objectives set forth in the specifications, unless a particular specification is expressly identified as mandatory.

2. **Approved Equivalents or Equals:** Any manufacturer's names, trade names, brand names, model numbers, etc. listed in the specifications are for information only and not intended to limit competition. The respondent may offer any brand for which he is an authorized representative which meets or exceeds the specifications as written. If the qualification is based on an "approved equivalent or equal" item(s) or service(s), supportive information in the form of the manufacturer's printed literature or brochures, sketches, diagrams, and/or complete specifications must accompany the qualification. The respondent must explain in detail the reasons why the proposed equivalent or equal will meet specifications and not be considered an exception thereto. The City of Pensacola reserves the right to determine acceptance of proposed equivalent or equal item(s) or service(s).

3. **Award Determination to be Based on Best Interest of City:** There is no obligation on the part of the City to award a contract to any respondent and the City reserves the right to award a contract to or negotiate a contract with a responsible respondent submitting the most responsive or best alternative qualification for a resulting contract which is most advantageous to and in the best interest of the City. The City shall be the sole judge of the qualification and the resulting contract, and its decision shall be final.

4. **Qualification (RFQ) Bond: None.**

5. **Delivery:** Qualification quotations shall include all freight costs to Pensacola, Florida to a point(s) specified herein or specified at the time the purchase order is placed. No title to the item(s) or service(s) ordered nor any risk of loss shall be passed to the City of Pensacola until after receipt of delivery has been acknowledged by an authorized representative of the City of Pensacola.

6. **Discounts:** Terms offering a discount for prompt payment will be considered in determining the best qualification. The discount period shall begin whenever (1) the conditions of the specifications have been fully met and the service(s) judged acceptable to the City of Pensacola or (2) a correct invoice and other required documents have been received, whichever is later. Discounts offered for a period of less than thirty (30) days will not be considered in determining low qualification.

7. **E-Verify System (Mandatory):** In compliance with the provisions of F.S. 448.095, the parties to this contract and any subcontractors engaged in the performance of this contract hereby certify that they have registered with and shall use the E-Verify system of the United States Department of Homeland Security to verify the work authorization status of all newly hired employees, within the meaning of the statute.

8. **Exceptions to Specifications:** In order that equal consideration be given in evaluating qualifications, any exceptions to or deviations from the specifications as written must be noted and fully explained. The Mayor is the final authority in determining the acceptability of any exceptions to specifications.

9. **Governing Law:** The laws of the State of Florida shall be the laws applied in the resolution of any action, claim or other proceeding arising out of this contract.

10. **Intent of Specifications:** It is the intent of the specifications attached hereto to set forth and describe a certain service(s) to be purchased by the City of Pensacola including all materials, equipment, machinery, tools, apparatus, and means of transportation (including freight costs) necessary to provide the service(s).

11. **Interpretations:** All questions concerning the specifications or conditions shall be directed in writing to the Purchasing Office at least ten (10) days prior to submittal deadline, unless otherwise instructed on the Request for Qualifications Page. Inquiries must reference the proposed service and the date of the qualification submittal deadline. Interpretations will be made in the form of an addendum placed on the City's website. The City shall not be responsible for any other explanation or interpretation.

12. **Legal Requirements:** All applicable provisions of Federal, State, County, and local laws including all ordinances, rules, and regulations shall govern the development, submittal and evaluation of all qualifications received in response to these specifications and shall govern any and all claims between person(s) submitting a qualification response hereto and the City of Pensacola, by and through its officers, employees and authorized representatives. A lack of knowledge by the respondent concerning any of the aforementioned shall not constitute a cognizable defense against the legal effect thereof. The respondent agrees that it will not discriminate on the basis of race, creed, color, national origin, sex, age or disability.

13. **Licenses, Registration and Certificates:** Each respondent shall possess at the time of submitting its statement of qualification all licenses, registrations, and certificates necessary to engage in the business of contracting (or special contracting if the work

to be performed necessitates a particular type of specialty contractor) in the City of Pensacola. Respondent must also possess all licenses, registrations, and certificates necessary to comply with federal, state, and local laws and regulations. The awarded bidder shall be registered at the time of contract execution as an active vendor with the Florida Department of State, Division of Corporations (www.sunbiz.org).

14. **Mistakes:** Respondents are expected to examine the conditions, scope of work, qualification prices, extensions, and all instructions pertaining to the services involved. Failure to do so will be at the respondent's risk. Unit prices will govern in award.

15. **Payment of Invoices:** The City of Pensacola issues checks for payment of invoices on the 10th of each month. The signed receiving copy of the purchase order and a correct invoice must have been received by the Accounts Payable Activity prior to the 4th of the month. Item(s) or service(s) received on or after the 4th will be processed in the following month. All invoices are payable by the City under the terms of Florida Prompt Payment Act, Florida Statute §218.70. All purchases are subject to availability of funds in the City's budget.

16. **Permits and Taxes:** The respondent shall procure all permits, pay all charges, fees, and taxes, and give all notices necessary and incidental to the due and lawful prosecution of the work.

17. **Pre-RFP Meetings:** If an RFP requires a mandatory pre-RFP meeting, any representative of a firm wishing to submit a qualification must sign in with the name of the proposing firm.

18. **Prohibited Conduct by Respondents:** Upon the publication of any solicitation for sealed bids, requests for proposals, requests for qualifications, or other solicitation of interest or invitation to negotiate by any authorized representative of the City of Pensacola, any party interested in submitting a bid, qualification, or other response reflecting an interest in participating in the purchasing or contracting process shall be prohibited from engaging in any communication **pertaining to formal solicitations** with any member of Pensacola City Council, the Mayor, or any member of a selection/evaluation committee for RFPs/RFQs, whether directly or indirectly or through any representative or agent, whether in person, by mail, by facsimile, by telephone, by electronic communications device, or by any other means of communication, until such time as the City has completed all action with respect to the solicitation.

19. **Protests:** Protests of the plans, specifications, and other requirements of requests for qualifications must be received in writing by the Purchasing Office at least ten (10) business days prior to the scheduled qualification opening. A detailed explanation of the reason for the protest must be included. Protests of the intended award of submittal or contract must be in writing and received in the Purchasing Office within five (5) business days of the notice of intent to award. A detailed explanation of the protest must be included.

20. **Public Entity Crimes:** By submitting a qualification each respondent is confirming that the company has not been placed on the convicted vendors list as described in Florida Statute §287.133 (2) (a).

21. **Public Records:** Any material submitted in response to this Request for Qualification will become a public document pursuant to Florida Statute §119.07. This includes material which the responding respondent might consider to be confidential or a trade secret. Any claim of confidentiality is waived upon submission, effective after opening pursuant to Florida Statute §119.07.

22. **Public Records Law:** The Parties shall each comply with Florida Public Records laws. The Parties hereby contractually agree that each Party shall allow public access to all documents, papers, letters, or other public records as defined in Chapter 119, Florida Statutes, made or received by either Party in conjunction with this agreement, or related thereto, unless a statutory exemption from disclosure exists. Notwithstanding any provision to the contrary, it is expressly agreed that Contractor's failure to comply with this provision, within seven (7) days of notice from the City, shall constitute an immediate and material breach of contract for which the City may, in the City's sole discretion, unilaterally terminate this agreement without prejudice to any right or remedy.

23. **Qualification Withdrawals:** No qualification may be withdrawn after closing time for receipt of qualifications for a period of sixty (60) days thereafter. The contract award shall be legally binding at the time of award by City Council or Mayor.

24. **Rejection of Qualifications:** The City of Pensacola reserves the right to accept or reject any or all qualifications, to award qualifications on a split-order basis by item or service number, to waive any irregularities, technicalities, or informalities, and to re-advertise for qualifications when deemed in the best interest of the City of Pensacola.

25. **Sealed Qualifications:** The specifications and all executed qualification forms must be submitted in a sealed envelope. All qualifications must be signed by an authorized representative of the respondent. In the event more than one qualification submittal deadline is scheduled for the same date and time, do not include qualifications concerning different sets of specifications within the same envelope. **The face of the sealed envelope shall be plainly marked identifying the respondent, the RFQ title and the RFQ number.** It shall be the sole responsibility of the respondent to assure receipt of qualification at the Purchasing Office prior to the published time for the qualification submittal deadline. No qualification will be accepted after closing time for receipt of qualifications, **nor will any offers by telephone, fax, internet, or email be accepted**.

26. **Tax:** The City of Pensacola is exempt from all State and local sales tax.

27. **Termination for Convenience:** A contract may be terminated in whole or in part by the City at any time and for any reason in accordance with this clause whenever the

City shall determine that such termination is in the best interest of the City. Any such termination shall be effected by the delivery to the contractor at least five (5) working days before the effective date of a Notice of Termination specifying the extent to which performance shall be terminated and the date upon which termination becomes effective. An equitable adjustment in the contract price shall be made for the completed service, but no amount shall be allowed for anticipated profit on unperformed services.

28. **Unauthorized Aliens:** The City of Pensacola shall consider the employment by any contracted vendor of unauthorized aliens a violation of Section 274A of the Immigration and Nationality Act. Such violation shall be cause for unilateral termination of this contract.

29. **Venue:** Venue for any claim, action or proceeding arising out of this contract shall be Escambia County, Florida.

ANY AND ALL SPECIAL CONDITIONS AND SPECIFICATIONS ATTACHED HERETO WHICH VARY FROM THESE GENERAL CONDITIONS SHALL HAVE PRECEDENCE.

INSURANCE AND INDEMNIFICATION

GENERAL

Before starting and until termination of work for, or on behalf of the **City**, the Contractor shall procure and maintain insurance of the types and limits specified.

The term City, as is used in this section, is defined to mean the City of Pensacola, itself, any subsidiaries or affiliates, elected and appointed officials, employees, volunteers, representatives and agents.

COVERAGE

Insurance shall be issued by an insurer whose business reputation, financial stability and claims payment reputation is satisfactory to the City, for the City's protection only. Unless otherwise agreed, the amounts, form and type of insurance shall conform to the following minimum requirements.

Worker's Compensation

The Contractor shall purchase and maintain Worker's Compensation Insurance Coverage for all Workers' Compensation as legally required. Additionally, the policy, or separately obtained policy, must include Employers Liability Coverage of at least $1,000,000 each person – accident, $1,000,000 each person – disease, $1,000,000 aggregate – disease.

Commercial General, Automobile, Contractor's Pollution Liability and Umbrella Liability Coverages

The Contractor shall purchase coverage on forms no more restrictive than the latest editions of the Commercial General Liability, Business Auto, and Contractor's Pollution Liability policies filed by the Insurance Services Office. **The City of Pensacola shall be an Additional Insured** and such coverage shall be at least as broad as that provided to the Named Insured under the policy for the terms and conditions of this Contract. The City shall not be considered liable for premium payment, entitled to any premium return or dividend and shall not be considered a member of any mutual or reciprocal company. **Unless specifically specified below, minimum limits of $10,000,000 per occurrence, and per accident, combined single limit for liability must be provided**, with umbrella insurance coverage making up any difference between the policy limits of underlying policies coverage and the total amount of coverage required. If the required limits of liability afforded should become impaired by reason of any claim, then the Contractor agrees to have such limits of $10,000,000 per occurrence, reinstated under the policy.

Commercial General Liability coverage must be provided, including bodily injury and property damage liability for premises, operations, products and completed operations, independent contractors, and property damage resulting from, explosion, collapse or underground (x,c,u) exposures.

Business Auto Policy coverage must be provided, including bodily injury and property damage arising out of operation, maintenance or use of owned, non-owned and hired automobiles and employee non-ownership use. **Minimum limits of $1,000,000 combined single limit will be acceptable for this line of coverage.**

Contractor's Pollution Liability coverage for bodily injury, property damage, fines, penalties, defense, and clean up must be included. Coverage must include both sudden/accidental and non-sudden/gradual. Hazardous materials such as asbestos, lead, mold, fungi, mercury, polychlorinated biphenyls (PCBs), chlorofluorocarbons (CFCs), radioactive, and heavy metals must be included.

Umbrella Liability Insurance coverage shall not be more restrictive than the underlying insurance policy coverages.

CERTIFICATES OF INSURANCE

Required insurance shall be documented in the Certificates of Insurance which provide that the City shall be notified at least thirty (30) days in advance of cancellation, non-renewal or adverse change or restriction in coverage. **The City shall be named as an Additional Insured** and this contract shall be listed. If required by the City, the Contractor shall furnish copies of the Contractor's insurance polices, forms, endorsements, jackets and other items forming a part of, or relating to such policies. Certificates shall be on the "Certificate of Insurance" form equal to, as determined by the City, an ACORD 25. **Any wording in a Certificate which would make notification of cancellation, adverse change or restriction in coverage to the City an option shall be deleted or crossed out by the insurance carrier or the insurance carrier's agent or employee**. If on an ACORD 25 or similar form, the words "endeavor to" and "but failure..." shall be deleted so that the sentence ends with the word "left" or signed endorsements for the cancellation

clauses MUST accompany Certificate(s) of Insurance. The Contractor shall replace any canceled, adversely changed, restricted or non-renewed policies with the new policies acceptable to the City and shall file with the City, Certificate of Insurance under the new policies prior to the effective date of such cancellation, adverse change or restriction. If any policy is not timely replaced, in a manner acceptable to the City, the Contractor shall, upon instructions of the City, cease all operations under the Contract until directed by the City in writing, to resume operations.

INSURANCE OF THE CONTRACTOR PRIMARY

The Contractor required coverage shall be considered primary, and all other insurance shall be considered as excess, over and above the Contractor's coverage. The Contractor's policies of coverage will be considered primary as relates to all provisions of the contract.

LOSS CONTROL AND SAFETY

The Contractor shall retain control over its employees, agents, servants, and subcontractors, as well as control over its invitees, and its activities on and about the subject premises and the manner in which such activities shall be undertaken and to that end, the Contractor shall not be deemed to be an agent of the City. Precaution shall be exercised at all times by the Contractor for the protection of all persons, including employees and property. The Contractor shall make special effort to detect hazards and shall take prompt action where loss control/safety measures should reasonably be expected.

HOLD HARMLESS

The Contractor shall indemnify and hold harmless the City of Pensacola, its officers and employees, from any and all liabilities, damages, losses, and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the Contractor and persons employed or utilized by the Contractor in the performance of this contract. The Contractor's obligation shall not be limited by, or in any way to, any insurance coverage or by any provision in or exclusion or omission from any policy of insurance.

PAY ON BEHALF OF THE CITY

The Contractor agrees to pay on behalf of the City, as well as provide a legal defense for the City, both of which will be done only if and when requested by the City, for all claims as described in the Hold Harmless paragraph. Such payment on the behalf of the City shall be in addition to any and all other legal remedies available to the City and shall not be considered to be the City's exclusive remedy.

GOVERNING LAW AND VENUE

This Contract is governed and construed in accordance with laws of the State of Florida. The law of the State of Florida shall be the law applied in the resolution of any claim, actions or proceedings arising out of the Contract. Venue for any claim, actions or proceedings arising out of this Contract shall be Escambia County, Florida.

Exhibit A
Submittal Content Requirements & Required Forms

The Statement of Qualifications should include, at a minimum, the content outlined in the sections below.

Criterion 1: Team Organization, Staffing, and Availability of Resources (15 points)

Organization: Describe the business organization of the Contractor's Entity including

- Legal name of the firm,
- Location of firm,
- Contact Persons,
- Established date of the firm,
- Legal business description (Individual, Partnership, Corporation, Joint Venture, etc.).

Leadership: Provide the following information about the individuals in up to 5 key leadership roles for the Project.

- Individual's name
- Company / title / role on this Project
- Education and training
- Professional registrations and certifications
- Professional experience, representative projects, and specialty
- Responsibilities other than this Project that will run concurrently with this Project, as well as the anticipated percentage of that person's time that will be absorbed by those responsibilities over the next year. These responsibilities should include other project work as well as any administrative, executive, or business development roles.
- Tenure this person has with the company, and in the current position

Technical Staff: Provide the following information about key technical personnel and other non-leadership individuals.

- Individual's name
- Company / title / role on this Project
- Education and training
- Professional registrations and certifications
- Professional experience, representative projects, and specialty
- Responsibilities, other than this Project, that will run concurrently with this Project, as well as the anticipated percentage of that person's time that will be absorbed by those responsibilities over the next year.
- Tenure this person has with the company, and in the current position

Resources: Describe the Contractor's strategy for ensuring adequate resources are available to complete the Project, including addressing any potential shortages of

subcontractors, skilled trades workers, suppliers, materials, or others outside the direct employ of the Contractor.

Provide a statement that the Contractor and/or team members have the licenses, registrations, and credentials required to carry out the D&D.

- List the names of any individuals or entities on the Contractor's team who have ever been involved in debarment, disqualification, or removal from a federal, state, or local government public works project. Identify any individual or company that has had its license suspended or revoked. Provide an explanation of the situation and any extenuating circumstances or remediation that otherwise would qualify the individual or entity to serve effectively as part of the Contractor's team for this Project. If there are no such circumstances, please indicate so.
- Disclose any association or other circumstance that could be construed as a conflict of interest with the City of Pensacola and its Consultants. If there are no such circumstances, please indicate so.

Criterion 2: Relevant Project Experience (30 points)
List up to 5 projects of a similar scope and complexity as the D&D broadly described in Section 1. No projects with a date of completion before August 1, 2014 should be included. Include

- Project name and location;
- Services provided;
- Experience with relevant environmental issues (i.e. asbestos, lead paint, soil contamination);
- Demolition in sensitive areas such as residential;
- Date of completion or project status;
- Final demolition costs;
- History of meeting project schedules;
- Experience with grant funded projects;
- History of accomplishing services within the established budget, including planned vs. actual detail cost savings or cost increases.
- Describe challenges and lessons learned for each project as well as how those challenges and lessons learned may apply to this Project.

The projects selected for this section should maximize the number of individuals identified in Criterion 1. Provide a matrix illustrating the project experience of the individuals listed in Criterion 1 with the projects listed in this section. Demonstrate the extent to which the team members identified in this Project have worked together successfully on other projects of similar size and scope as the proposed Project.

Criterion 3: Past Budget and Schedule Performance (15 points)
For the projects listed in Criterion 2, describe any challenges associated with meeting budget and schedule. Identify strategies used to address those challenges. Specify original budget and schedule – including planned date of substantial completion and final completion – as well as actual final budget and schedule.

Criterion 4: Project Delivery Approach (15 points)
Provide a high level narrative of your project delivery approach including a preliminary discussion of demolition methods, waste management and transportation, safety and security envisioned for this project. When appropriate, provide specific examples from the projects listed in Criterion 2.

Criterion 5: Past Demolition Performance (10 points)

- Describe any bankruptcy or receivership, past or present, of the Contractor or a member of the Contractor's team. If there are no such circumstances, please indicate so.

- Summarize all litigation and formal disputes within the past 10 years between any Public Entity Owner, or any other Owner, and the Contractor or any member of the Contractor's team.

- Provide a list of all outstanding or past judgments or lawsuits against the Contractor, its team members and/or Owners, within the past 10 years.

- Provide a summary of any mediation or arbitration history of the Contractor and its team members in the past 10 years. If there are none, please indicate so.

Criterion 6: Safety Record (5 points)
Provide the following information to allow the City of Pensacola to evaluate the Contractor's safety performance record. Provide this information for the firm that will be providing the umbrella of leadership responsibility and liability for the Contractor.

- Provide one copy of the Contractor's Occupational Safety and Health Administration (OSHA) Form 300A, Summary of Work-Related Injuries and Illnesses for each of the 3 calendar years preceding the current year.
- Provide a summary of the Contractor's on-going Safety and Training plans that are most pertinent to this Project.

Provide a statement regarding any prior serious, repeat, willful, or criminal violation of the federal Occupational Safety and Health Act of 1970 for the Contractor or any member of the Contractor's team. If no such violations exist, provide a statement attesting to that fact.

Criterion 7: Quality, Completeness, and Readability of SOQ Package (5 points)
No submission is required for this section. Points will be awarded based on the SOQ package as a whole.

Criterion 8: Certification as or partnership with an SBE/MBE/WBE (3 points).
Indicate whether or not the firm is itself or is partnered with any Small/Minority/ Woman-Owned Business Enterprises as certified by the City of Pensacola.

Criterion 9: Certification as or partnership with a VBE (2 points).
Indicate whether or not the firm is itself or is partnered with any Veteran-Owned Business Enterprises as certified by the City of Pensacola.

Section 787.06(13) Florida Statutes requires all nongovernmental entities executing, renewing, or extending a contract with a governmental entity to provide an affidavit signed by an officer or representative of the nongovernmental entity under penalty of perjury that the nongovernmental entity does not use coercion for labor or services.

The undersigned hereby certifies that he/she is an officer or authorized representative of the vendor identified above and that said vendor does not use coercion for labor or services as defined in Section 787.06 Florida Statutes.

Florida Statute 787.06

(2)(a) "Coercion" means:

1. *Using or threatening to use physical force against any person;*
2. *Restraining, isolating, or confining or threatening to restrain, isolate, or confine any person without lawful authority and against her or his will;*
3. *Using lending or other credit methods to establish a debt by any person when labor or services are pledged as a security for the debt, if the value of the labor or services as reasonably assessed is not applied toward the liquidation of the debt, the length and nature of the labor or services are not respectively limited and defined;*
4. *Destroying, concealing, removing, confiscating, withholding, or possessing any actual or purported passport, visa, or other immigration document, or any other actual or purported government identification document, of any person;*
5. *Causing or threatening to cause financial harm to any person;*
6. *Enticing or luring any person by fraud or deceit; or*
7. *Providing a controlled substance as outlined in Schedule I or Schedule II of s. 893.03 to any person for the purpose of exploitation of that person.*

(2)(e) "Labor" means work of economic or financial value.

(2)(h) "Services" means any act committed at the behest of, under the supervision of, or for the benefit of another. The term includes, but is not limited to, forced marriage, servitude, or the removal of organs.

Under penalties of perjury, I declare that I have read the foregoing document and that the facts stated in it are true.

52.209-5 FAR Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters

1. The Submitter certifies, to the best of its knowledge and belief, that the Submitter and/or any of its Principals:
   A. Are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency.
   B. Have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and
   C. Are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph 1-B of this provision.
2. The Submitter has not, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.
   A. "Principals," for the purposes of this certification, means officers; directors; owners; partners; and persons having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

      This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.
   B. The Submitter shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Submitter learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
   C. A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Submitter's responsibility. Failure of the Submitter to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Submitter nonresponsive.
   D. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of a Submitter is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
   E. The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Submitter knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

52.209-6 FAR Protecting the Government's Interest When Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment

1. The Government suspends or debars Contractors to protect the Government's interests. The Contractor shall not enter into any subcontract in excess of $25,000 with a Contractor that is debarred, suspended, or proposed for debarment unless there is a compelling reason to do so.

2. The Contractor shall require each proposed first-tier subcontractor, whose subcontract will exceed $25,000, to disclose to the Contractor, in writing, whether as of the time of award of the subcontract, the subcontractor, or its principals, is or is not debarred, suspended, or proposed for debarment by the Federal Government.

3. A corporate officer or a designee of the Contractor shall notify the Contracting Officer, in writing, before entering into a subcontract with a party that is debarred, suspended, or proposed for debarment (see FAR 9.404 for information on the Excluded Parties List System). The notice must include the following:

   A. The name of the subcontractor.

   B. The Contractor's knowledge of the reasons for the subcontractor being in the Excluded Parties List System.

   C. The compelling reason(s) for doing business with the subcontractor notwithstanding its inclusion in the Excluded Parties List System.

   D. The systems and procedures the Contractor has established to ensure that it is fully protecting the Government's interests when dealing with such subcontractor in view of the specific basis for the party's debarment, suspension, or proposed debarment.

VETERAN BUSINESS ENTERPRISE STATEMENT

In order to foster economic development and business opportunities for service- disabled veterans and wartime veterans who have made extraordinary sacrifices on behalf of the nation, the City of Pensacola has adopted a Veteran Business Enterprise ("VBE") Preference. For further information regarding this program, please refer to Section 3-3-12 AND 3-3-13 of the Code of the City of Pensacola.

In order for a respondent to receive credit for being VBE vendor, it must perform useful business functions on the contract, have its principal place of business in Escambia or Santa Rosa County and be certified as a veteran business enterprise by the State of Florida Department of Management Services ("DMS") as set forth in Section 295.187 of the Florida Statutes as of the date set for submittal of bids. For purposes of the City's VBE Program, the respondent's principal place of business must be within Escambia County, FL, or Santa Rosa County, FL.

There shall be no third-party beneficiaries of the Veteran Business Enterprise Preference provisions of this solicitation or resulting contract. The City of Pensacola shall have the exclusive means of enforcement of the Veteran Business Enterprise Preference Ordinance and any contract terms. The City of Pensacola is the sole judge of compliance. All solicitations and submittals awarded will be evaluated in accordance with the Code of the City of Pensacola.

If the Respondent is a qualifying VBE, please complete the boxes below:
If not, please mark N/A.

Respondent's Name:	Respondent's Principle Place of Business	Florida Certification Number as issued by State of Florida DMS:

THIS FORM MUST BE SUBMITTED WITH RESPONSE.

MINORITY AND WOMEN BUSINESS ENTERPRISE STATEMENT

The City has implemented a Minority/Women Business Enterprise (MWBE) program to assist certified minority- and women-owned businesses with identifying and participating in City of Pensacola procurement and construction opportunities as set in the Code of the City of Pensacola, Ordinance No. 4-15.

In order for a respondent to receive credit for being a MWBE vendor, it must perform useful business functions on the contract, have its principal place of business in Escambia, Santa Rosa, Okaloosa, Walton County in Florida or Mobile, Alabama, and have received a certification letter issued from the City of Pensacola.

There shall be no third-party beneficiaries of the Minority and Women Business Enterprise provisions of this solicitation or resulting contract. The City of Pensacola shall have the exclusive means of enforcement of the Minority and Women Business Enterprise Ordinance and any contract terms. The City of Pensacola is the sole judge of compliance. All solicitations and submittals awarded will be evaluated in accordance with the Code of the City of Pensacola.

CITY OF PENSACOLA
SMALL BUSINESS ENTERPRISE STATEMENT

The Pensacola City Council adopted a Small Business Enterprise Ordinance #61-89. This ordinance encourages participation of small business in the City procurement process. Participation goals will be provided on a project-by-project basis, based on the availability of certified small businesses.

> **A Small Business is defined as an independently owned and operated business employing 50 or fewer permanent full-time employees and having a net worth of not more than $1 million. The business must be located in Escambia or Santa Rosa County.**

You must provide the following information sought in the accompanying forms for your submittal to be considered responsive:

RFQs **with** a specified Small Business Enterprise (SBE) goal will include a Bidder Questionnaire, Sub-contractor Solicitation, SBE Intent to Perform as a Sub-contractor and SBE Participation forms.

RFQs **without** a specified Small Business Enterprise (SBE) goal will include a Bidder Questionnaire form only.

DRUG-FREE WORKPLACE CERTIFICATE

IDENTICAL TIE BIDS - Pursuant to Section 287.087, Florida Statutes, preference shall be given to business with Drug-Free Workplace Programs. Whenever two or more bids which are equal with respect to price, quality, and service are received for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a Drug-Free Workplace Program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a Drug-Free Workplace Program. In order to have a Drug-Free Workplace Program, a business shall:

1) Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

2) Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a Drug-Free Workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.

3) Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).

4) In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of Chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after such conviction.

5) Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.

6) Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

AS THE PERSON AUTHORIZED TO SIGN THE STATEMENT, I CERTIFY THAT THIS FIRM COMPLIES FULLY WITH THE ABOVE REQUIREMENTS.

CONTRACT BETWEEN CITY OF PENSACOLA
AND
[xxxCONTRACTORxxx]
BASED UPON REQUEST FOR QUALIFICATIONS #_____

THIS CONTRACT ("Contract") is made this ___ day of _____, 20__, by and between the City of Pensacola ("City"), a Florida municipal corporation created and existing under the laws of the State of Florida, located at 222 W. Main Street, Pensacola, Florida 32502, and _____, ("Contractor"), a corporation authorized to do business in Florida, located at _____, (the City and Contractor collectively referred to hereinafter as the "Parties").

WITNESSETH:

WHEREAS, the City solicited a Request for Qualifications #_____, on _____, 20__ ("RFQ"), as described in Project Manual/Specifications for _____, as modified by any addendum to the ("Addenda"), all as attached hereto as Exhibit A and incorporated herein by this reference (collectively referred to hereinafter as the "RFQ"); and

WHEREAS, in response to the RFQ, the Contractor submitted to the City a statement of qualifications and experience ("SOQ") dated _____, 20__, and/or any other documents submitted in response to the RFQ, attached hereto as Exhibit B and incorporated herein by this reference; and

WHEREAS, the City has selected the Contractor pursuant to the selection criteria or process as specified in the RFQ based on the Contractor's SOQ and any other requested information, and the Parties have agreed upon negotiated fees and services ("Negotiated Terms") as attached hereto in Exhibit C and incorporated herein by this reference; and

WHEREAS, the Parties desire the Contractor to perform as described in the RFQ and the SOQ, the Negotiated Terms, and pursuant to the terms and conditions of this Contract; and

WHEREAS, the Parties desire to enter into this Contract;

NOW, THEREFORE, in consideration of the work to be performed and the payment for the performance of the work, of the mutual covenants and benefits contained herein, and for other good and valuable consideration, the Parties agree as follows:

Section 1. Recitals.
The recitals contained above are true and correct and are incorporated into this Contract.

Section 2. Contractor's Obligations.

SAMPLE

The Contractor shall perform all work and services described in, and in accordance with, the Contract. The Contractor warrants that all equipment, materials, and workmanship furnished, whether furnished by Contractor or its subcontractors or sub-suppliers, will comply with the Contract and any City specifications, drawings, and other descriptions supplied or adopted. The Contractor further warrants that the supplies and workmanship will be new, fit, and sufficient for the purpose for which they are intended, of good materials, design, and workmanship, and free from defects or failure. The City or its duly authorized representative shall at all times have full opportunity to inspect the materials to be furnished and the work to be done under this Contract. The Contractor shall comply with all applicable federal, state, and local laws, ordinances, rules, and regulations pertaining to the performance of this Contract. The Contractor is responsible for and shall indemnify the City against all damage or loss caused by fire, theft, or otherwise to materials, tools, equipment, and consumables left on City property by the Contractor.

Section 3. Term of Contract.
Subject to the right of termination for cause or convenience, the term of this Contract shall be as specified in the attached RFQ and SOQ.

Section 4. Payment.
The Contractor agrees to perform all work and services in Section 2 at the rates, costs, and any not-to-exceed amount provided for in the attached SOQ and Attachment B, Payment Schedule. The amount will be paid by the City based on invoices submitted by Contractor and payments approved by the City, only after written acceptance by the City pursuant to the Contract. Such payment shall be in accordance with the Florida Prompt Payment Act. In the event that the Consultant does not fully perform its obligations under the Contract, the City reserves the right to withhold payments for work not performed, to engage an alternative Contractor to complete work not performed, and to withhold such amounts as may be required to hold the City harmless from any claims or damages, direct, indirect or consequential, that may be sustained on account of the Contractor's acts or omissions in the performance of this Contract.

Section 5. Bond.

Is a bond required? (___) Yes (___) No

If yes: Contractor shall provide all bond(s) as required in the Contract. Should the City in the City's sole discretion at any time deem any of the sureties upon such bond to be unsatisfactory or if for any reason such bond shall cease to be adequate security for the City, the Contractor shall within five (5) days of written notice from the City furnish a new or additional bond in full sum and satisfactory to the City. No payment shall be deemed to be due or to be made to the Contractor unless and until such new or additional bond shall be furnished and approved in writing by the City. The premium and all expenses associated with such new or additional bond shall be paid by, and the sole responsibility of, the Contractor.

Section 6. Performance Schedule.
The Contractor shall commence and complete all work and services pursuant to the Contract.

SAMPLE

Section 7. Necessary Approvals.
Contractor shall procure all permits, licenses, and certificates and any approvals in performance and completion of this Contract as may be required by federal, state, and local laws, ordinances, rules, and regulations, and in accordance with the Contract.

Section 8. No Waiver.
No waiver, alterations, consent, or modification of any of the provisions of the Contract shall be binding unless in writing and signed by the Mayor or his/her designee.

Section 9. Governing Law.
This Contract is governed and construed in accordance with the laws of the State of Florida. The law of the State of Florida shall be the law applied in the resolution of any claim, actions, or proceedings arising out of this Contract.

Section 10. Venue.
Venue for any claim, actions, or proceedings arising out of this Contract shall be Escambia County, Florida.

Section 11. No Discrimination.
Contractor shall not discriminate on the basis of any class protected by federal, state, or local law in the performance of this Contract.

Section 12. Assignment.
The rights and privileges conferred by this Contract shall not be assigned or transferred without the written consent of the City, which consent shall not be unreasonably withheld.

Section 13. No Other Agreements.
The Parties agree the Contract contains all the terms and conditions agreed upon by the Parties. No other agreements, oral or otherwise, regarding the subject matter of this Contract shall be deemed to exist or to bind either Party.

Section 14. Remedies for Failure to Perform or Breach of Contract.
The City reserves the right to seek all remedies available under law in the event of a failure to perform or other breach of this Contract by the Contractor, and the failure of the City to employ a particular remedy shall not be regarded by the Parties as a waiver of that or any other available remedy.

Section 15. Termination for Convenience.
The City may terminate this Contract without cause upon thirty (30) days prior written notice.

Section 16. Public Records Act.
The parties acknowledge and agree to fulfill all obligations respecting required contract provisions in any contract entered into or amended after July 1, 2016, in full compliance pursuant to Section 119.0701, *Florida Statutes*, and obligations respecting termination of a contract for failure to provide public access to public records. The parties expressly

SAMPLE

agree specifically that the contracting parties hereto shall comply with the requirements within Attachment "A" attached hereto and incorporated by reference.

Section 17. Mandatory Use of E-Verify System.
In compliance with the provisions of F.S. 448.095, the parties to this contract and any subcontractors engaged in the performance of this contract hereby certify that they have registered with and shall use the E-Verify system of the United States Department of Homeland Security to verify the work authorization status of all newly hired employees, within the meaning of the statute.

IN WITNESS WHEREOF, the parties hereto have caused this Contract to be executed and sealed the day and year first above written.

Attachment "A"

PUBLIC RECORDS: Contractor shall comply with Chapter 119, Florida Statutes. Specifically, Contractor shall:

A. Keep and maintain public records required by the City to perform the service.

B. Upon request from the City's custodian of public records, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

C. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Contract term and following the completion of the Contract if Contractor does not transfer the records to the City.

D. Upon completion of the Contract, transfer, at no cost, to the City, all public records in possession of Contractor or keep and maintain public records required by the City to perform the service. If Contractor transfers all public records to the City upon completion of the Contract, Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If Contractor keeps and maintains public records upon completion of the Contract, Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request of the City's custodian of public records, in a format that is compatible with the information technology systems of the City.

Failure by Contractor to comply with Chapter 119, Florida Statutes, shall be grounds for immediate unilateral cancellation of this Contract by the City.

IF CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE PUBLIC RECORDS COORDINATOR AT:

THE OFFICE OF THE CITY CLERK, (850) 435-1715

Addendum Date: November 27, 2024

CITY OF PENSACOLA, FLORIDA
ADDENDUM #1

DECOMMISSIONING AND DEMOLITION (D&D) CONTRACTOR FOR THE FORMER BAPTIST HOSPITAL COMPLEX

RFQ No. 25-008

The following items take precedence over the documents for the item named above. All other terms and conditions shall remain the same.

A SIGNED COPY OF THIS ADDENDUM MUST BE RETURNED WITH YOUR SUBMITTAL AS ACKNOWLEDGEMENT.

Company:_____ Date:_____

Authorized Representative:_____ Title:_____
Printed Name

Signature:_____

1. What is the status of the environmental survey for this project?
A. Phase I is complete and available. It will be uploaded along with the addendum.

2. Can you please let me know how to find the asbestos survey for this project and/or send me a pre-qualification package to fill out to receive it?
A. Underway - It will be complete prior to RFP.

3. What are the detailed criteria for evaluation?
A. See Exhibit A, pages 18-22 of RFQ.

4. Who is conducting the evaluation, and how many people are on the evaluation team? Can you provide their backgrounds?
A. Selection committee:
Erica Grancagnolo, Economic Development Director
Russell Sweat, Facilities and Fleet Director
Brad Hinote, City Engineer
Ken Ibold, Deputy Airport Director

5. Has a reuse study been done on this project? If so, can I get a copy of it?
A. Yes, it is attached.

6. Regarding Criterion 1: In the leadership and technical staff section, professional

registrations and certifications are requested. If I attach all key staff resumes and their certifications, will that count towards the maximum 60-page requirement?

A. Yes.

7. If I include a subcontractor's qualifications, will that count towards the maximum 60-page requirement?

A. Yes.

8. Can you provide any detail on the specific Grant Requirements on this project?

A. The executed grant is attached.

9. Will oral presentations format be in person or virtual?

A. Presenters must attend in person.

10. There are two methods mentioned for submittal of documents, hard copies and electronic. Which will be required for the RFQ specifically?

A. Either hardcopy or electronic submittals will be allowed per the following RFQ instructions:

> Sealed and complete hardcopy proposals **with original or electronic signature**, and **five (5) additional copies**, plus **one (1) complete and identical electronic copy (PDF)** on flash drive or CD, must be received no later than **December 5, 2024, 2:30 P.M.**, local time, at the following location.
>
> **City Hall** (lobby)
> **222 West Main Street**
> **Pensacola, Florida, 32502**
> **Attention: Purchasing**
>
> **Alternatively, electronic bids may be submitted to Demandstar or Central Bidding.** Both sites require registration and varying fees for notifications and document downloads. **If submitting electronic bids and a bid/proposal bond is required, that bond must be mailed separately to the address above.**

11. Are as-builts available?

A. No.

12. Will as-builts be available prior to submission date of RFQ? For reference in creating demolition plan.

A. No, but we hope to have them available prior to the RFP.

13. Will asbestos survey be available prior to RFQ deadline?

A. No, but it will be available prior to the RFP.

14. Will enviro report be available prior to RFQ deadline?

A. Yes, the Phase I ESA Report will be uploaded along with the addendum.

Memorandum

Date: 27 August 2024

To: Erica Grancagnolo, City of Pensacola
Adam Cobb, City of Pensacola

Copies to: Tom Wurzinger, Don Goebel – Geosyntec Consultants

From: Robert Bruce, Katie Fox - Geosyntec Consultants

Subject: **Summary of Observations**
Potential Beneficial Re-use of Former Baptist Hospital Complex

The memorandum summarizes observations related to potential re-use of the Main Hospital building, the Medical Towers, and the Behavioral Health Unit (BHU) that form part of the former Baptist Hospital Complex. These observations are based on a site reconnaissance carried out by Geosyntec on 25 and 26 July 2024 and a cursory review of available documents. Our site reconnaissance was carried out to observe general conditions of the buildings and did not include structural assessments or sampling. The site visit was facilitated by representatives of Baptist Hospital but not all areas and spaces were visited during the reconnaissance as some areas were locked or otherwise inaccessible. Our observations related to building re-use are summarized below:

STRUCTURE

The Main Hospital building was constructed in the early 1950's and the Medical Towers and BHU were constructed in the early 1970's. The buildings are a combination of structural steel and concrete frame construction and there have been modifications, expansions, and renovations to the structures over their life.

Foundations - The buildings are supported on conventional spread foundations. There is some minor cracking and indications of settlement, but no visible indications of more extensive settlement related distress (such as racking of door frames and other openings).

Roof - The roofs are flat with membrane covering. There are indications that there are water leaks through the roof and potentially in some walls area. The visible portions of the membranes are in poor condition and would likely require replacement in a re-use scenario. The age of the building is an indicator of the possible use of asbestos-containing materials (ACM) in the roof materials (i.e., mastic and possible underlayment).

Façade – The Main Hospital building and the Medical Towers have a brick veneer façade. There are indications of localized deterioration of the mortar beds, and re-pointing may be required. The steel lintels above some of the windows and doors are corroded. The expanded steel has resulted in cracking of the mortar adjacent to the fenestrations.

Windows - The framing of the exterior windows is showing indications of corrosion and wear and is likely contributing to water leakage. The windows would require repairs and more likely full replacement with energy efficient systems.

BUILDING SYSTEMS

HVAC- the current HVAC system is a mixture of steam for heating provided by the adjacent steam plant and conventional chillers and air-handling equipment. In some locations the ducting was observed to be damaged with potential mold inside the ducts. Some of the HVAC ducting and steam lines appear to be jacketed with insulation that may be ACM. Therefore, the ductwork and likely the air-handling equipment would need to be removed and managed under ACM regulations and best management practices. The use of steam is not cost or energy efficient and building re-use would more likely require replacement of the entire HVAC system with current technologies and a system specifically purposed for the building zones and occupancy needs.

Building Utilities – In addition to HVAC, the buildings are serviced with hot and cold domestic water, fire water, sewer, electrical, medical air/oxygen, vacuum, and various ducts and cabling for communication and instrumentations. Where the drop-tile ceiling has collapsed, exposed utilities indicate that there have been renovations and modifications through the building life. The sanitary sewer system is more extensive than typically required for uses such as office spaces since there is usually sewer connections to each patient room. Transformers for the electrical service are of an age consistent with the use of polychlorinated biphenyls (PCBs). If to, the transformers would likely need to replaced and the PCB managed as a waste material. Given the age of the buildings, fluorescent light fixtures may have PCB-containing ballasts. Mercury switches may be present in thermostats. Overall, the building utilities would likely require removal and replacement with current systems suitable in capacity, location, and metering, for the planned occupancy.

Flooring and Interior Walls – The flooring and interior walls exhibit water damage and indications of mold. Some of the flooring and/or mastic is likely ACM. Typical abatement of water damage and mold in interior walls requires removal and replacement of the walls architectural finish and insulation which further requires removal and replacement of affected doors, outlets and fixtures. More generally, the flooring and interior walls would require removal and replacement/re-alignment to suit the planned building occupancy.

Elevators – The elevators include both hydraulic low-lift units and electromechanical unit for passenger, freight, and light-passage (i.e. dumbwaiter) services. The elevator cabs are showing significant wear and most likely the overall elevator capacity and elevator conditions would need renovation to suit a new building use and likely upgrade to current energy efficient units.

Kitchen/Food Preparation Areas - Some kitchen equipment including walk-in refrigerators and freezers, cooking surfaces/grills are still in place. Some indications of corrosion and damage to the kitchen equipment was observed. If kitchen equipment and facilities are to be re-used, they would require decontamination and repairs/renovations and possibly replacement with current energy efficient technologies and possibly upgrade of refrigerators to currently acceptable refrigerants. Fire suppression system may need to be replaced and/or upgraded to current code requirements.

SUMMARY

Based on our limited visual reconnaissance and cursory document review, re-use of the main hospital building, Medical Towers, and BHU will require a structural condition assessment and likely significant abatement of hazardous materials. The renovated structures would require significant investments in replacement of HVAC and other utility systems as well as replacement of interior architectural finishes. Repairs and rectifications would be required for exterior structures such as roofs, windows, and exterior façade. In more practical terms, the net result is that the structure would likely require to be stripped to the structural frame and replaced. Rebuilding around a structural frame that is already approaching 50 to 75 years of age would likely incur significant costs and may not be commercially viable.

An independent structural assessment to establish the validity of re-use of the structures would be required to identify deficiencies in the structural systems. Significant structural retrofits may trigger building code upgrades related to modern environmental conditions (hurricane/storm surge). In addition to revised loading conditions, the retrofit structure may also be subject to additional building code related upgrades including; hurricane ties and other wind related upgrades, ADA compliance, fire-proofing of structural components, and locations of fire-resistant barriers (such as doors).

Hazardous materials surveys would be required to establish the extent of ACM, PCB, lead paint, mold, and other hazardous material abatements required for building reuse. Specific utility studies would be required to establish what, if any, portion of the building services could be repurposed. A fire protection study would be required to identify needs for structural fire-proofing and other fire protection requirements consist with the planned occupancy. There may be requirements for rectifications of utility and fire protection systems to meet current code requirements.

GRANT AGREEMENT
STATE OF FLORIDA
DEPARTMENT OF COMMERCE

THIS GRANT AGREEMENT NUMBER WL095 ("Agreement") is made and entered into by and between the State of Florida, Department of Commerce ("Commerce"), and the City of Pensacola, Florida ("Grantee"). Commerce and Grantee are sometimes referred to herein individually as a "Party" and collectively as "the Parties".

WHEREAS, Commerce has the authority to enter into this Agreement and distribute State of Florida funds ("Award Funds") in the amount and manner set forth in this Agreement and in the following Attachments incorporated herein as an integral part of this Agreement:

- Attachment 1: Scope of Work
- Attachment 2 and Exhibit 1 to Attachment 2: Audit Requirements
- Attachment 3: Audit Compliance Certification
- Attachment 4: Minority and Service-Disabled Veteran Business Enterprise Report
- Attachment 5: Total Compensation for Executive Leadership

WHEREAS, the Agreement and its aforementioned Attachments are hereinafter collectively referred to as the "Agreement", and if any inconsistencies or conflict between the language of this Agreement and its Attachments arise, then the language of the Attachments shall control, but only to the extent of the conflict or inconsistency;

WHEREAS, Grantee hereby represents and warrants that Grantee's signatory to this Agreement has authority to bind Grantee to this Agreement as of the Effective Date and that Grantee, through its undersigned duly authorized representative in his or her official capacity, has the authority to request, accept, and expend Award Funds for Grantee's purposes in accordance with the terms and conditions of this Agreement;

NOW THEREFORE, for and in consideration of the covenants and obligations set forth herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties intending to be legally bound hereby agree to perform the duties described herein in this Agreement as follows:

A. AGREEMENT PERIOD

This Agreement is effective as of July 1, 2024, (the "Effective Date") and shall continue until the earlier to occur of (a) June 30, 2027, (the "Expiration Date") or (b) the date on which either Party terminates this Agreement (the "Termination Date"). The period of time between the Effective Date and the Expiration Date or Termination Date is the "Agreement Period."

B. FUNDING

This Agreement is a cost reimbursement Agreement. Commerce shall pay Grantee up to Seven Million Dollars and Zero Cents ($7,000,000.00) in consideration for Grantee's performance under this Agreement. Commerce shall not pay Grantee's costs related to this Agreement incurred outside of the Agreement Period. In conformity with s. 287.0582, F.S., the State of Florida and Commerce's performance and obligation to pay any Award Funds under this Agreement is contingent upon an annual appropriation by the Legislature. Commerce shall have final unchallengeable authority as to both the availability of funds and what constitutes an "annual appropriation" of funds. Grantee shall not expend Award Funds for the

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

purpose of lobbying the Legislature, the judicial branch, or a state agency. Grantee shall not expend Award Funds to pay any costs incurred in connection with any defense against any claim or appeal of the State of Florida or any agency or instrumentality thereof (including Commerce); or to pay any costs incurred in connection with the prosecution of any claim or appeal against the State of Florida or any agency or instrumentality thereof (including Commerce), which Grantee instituted or in which Grantee has joined as a claimant. Grantee shall either (i) maintain Award Funds in a separate bank account, or (ii) expressly designate in Grantee's business records and accounting system that the Award Funds originated from this Agreement. Grantee shall not commingle Award Funds with any other funds. Commerce may refuse to reimburse Grantee for purchases made with commingled funds. Grantee's costs must be in compliance with all laws, rules, and regulations applicable to expenditures of State funds, including the Reference Guide for State Expenditures (https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf).

C. ELECTRONIC FUNDS TRANSFER

Within 30 calendar days of the date the last Party has signed this Agreement, Grantee shall enroll in Electronic Funds Transfer (EFT) from the State's Chief Financial Officer. A copy of the Authorization form can be found on the vendor instruction page at: https://www.myfloridacfo.com/Division/AA/Vendors/ . Any questions should be directed to the Direct Deposit/EFT Section of the Division of Accounting and Auditing at (850) 413-5517. Once enrolled, invoice payments shall be made by EFT.

D. MODIFICATION

If, in Commerce's sole and absolute determination, changes to this Agreement are necessitated by law or otherwise, Commerce may at any time, with written notice of all such changes to Grantee, modify this Agreement within its original scope and purpose. Grantee shall be responsible for any due diligence necessary to determine the impact of the modification. Any modification of this Agreement requested by Grantee must be in writing and duly signed by all Parties in order to be enforceable.

E. AUDIT REQUIREMENTS AND COMPLIANCE

1. **Florida Single Audit Act - Section 215.97, Florida Statutes ("F.S.")**. Grantee shall comply with all applicable provisions of s. 215.97, F.S., s. 215.971, F.S., and Attachment 2 and Exhibit 1 to Attachment 2: Audit Requirements. Grantee shall perform the deliverables and tasks set forth in Attachment 1, Scope of Work. Grantee may only expend Award Funds for allowable costs resulting from obligations incurred during the Agreement Period. Grantee shall refund to Commerce any: (1) balance of unobligated Award Funds which have been advanced or paid to Grantee; or (2) Award Funds paid in excess of the amount to which Grantee is entitled under the terms and conditions of this Agreement and Attachments hereto, upon expiration or termination of this Agreement.

2. **Audit Compliance**. Grantee understands and shall comply with the requirements of s. 20.055(5), F.S. Grantee agrees to reimburse the State for the reasonable costs of investigation the Inspector General or other authorized State official incurs for investigations of Grantee's compliance with the terms of this or any other agreement between the Grantee and the State which results in the suspension or debarment of Grantee. Grantee shall not be responsible for any costs of investigations that do not result in Grantee's suspension or debarment.

F. RECORDS AND INFORMATION RELEASE

1. **Records Compliance**. Commerce is subject to the provisions of chapter 119, F.S., relating to public records. Any document Grantee submits to Commerce under this Agreement may constitute public

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

records under the Florida Statutes. Grantee shall cooperate with Commerce regarding Commerce's efforts to comply with the requirements of chapter 119, F.S. Grantee shall respond to requests to inspect or copy such records in accordance with chapter 119, F.S., for records made or received by Grantee in connection with this Agreement. Grantee shall immediately notify Commerce of the receipt and content of any records request by sending an e-mail to PRRequest@commerce.fl.gov within one (1) business day after receipt of such request. Grantee shall indemnify, defend, and hold Commerce harmless from any violation of Florida's public records laws wherein Commerce's disclosure or nondisclosure of any public record was predicated upon any act or omission of Grantee. As applicable, Grantee shall comply with s. 501.171, F.S. Commerce may terminate this Agreement if Grantee fails to comply with Florida's public records laws. Grantee shall allow public access to all records made or received by Grantee in connection with this Agreement, unless the records are exempt from s. 24(a) of Article I of the State Constitution or s. 119.07(1), F.S.

2. **Identification of Records**. Grantee shall clearly and conspicuously mark all records submitted to Commerce if such records are confidential and exempt from public disclosure. Grantee's failure to clearly mark each record and identify the legal basis for each exemption from the requirements of chapter 119, F.S., prior to delivery of the record to Commerce serves as Grantee's waiver of a claim of exemption. Grantee shall ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for as long as those records are confidential and exempt pursuant to Florida law. If Commerce's claim of exemption asserted in response to Grantee's assertion of confidentiality is challenged in any court of law, Grantee shall defend, assume, and be responsible for all fees, costs, and expenses in connection with such challenge.

3. **Keeping and Providing Records**. Commerce and the State have an absolute right to view, inspect, or make or request copies of any records arising out of or related to this Agreement. Grantee has an absolute duty to keep and maintain all records arising out of or related to this Agreement. Commerce may request copies of any records made or received in connection with this Agreement, or arising out of Grantees use of Award Funds, and Grantee shall provide Commerce with copies of any records within 10 business days after Commerce's request at no cost to Commerce. Grantee shall maintain all books, records, and documents in accordance with generally accepted accounting procedures and practices which sufficiently and properly reflect all expenditures of Award Funds. For avoidance of doubt, Grantee's duties to keep and provide records to Commerce includes all records generated in connection with or as a result of this Agreement. Upon expiration or termination of this Agreement, Grantee shall transfer, at no cost, to Commerce all public records in possession of Grantee or keep and maintain public records required by Commerce to perform the service. If Grantee keeps and maintains public records upon completion of this Agreement, Grantee shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to Commerce, upon request from Commerce's custodian of records, in a format that is compatible with the information technology systems of Commerce.

4. **Audit Rights.** Representatives of the State of Florida, Commerce, the State Chief Financial Officer, the State Auditor General, the Florida Office of Program Policy Analysis and Government Accountability or representatives of the federal government and their duly authorized representatives shall have access to any of Grantee's books, documents, papers, and records, including electronic storage media, as they may relate to this Agreement, for the purposes of conducting audits or examinations or making excerpts or transcriptions.

5. **Single Audit Compliance Certification.** Annually, within 60 calendar days of the close of Grantee's fiscal year, Grantee shall electronically submit a completed Audit Compliance Certification (a version of this certification is attached hereto as Attachment 3) to audit@commerce.fl.gov. Grantee's timely

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

submittal of one completed Audit Compliance Certification for each applicable fiscal year will fulfill this requirement for all agreements between Commerce and Grantee.

6. **Ensure Compliance**. Grantee shall ensure that any entity which is paid from, or for which Grantee's expenditures will be reimbursed by, Award Funds, is aware of and will comply with the aforementioned audit and record keeping requirements.

7. **Contact Custodian of Public Records for Questions.**

   IF THE GRANTEE HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE GRANTEE'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS by telephone at (850) 245-7140, via e-mail at PRRequest@commerce.fl.gov, or by mail at Department of Commerce, Public Records Coordinator, 107 East Madison Street, Caldwell Building, Tallahassee, Florida 32399-4128.

G. TERMINATION AND FORCE MAJEURE

1. **Termination due to Lack of Funds:** In the event funds to finance this Agreement become unavailable or if federal or state funds upon which this Agreement is dependent are withdrawn or redirected, Commerce may terminate this Agreement upon no less than 24 hour written notice to Grantee. Commerce shall be the final authority as to the availability of funds and will not reallocate funds earmarked for this Agreement to another program thus causing "lack of funds." In the event of termination of this Agreement under this provision, Grantee will be paid for any work satisfactorily completed prior to notification of termination. The lack of funds shall not constitute Commerce's default under this Agreement.

2. **Termination for Cause:** Commerce may terminate the Agreement if Grantee fails to: (1) deliver the services within the time specified in the Agreement or any extension; (2) maintain adequate progress, thus endangering performance of the Agreement; (3) honor any term of the Agreement; or (4) abide by any statutory, regulatory, or licensing requirement. The rights and remedies of Commerce in this clause are in addition to any other rights and remedies provided by law or under the Agreement. Grantee shall not be entitled to recover any cancellation charges or lost profits.

3. **Termination for Convenience:** Commerce, by written notice to Grantee, may terminate this Agreement in whole or in part when Commerce determines in Commerce's sole and absolute discretion that it is in Commerce's interest to do so. Grantee shall not provide any deliverable pursuant to Attachment 1: Scope of Work after it receives the notice of termination, except as Commerce otherwise specifically instructs Grantee in writing. Grantee shall not be entitled to recover any cancellation charges or lost profits.

4. **Grantee's Responsibilities Upon Termination:** If Commerce issues a Notice of Termination to Grantee, except as Commerce otherwise specifies in that Notice, Grantee shall: (1) Stop work under this Agreement on the date and to the extent specified in the notice; (2) complete performance of such part of the work Commerce does not terminate; (3) take such action as may be necessary, or as Commerce may specify, to protect and preserve any property which is in the possession of Grantee and in which Commerce has or may acquire an interest; and (4) upon the effective date of termination, Grantee shall transfer, assign, and make available to Commerce all property and materials belonging to Commerce pursuant to the terms of this Agreement and all Attachments hereto. Grantee shall not receive additional compensation for Grantee's services in connection with such transfers or assignments.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

5. **Force Majeure and Notice of Delay from Force Majeure.** Neither Party shall be liable to the other for any delay or failure to perform under this Agreement if such delay or failure is neither the fault nor the negligence of the Party or its employees or agents and the delay is due directly to acts of God, wars, acts of public enemies, strikes, fires, floods, or other similar cause wholly beyond the Party's control, or for any of the foregoing that affects subcontractors or suppliers if no alternate source of supply is available. However, in the event of delay from the foregoing causes, the Party shall take all reasonable measures to mitigate any and all resulting delay or disruption in the Party's performance obligation under this Agreement. If the delay is excusable under this FORCE MAJEURE AND NOTICE OF DELAY FROM FORCE MAJEURE section, the delay will not result in any additional charge or cost under the Agreement to either Party. In the case of any delay Grantee believes is excusable under this FORCE MAJEURE AND NOTICE OF DELAY FROM FORCE MAJEURE section, Grantee shall notify Commerce in writing of the delay or potential delay and describe the cause of the delay either: (1) within 10 calendar days after the cause that creates or will create the delay first arose, if Grantee could reasonably foresee that a delay could occur as a result; or (2) within five calendar days after the date Grantee first had reason to believe that a delay could result, if the delay is not reasonably foreseeable. THE FOREGOING SHALL CONSTITUTE GRANTEE'S SOLE REMEDY OR EXCUSE WITH RESPECT TO DELAY. Providing notice in strict accordance with this FORCE MAJEURE AND NOTICE OF DELAY FROM FORCE MAJEURE section is a condition precedent to such remedy. Commerce, in its sole discretion, will determine if the delay is excusable under this FORCE MAJEURE AND NOTICE OF DELAY FROM FORCE MAJEURE section and will notify Grantee of its decision in writing. No claim for damages, other than for an extension of time, shall be asserted against Commerce. Grantee shall not be entitled to an increase in the Agreement price or payment of any kind from Commerce for direct, indirect, consequential, impact, or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency arising because of delay, disruption, interference, or hindrance from any cause whatsoever. If performance is suspended or delayed, in whole or in part, due to any of the causes described in this FORCE MAJEURE AND NOTICE OF DELAY FROM FORCE MAJEURE section, after the causes have ceased to exist, Grantee shall perform at no increased cost, unless Commerce determines, in its sole discretion, that the delay will significantly impair the value of the Agreement to Commerce or the State, in which case, Commerce may terminate the Agreement in whole or in part.

H. BUSINESS WITH PUBLIC ENTITIES

Grantee is aware of and understands the provisions of s. 287.133(2)(a), F.S., and s. 287.134(2)(a), F.S. As required by s. 287.135(5), F.S., Grantee certifies that it is not: (1) listed on the Scrutinized Companies that Boycott Israel List, created pursuant to s. 215.4725, F.S.; (2) engaged in a boycott of Israel; (3) listed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, created pursuant to s. 215.473, F.S.; or (4) engaged in business operations in Cuba or Syria. Commerce may immediately terminate this Agreement if Grantee submits a false certification as to the above, or if Grantee is placed on the Scrutinized Companies that Boycott Israel List, engages in a boycott of Israel, is placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or has engaged in business operations in Cuba or Syria.

I. CONTINUING DISCLOSURE OF LEGAL PROCEEDINGS

Prior to execution of this Agreement, Grantee must disclose in a written statement to Commerce's Agreement Manager all prior or on-going civil or criminal litigation, investigations, arbitration or administrative proceedings (collectively "Proceedings") involving this Agreement. Thereafter, Grantee has a continuing duty to promptly disclose all Proceedings upon occurrence. This duty of disclosure applies to Grantee's or subcontractor's officers and directors when any Proceeding relates to the officer or director's business or financial activities. Details of settlements that are prevented from disclosure by the terms of

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

the settlement may be annotated as such. Grantee shall promptly notify Commerce's Agreement Manager of any Proceeding relating to or affecting the Grantee's or subcontractor's business. If the existence of such Proceeding causes the State concern about Grantee's ability or willingness to perform the Agreement, then upon Commerce's request, Grantee shall provide to Commerce's Agreement Manager all reasonable assurances that: (i) Grantee will be able to perform the Agreement in accordance with its terms and conditions; and (ii) Grantee and/or its employees, agents, or subcontractor(s) have not and will not engage in conduct in performing services for Commerce which is similar in nature to the conduct alleged in such Proceeding.

J. ADVERTISING AND SPONSORSHIP DISCLOSURE

1. **Limitations on Advertising of Agreement.** Commerce does not endorse any Grantee, commodity, or service. Subject to chapter 119, F.S., Grantee shall not publicly disseminate any information concerning this Agreement without prior written approval from Commerce, including, but not limited to mentioning this Agreement in a press release or other promotional material, identifying Commerce or the State as a reference, or otherwise linking Grantee's name and either a description of the Agreement or the name of Commerce or the State in any material published, either in print or electronically, to any entity that is not a Party to this Agreement, except potential or actual authorized distributors, dealers, resellers, or service representatives.

2. **Disclosure of Sponsorship**. As required by s. 286.25, F.S., if Grantee is a nongovernmental organization which sponsors a program financed wholly or in part by state funds, including any funds obtained through this Agreement, it shall, in publicizing, advertising, or describing the sponsorship of the program, state: "Sponsored by (Grantee's name) and the State of Florida, Department of Commerce." If the sponsorship reference is in written material, the words "State of Florida, Department of Commerce" shall appear in the same size letters or type as the name of the organization.

K. RECOUPMENT OF FUNDS

1. **Recoupment**. Notwithstanding anything in this Agreement to the contrary, Commerce has an absolute right to recoup Award Funds. Commerce may refuse to reimburse Grantee for any cost if Commerce determines that such cost was not incurred in compliance with the terms of this Agreement. Commerce may demand a return of Award Funds if Commerce terminates this Agreement. The application of financial consequences as set forth in the Scope of Work is cumulative to any of Commerce's rights to recoup Award Funds. Notwithstanding anything in this Agreement to the contrary, in no event shall the application of any financial consequences or recoupment of Award Funds exceed the amount of Award Funds, plus interest.

2. **Overpayments.** If Grantee's (a) noncompliance with this Agreement or any applicable federal, state, or local law, rule, regulation or ordinance, or (b) performance or nonperformance of any term or condition of this Agreement results in (i) an unlawful use of Award Funds; (ii) a use of Award Funds that doesn't comply with the terms of this Agreement; or (iii) a use which constitutes a receipt of Award Funds to which Grantee is not entitled (each such event an "Overpayment"), then Grantee shall return such Overpayment of Award Funds to Commerce.

3. **Discovery of Overpayments**. Grantee shall refund any Overpayment of Award Funds to Commerce within 30 days of Grantee's discovery of an Overpayment or receipt of notification from Commerce that an Overpayment has occurred. Commerce is the final authority as to what may constitute an Overpayment of Award Funds. Refunds should be sent to Commerce's Agreement Manager and made payable to the "Department of Commerce." Should repayment not be made in a timely manner, Commerce may charge interest at the lawful rate of interest on the outstanding balance beginning 30 days after the date of notification or discovery.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

4. **Right of Set-Off.** Commerce and the State shall have all of its common law, equitable, and statutory rights of set-off, including, without limitation, the State's option to withhold for the purposes of set-off any moneys due to Grantee under this Agreement up to any amounts due and owing to Commerce with respect to this Agreement, any other contract with any State department or agency, including any contract for a term commencing prior to the term of this Agreement, plus any amounts due and owing to the State for any other reason. The State shall exercise its set-off rights in accordance with normal State practices, including, in cases of set-off pursuant to an audit, the finalization of such audits by the State or its representatives.

L. INSURANCE

Unless Grantee is a state agency or subdivision as defined in s. 768.28(2), F.S., Grantee shall provide and maintain at all times during this Agreement adequate commercial general liability insurance coverage. A self-insurance program established and operating under the laws of the State of Florida may provide such coverage.

Grantee, at all times during the Agreement, at Grantee's sole expense, shall provide commercial insurance of such a type and with such terms and limits as may be reasonably associated with this Agreement, which, as a minimum, shall be: workers' compensation and employer's liability insurance in accordance with chapter 440, F.S., with minimum employer's liability limits of $100,000 per accident, $100,000 per person, and $500,000 policy aggregate. Such policy shall cover all employees engaged in any Agreement work.

Grantee shall maintain insurance coverage of such types and with such terms and limits as may be reasonably associated with this Agreement, as required by law, and as otherwise necessary and prudent for the Grantee's performance of its operations in the regular course of business. The limits of coverage under each policy maintained by Grantee shall not be interpreted as limiting Grantee's liability and obligations under this Agreement. All insurance policies shall be through insurers licensed and authorized to write policies in Florida, and such policies shall cover all employees engaged in any Agreement work. Grantee shall maintain any other insurance required in the Scope of Work. Upon request, Grantee shall produce evidence of insurance to Commerce.

Commerce shall not pay for any costs of any insurance or policy deductible, and payment of any insurance costs shall be Grantee's sole responsibility. Providing and maintaining adequate insurance coverage is a material obligation of Grantee, and failure to maintain such coverage may void the Agreement, at Commerce's sole and absolute discretion, after Commerce's review of Grantee's insurance coverage when Grantee is unable to comply with Commerce's requests concerning additional appropriate and necessary insurance coverage. Upon execution of this Agreement, Grantee shall provide Commerce written verification of the existence and amount for each type of applicable insurance coverage. Within 30 calendar days of the effective date of the Agreement, Grantee shall furnish Commerce proof of applicable insurance coverage by standard ACORD form certificates of insurance. In the event that an insurer cancels any applicable coverage for any reason, Grantee shall immediately notify Commerce of such cancellation and shall obtain adequate replacement coverage conforming to the requirements herein and provide proof of such replacement coverage within 15 business days after the cancellation of coverage. Copies of new insurance certificates must be provided to Commerce's Agreement Manager with each insurance renewal.

M. CONFIDENTIALITY AND SAFEGUARDING INFORMATION

Each Party may have access to confidential information made available by the other. The provisions of the Florida Public Records Act, Chapter 119, F.S., and other applicable state and federal laws will govern disclosure of any confidential information received by the State of Florida.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

Grantee must implement procedures to ensure the appropriate protection and confidentiality of all data, files, and records involved with this Agreement.

Except as necessary to fulfill the terms of this Agreement and with the permission of Commerce, Grantee shall not divulge to third parties any confidential information obtained by Grantee or its agents, distributors, resellers, subcontractors, officers, or employees in the course of performing Agreement work, including, but not limited to, security procedures, business operations information, or commercial proprietary information in the possession of the State or Commerce.

Grantee shall not use or disclose any information concerning a recipient of services under this Agreement for any purpose in conformity with state and federal law or regulations, except upon written consent of the recipient or the responsible parent or guardian of the recipient when authorized by law.

When Grantee has access to Commerce's network and/or applications, in order to fulfill Grantee's obligations under this Agreement, Grantee shall abide by all applicable Commerce Information Technology Security procedures and policies. Grantee (including its employees, subcontractors, agents, or any other individuals to whom Grantee exposes confidential information obtained under this Agreement), shall not store, or allow to be stored, any confidential information on any portable storage media (*e.g.*, laptops, thumb drives, hard drives, *etc.*) or peripheral device with the capacity to hold information. Failure to strictly comply with this provision shall constitute a breach of Agreement.

Grantee shall immediately notify Commerce in writing when Grantee, its employees, agents, or representatives become aware of an inadvertent disclosure of Commerce's unsecured confidential information in violation of the terms of this Agreement. Grantee shall report to Commerce any Security Incidents of which it becomes aware, including incidents sub-contractors or agents reported to Grantee. For purposes of this Agreement, "Security Incident" means the attempted or successful unauthorized access, use, disclosure, modification, or destruction of Commerce information in Grantee's possession or electronic interference with Commerce operations; provided, however, that random attempts at access shall not be considered a security incident. Grantee shall make a report to Commerce not more than seven business days after Grantee learns of such use or disclosure. Grantee's report shall identify, to the extent known: (i) the nature of the unauthorized use or disclosure, (ii) the confidential information used or disclosed, (iii) who made the unauthorized use or received the unauthorized disclosure, (iv) what Grantee has done or shall do to mitigate any detrimental effect of the unauthorized use or disclosure, and (v) what corrective action Grantee has taken or shall take to prevent future similar unauthorized use or disclosure. Grantee shall provide such other information, including a written report, as Commerce's Information Security Manager requests.

In the event of a breach of security concerning confidential personal information involved with this Agreement, Grantee shall comply with s. 501.171, F.S., as applicable. When notification to affected persons is required by statute, Grantee shall provide that notification, but only after receipt of Commerce's written approval of the contents of the notice. Defined statutorily, and for purposes of this Agreement, "breach of security" or "breach" means the unauthorized access of data in electronic form containing personal data. Good faith acquisition of personal information by an employee or agent of Grantee is not a breach, provided the information is not used for a purpose unrelated to Grantee's obligations under this Agreement or is not subject to further unauthorized use.

N. PATENTS, COPYRIGHTS, AND ROYALTIES

1. All legal title and every right, interest, claim or demand of any kind, in and to any patent, trademark or copyright, or application for the same, or any other intellectual property right to, the work developed or produced under or in connection with this Agreement, is the exclusive property of Commerce to be granted to and vested in the Florida Department of State for the use and benefit of the state; and

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

no person, firm or corporation shall be entitled to use the same without the written consent of the Florida Department of State. Any contribution by Grantee or its employees, agents or contractors to the creation of such works shall be considered works made for hire by Grantee for Commerce and, upon creation, shall be owned exclusively by Commerce. To the extent that any such works may not be considered works made for hire for Commerce under applicable law, Grantee agrees, upon creation of such works, to automatically assign to Commerce ownership, including copyright interests and any other intellectual property rights therein, without the necessity of any further consideration.

2. If any discovery or invention arises or is developed in the course or as a result of work or services performed with funds from this Agreement, Grantee shall refer the discovery or invention to Commerce who will refer it to the Department of State to determine whether patent protection will be sought in the name of the State of Florida.

3. Where activities supported by this Agreement produce original writings, sound recordings, pictorial reproductions, drawings, or other graphic representations and works of any similar nature Commerce has the right to use, duplicate, and disclose such materials in whole or in part, in any manner, for any purpose whatsoever and to allow others acting on behalf of Commerce to do so. Grantee shall give Commerce written notice when any books, manuals, films, websites, web elements, electronic information, or other copyrightable materials are produced.

4. Notwithstanding any other provisions herein, in accordance with s. 1004.23, F.S., a State University is authorized in its own name to perform all things necessary to secure letters of patent, copyrights, and trademarks on any works it produces. Within 30 calendar days of same, the president of a State University shall report to the Department of State any such university's action taken to secure or exploit such trademarks, copyrights, or patents in accordance with s. 1004.23(6), F.S.

O. INFORMATION TECHNOLOGY RESOURCE

Grantee shall obtain prior written approval from the appropriate Commerce authority before purchasing any Information Technology Resource (ITR) or conducting any activity that will impact Commerce's electronic information technology equipment or software, in any way. ITR includes computer hardware, software, networks, devices, connections, applications, and data. Grantee shall contact the Commerce Agreement Manager listed herein in writing for the contact information of the appropriate Commerce authority for any such ITR purchase approval.

P. NONEXPENDABLE PROPERTY

1. For the requirements of this Nonexpendable Property section of the Agreement, "nonexpendable property" is the same as "property" as defined in s. 273.02, F.S., (equipment, fixtures, and other tangible personal property of a nonconsumable and nonexpendable nature).

2. All nonexpendable property, purchased under this Agreement, shall be listed on the property records of Grantee. Grantee shall inventory annually and maintain accounting records for all nonexpendable property purchased and submit an inventory report to Commerce with the final expenditure report. The records shall include, at a minimum, the following information: property tag identification number, description of the item(s), physical location, name, make or manufacturer, year, and/or model, manufacturer's serial number(s), date of acquisition, and the current condition of the item.

3. At no time shall Grantee dispose of nonexpendable property purchased under this Agreement without the written permission of and in accordance with instructions from Commerce.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

4. Immediately upon discovery, Grantee shall notify Commerce, in writing, of any property loss with the date and reason(s) for the loss.

5. Grantee shall be responsible for the correct use of all nonexpendable property Grantee purchases or Commerce furnishes under this Agreement.

6. A formal Agreement amendment is required prior to the purchase of any item of nonexpendable property not specifically listed in Attachment 1: Scope of Work.

7. Upon the Expiration Date of this Agreement, Grantee is authorized to retain ownership of any nonexpendable property purchased under this Agreement; however, Grantee hereby grants to Commerce a right of first refusal in all such property prior to disposition of any such property during its depreciable life, in accordance with the depreciation schedule in use by Grantee. Grantee shall provide written notice of any such planned disposition and await Commerce's response prior to disposing of the property. "Disposition" as used herein, shall include, but is not limited to, Grantee no longer using the nonexpendable property for the uses authorized herein, the sale, exchange, transfer, trade-in, or disposal of any such nonexpendable property. Commerce, in its sole discretion, may require Grantee to refund to Commerce the fair market value of the nonexpendable property at the time of disposition rather than taking possession of the nonexpendable property.

Q. REQUIREMENTS APPLICABLE TO THE PURCHASE OF OR IMPROVEMENTS TO REAL PROPERTY

In accordance with s. 287.05805, F.S., if funding provided under this Agreement is used for the purchase of or improvements to real property, Grantee shall grant Commerce a security interest in the property in the amount of the funding provided by this Agreement for the purchase of or improvements to the real property for five years from the date of purchase or the completion of the improvements or as further required by law.

Upon the Expiration Date of the Agreement, Grantee shall be authorized to retain ownership of the improvements to real property set forth in this Agreement in accordance with the following: Grantee is authorized to retain ownership of the improvements to real property so long as: (1) Grantee is not sold, merged or acquired; (2) the real property subject to the improvements is owned by Grantee; and (3) the real property subject to the improvements is used for the purposes provided in this Agreement. If within five years of the termination of this Agreement, Grantee is unable to satisfy the requirements stated in the immediately preceding sentence, Grantee shall notify Commerce in writing of the circumstances that will result in the deficiency upon learning of it, but no later than 30 calendar days prior to the deficiency occurring. In such event, Commerce shall have the right, within its sole discretion, to demand reimbursement of part or all of the funding provided to Grantee under this Agreement.

R. CONSTRUCTION AND INTERPRETATION

The title, section, and paragraph headings in this Agreement are for convenience of reference only and shall not govern or affect the interpretation of any of the terms or provisions of this Agreement. The term "Agreement" means this Agreement together with all attachments and exhibits hereto, as the same may from time to time be amended, modified, supplemented, or restated in accordance with the terms hereof. The use in this Agreement of the term "including" and other words of similar import mean "including, without limitation" and where specific language is used to clarify by example a general statement contained herein, such specific language shall not be deemed to modify, limit, or restrict in any manner the construction of the general statement to which it relates. The word "or" is not exclusive and the words "herein," "hereof," "hereunder," and other words of similar import refer to this Agreement, including any Exhibits and Attachments, and not to any particular section, subsection, paragraph, subparagraph, or clause

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

contained in this Agreement. As appropriate, the use herein of terms importing the singular shall also include the plural, and vice versa. The reference to an agreement, instrument, or other document means such agreement, instrument, or other document as amended, supplemented, and modified from time to time to the extent permitted by the provisions thereof and the reference to a statute means such statute as amended from time to time and includes any successor legislation thereto and any regulations promulgated thereunder. All references to "$" shall mean United States dollars. The term "Grantee" includes any person or entity which has been duly authorized to and has the actual authority to act or perform on Grantee's behalf. The term "Commerce" includes the State of Florida and any successor office, department, or agency of Commerce, and any person or entity which has been duly authorized to and has the actual authority to act or perform on Commerce's behalf. The recitals of this Agreement are incorporated herein by reference and shall apply to the terms and provisions of this Agreement and the Parties. Time is of the essence with respect to the performance of all obligations under this Agreement. Each Party has read and understands this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the Parties, and no presumption or burden of proof shall arise favoring or disfavoring any Party by virtue of the authorship of any of the provisions of this Agreement.

S. CONFLICT OF INTEREST

This Agreement is subject to chapter 112, F.S. Grantee shall disclose the name of any officer, director, employee, or other agent who is also an employee of the State. Grantee shall also disclose the name of any State employee who owns, directly or indirectly, more than a 5% interest in Grantee or its affiliates.

T. GRANTEE AS INDEPENDENT CONTRACTOR

Grantee is at all times acting and performing as an independent contractor. Commerce has no ability to exercise any control or direction over the methods by which Grantee may perform its work and functions, except as provided herein. Nothing in this Agreement may be understood to constitute a partnership or joint venture between the Parties.

U. EMPLOYMENT ELIGIBILITY VERIFICATION – E-VERIFY

1. E-Verify is an Internet-based system that allows an employer, using information reported on an employee's Form I-9, Employment Eligibility Verification, to determine the eligibility of all new employees hired to work in the United States. There is no charge to employers to use E-Verify. The Department of Homeland Security's E-Verify system can be found at: https://www.e-verify.gov/.

2. In accordance with section 448.095, F.S., the State of Florida expressly requires the following:

a) Every public agency and its contractors and subcontractors shall register with and use the E-Verify system to verify the work authorization status of all newly hired employees. A public agency or a contractor or subcontractor thereof may not enter into a contract unless each party to the contract registers with and uses the E-Verify system.

b) An employer shall verify each new employee's employment eligibility within three (3) business days after the first day that the new employee begins working for pay as required under 8 C.F.R. 274a. Beginning July 1, 2023, a private employer with 25 or more employees shall use the E-Verify system to verify a new employee's employment eligibility.

3. If Grantee does not use E-Verify, Grantee shall enroll in the E-Verify system prior to hiring any new employee or retaining any contract employee after the effective date of this Agreement.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

V. NOTIFICATION OF INSTANCES OF FRAUD

Upon discovery, Grantee shall report all known or suspected instances of Grantee, or Grantee's agents, contractors or employees, operational fraud or criminal activities to Commerce's Agreement Manager in writing within 24 chronological hours.

W. NON-DISCRIMINATION

Grantee shall not discriminate unlawfully against any individual employed in the performance of this Agreement because of race, religion, color, sex, physical handicap unrelated to such person's ability to engage in this work, national origin, ancestry, or age. Grantee shall provide a harassment-free workplace, with any allegation of harassment to be given priority attention and action.

X. ASSIGNMENTS

Grantee shall not assign, subcontract, or otherwise transfer its rights, duties, or obligations under this Agreement, by operation of law or otherwise, without the prior written consent of Commerce, which consent may be withheld in Commerce's sole and absolute discretion. Commerce is at all times entitled to assign or transfer its rights, duties, or obligations under this Agreement to another governmental entity in the State of Florida. Any attempted assignment of this Agreement or any of the rights hereunder by Grantee in violation of this provision shall be void *ab initio*.

Y. ENTIRE AGREEMENT; SEVERABILITY

This Agreement, and the attachments and exhibits hereto, embodies the entire agreement of the Parties with respect to the subject matter hereof. There are no provisions, terms, conditions, or obligations other than those contained in this Agreement; and this Agreement supersedes all previous communications, representations, or agreements, either verbal or written, between the Parties. If a court of competent jurisdiction voids or holds unenforceable any provision of this Agreement, then that provision shall be enforced only to the extent that it is not in violation of law or is not otherwise unenforceable, and all other provisions shall remain in full force and effect. This Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute one and the same instrument. If any inconsistencies or conflict between the language of this Agreement and its Attachments arise, then the language of the attachments shall control, but only to the extent of the conflict or inconsistency.

Z. WAIVER; GOVERNING LAW; ATTORNEYS' FEES, DISPUTE RESOLUTION

1. **Waiver.** No waiver by Commerce of any of provision herein shall be effective unless explicitly set forth in writing and signed by Commerce. No waiver by Commerce may be construed as a waiver of any failure, breach, or default not expressly identified by such written waiver, whether of a similar or different character, and whether occurring before or after that waiver. No failure by Commerce to exercise, or delay in exercising, any right, remedy, power or privilege under this Agreement may be construed as a waiver thereof; nor shall any single or partial exercise of any right, remedy, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, remedy, power or privilege. The rights and remedies set forth herein are cumulative and not exclusive.

2. **Governing Law.** The laws of the State of Florida shall govern the construction, enforcement, and interpretation of this Agreement, regardless of and without reference to whether any applicable conflicts of laws principles may point to the application of the laws of another jurisdiction. The Parties expressly consent to exclusive jurisdiction and venue in any state court located in Leon County, Florida, and waive any defense of forum non conveniens, lack of personal jurisdiction, or like defense. IN ANY

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

LEGAL OR EQUITABLE ACTION BETWEEN THE PARTIES, THE PARTIES HEREBY EXPRESSLY WAIVE TRIAL BY JURY TO THE FULLEST EXTENT PERMITTED BY LAW.

3. **Attorneys' Fees, Expenses.** Except as set forth otherwise herein, each of the Parties shall pay its own attorneys' fees and costs in connection with the execution and delivery of this Agreement and the transactions contemplated hereby.

4. **Dispute Resolution.** Commerce shall decide disputes concerning the performance of the Agreement, and Commerce shall serve written notice of same to Grantee. Commerce's decision shall be final and conclusive unless within 21 calendar days from the date of receipt, Grantee files with Commerce a petition for administrative hearing. Commerce's final order on the petition shall be final, subject to any right of Grantee to judicial review pursuant to chapter 120.68, F.S. Exhaustion of administrative remedies is an absolute condition precedent to Grantee's ability to pursue any other form of dispute resolution; provided however, that the Parties may employ the alternative dispute resolution procedures outlined in chapter 120, F.S.

AA. INDEMNIFICATION

If Grantee is a state agency or subdivision, as defined in s. 768.28(2), F.S., pursuant to s. 768.28(19), F.S., neither Party indemnifies nor insures or assumes any liability for the other Party for the other Party's negligence.

1. Grantee shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend, and hold harmless the State and Commerce, and their officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to personal injury and damage to real or personal tangible property alleged to be caused in whole or in part by Grantee, its agents, employees, partners, or subcontractors; provided, however, that Grantee shall not indemnify, defend, and hold harmless the State and Commerce, and their officers, agents, and employees for that portion of any loss or damages the negligent act or omission of Commerce or the State proximately caused.

2. Further, Grantee shall fully indemnify, defend, and hold harmless the State and Commerce from any suits, actions, damages, and costs of every name and description, including attorneys' fees, arising from or relating to violation or infringement of a trademark, copyright, patent, trade secret or intellectual property right; provided, however, that the foregoing obligation shall not apply to Commerce's misuse or modification of Grantee's products or Commerce operation or use of Grantee's products in a manner not contemplated by this Agreement. If any product is the subject of an infringement suit, or in Grantee's opinion is likely to become the subject of such a suit, Grantee may, at Grantee's sole expense, procure for Commerce the right to continue using the product or to modify it to become non-infringing. If Grantee is not reasonably able to modify or otherwise secure for Commerce the right to continue using the product, Grantee shall remove the product and refund Commerce the amounts paid in excess of a reasonable fee, as determined by Commerce in its sole and absolute discretion, for past use. Commerce shall not be liable for any royalties.

3. Grantee's obligations under the two immediately preceding paragraphs above, with respect to any legal action are contingent upon the State or Commerce giving Grantee (1) written notice of any action or threatened action, (2) the opportunity to take over and settle or defend any such action at Grantee's sole expense, and (3) assistance in defending the action at Grantee's sole expense. Grantee shall not be liable for any cost, expense, or compromise incurred or made by the State or Commerce in any legal action without Grantee's prior written consent, which shall not be unreasonably withheld.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

4. The State and Commerce may, in addition to other remedies available to them at law or equity and upon notice to Grantee, retain such monies from amounts due Grantee as may be necessary to satisfy any claim for damages, penalties, costs and the like asserted by or against them. The State may set off any liability or other obligation of Grantee or its affiliates to the State against any payments due Grantee under any Agreement with the State.

ATTACHMENT 1
SCOPE OF WORK

A. PROJECT DESCRIPTION: The 2024-2025 General Appropriations Act, Chapter 2024-231 Laws of Florida, line 2313A, appropriated Seven Million Dollars and Zero Cents ($7,000,000.00) to the City of Pensacola for renovations to the Baptist Hospital Legacy Campus to create affordable housing in the city. This transformational attainable housing development will focus on hometown heroes, military and workforce housing that builds upon the Florida Live Local Act. Funding provided will be used for demolition of the existing hospital facility and ancillary structures in preparation for future housing construction.

B. GRANTEE RESPONSIBILITIES: The Grantee shall complete the following tasks:

1. Complete demolition of the old Baptist Hospital. Activities shall include:

- **a.** Procurement of qualified demolition contractor
- **b.** Remediation of any environmentally hazardous materials within the existing structures or below ground
- **c.** Demolition of the main hospital building, three hospital towers, and any ancillary structures within the campus
- **d.** Haul off and properly dispose of materials

2. Provide the necessary project management and support services needed to prepare the project for construction and provide oversight for the construction project.

3. Provide a minimum of $9,000,000.00 in funds as match for the Project, by the end of the Agreement period. Grantee shall provide a letter and supporting documentation to Commerce's Agreement Manager which demonstrates that the Grantee met its match requirements, including, but not necessarily limited to the source of the contribution; the amount of each contribution and provide a summary of all match contributions. Commerce reserves the right to request any additional documentation Commerce deems necessary to support the Grantee's claim that it has met the match requirement. Commerce shall retain five percent (5%) of the total grant award as a financial consequence if Grantee fails to provide proof of match funds.

C. COMMERCE'S RESPONSIBILITIES: Commerce shall monitor progress, review reports, conduct site visits as determined necessary by Commerce, and process payments to Grantee.

D. DELIVERABLES: Grantee agrees to provide the following services as specified:

Deliverable No. 1 – Demolition of Existing Hospital and Ancillary Structures		
Tasks	**Minimum Level of Service**	**Financial Consequences**
Complete demolition in accordance with Section B.1 of this Scope of Work.	Grantee may request reimbursement upon completion of demolition in accordance with Section B.1of this Scope of Work in the following increments: 10%, 20%, 30%, 40%, 50%, 60%, 70%, 80%, 90% and 100%, and shall submit the following as evidence of completion of construction, or a portion of construction.	Failure to perform the Minimum Level of Service shall result in non-payment.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

	1. AIA forms G702 and G703, or their substantive equivalents, certifying that the project, or a quantifiable portion of the project is complete; 2. Photographs of the project in progress and at completion; and 3. Invoice package in accordance with Section F of this Scope of Work.	
		Deliverable 1 - $7,000,000.00
TOTAL AWARD NOT TO EXCEED: $7,000,000.00		

E. REPORTING:

1. Quarterly: Grantee shall provide a quarterly report listing all progress relating to the Deliverables in Section D. Quarterly reports are due to Commerce within 30 calendar days after the end of each quarter, until submission of the final invoice package. The ending dates for each quarter of the program year are September 30, December 31, March 31, and June 30. The quarterly report shall include a summary of project progress, indicating percentage of completion of each Deliverable, and all additional reports which are required pursuant to this Agreement, including but not limited to, reports documenting the positive return on investment to the State that results from Grantee's project and its use of Award Funds. The summary shall also include any issues or events occurring which affect the ability of the Grantee to meet the terms of this Agreement. **If all required reports and copies are not sent to Commerce or are not completed in a manner acceptable to Commerce, payments may be withheld until the reports are properly completed or otherwise allowable by law.**
2. Minority and Service-Disabled Veteran Business Enterprise Report: Grantee shall provide a Minority and Service-Disabled Veteran Business Enterprise Report (Attachment 4) with each invoice summarizing the participation of certified and non-certified minority and service-disabled veteran subcontractors and material suppliers for that period and the project to date. Grantee shall include the names, addresses, and dollar amount of each certified and non-certified Minority Business Enterprise and Service-Disabled Veteran Enterprise participant. Commerce's Minority Coordinator can be reached at (850) 245-7455 to answer concerns and questions.
3. Close-out Report: No later than 60 calendar days after the Agreement ends or is terminated, Grantee shall provide copies of all paid invoices to document completed work.
4. Annual Report: If applicable, the Grantee shall submit an Annual Report (Attachment 5), including the most recent IRS Form 990, detailing the total compensation for the Grantee's executive leadership team(s). Total compensation shall include salary, bonuses, cash-in leave, cash equivalents, severance pay, retirement benefits, deferred compensation, real property gifts and any other payout. All compensation reports must indicate what percent of compensation comes directly from the State and/or Federal allocations. The annual report will be due to Commerce 30 calendar days after the submittal of the 990 form to the IRS. The Grantee must inform Commerce of any changes in total executive compensation between annual reports within 60 calendar days of the change.

F. INVOICE SUBMITTAL AND PAYMENT SCHEDULE: Commerce shall pay Grantee in accordance with the following schedule in the amount identified per deliverable in Section D above. The deliverable amount specified does not establish the value of the deliverable. In accordance with the requirements of s. 215.971(1), F.S., and the **Audit Requirements and Compliance** section of this

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

Agreement, Grantee and its subcontractors may only expend funding under this Agreement for allowable costs resulting from obligations incurred during the Agreement period.

1. Grantee shall provide one (1) invoice per quarter for all services rendered during the applicable period. Grantee shall submit invoices as set forth below to be eligible to receive and retain payment for the performance of duties and completion of deliverables set forth above. Grantee shall submit all documentation necessary to support Grantee's expenditures. Commerce may request any information from Grantee that Commerce deems necessary to verify that Grantee has performed the services for which payment is requested. Grantee's submission of each invoice package is Grantee's certification that it has performed the services and incurred the costs in compliance with all applicable laws and the terms of this Agreement. Grantee will provide invoices in accordance with the requirements of the Reference Guide for State Expenditures available at: https://www.myfloridacfo.com/docs-sf/accounting-and-auditing-libraries/state-agencies/reference-guide-for-state-expenditures.pdf. Invoices must be legible and must clearly reflect the performance for which payment is sought. Payment does not become due under this Agreement until Commerce accepts and approves the invoiced deliverable(s) and any required report(s). At Commerce's option, Grantee may submit invoices electronically. Grantee shall submit its final invoice for payment to Commerce no later than 60 days after this Agreement ends and Commerce may, at Commerce's sole and absolute discretion, refuse to honor any requests for payment submitted after this deadline.
2. Invoices must contain Grantee's name, address, federal employer identification number or other applicable Grantee identification number, the Agreement number, the invoice number, and the invoice period. Grantee shall submit the following documents with the itemized invoice:
   a. A cover letter signed by Grantee's Agreement Manager certifying that the costs being claimed in the invoice package: (1) are specifically for the project represented to the State in the budget appropriation; (2) are for one or more of the components as stated in Section D, Deliverables, of this Scope of Work; (3) have been paid or that professional services have been rendered in a rural community or rural area of opportunity as defined in section 288.065(2), F.S.; and (4) were incurred during the Agreement period;
   b. Grantee's invoices shall include the date, period in which work was performed, amount of reimbursement, and work completed to date;
   c. A certification by a licensed engineer using AIA forms G702 and G703, or their substantive equivalents, certifying that the project, or a quantifiable portion of the project, is complete;
   d. Photographs of the project in accordance with Section D, Deliverables;
   e. A copy of all supporting documentation for vendor payments;
   f. A copy of the cancelled check(s) specific to the project, and a copy of the bank statement that includes the cancelled check, or similar documentation of expenditure (e.g., wire transfer, credit card receipts, etc.).
3. The State may require any other information from Grantee that the State deems necessary to verify that the services have been rendered under the Agreement.
4. All documentation necessary to support payment requests must be submitted with Grantee's invoice for Commerce's review.
5. Grantee's invoice and all documentation necessary to support payment requests must be submitted into Commerce's Subrecipient Enterprise Resource Application (SERA). Further instruction on SERA invoicing and reporting, along with a copy of the invoice template, will be provided upon execution of the Agreement.
6. If the Grantee is a county or municipality that is a rural community or rural area of opportunity as those terms are defined in s. 288.0656(2), the payment of submitted invoices may be issued for verified and eligible performance that has been completed in accordance with the terms and conditions set forth in the Agreement to the extent that federal or state law, rule, or other regulation allows such payments. Upon meeting either of the criteria set forth below, the Grantee may elect in writing to exercise this provision.
   a. A county municipality that is a rural community or rural area of opportunity as those terms are

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

defined in s. 288.0656(2), that demonstrates financial hardship; or

b. A county municipality that is a rural community or rural area of opportunity as those terms are defined in s. 288.0656(2), and which is located in a fiscally constrained county, as defined in section 218.67(1), F.S. If the Grantee meets the criteria set forth in this paragraph, then the Grantee is deemed to have demonstrated a financial hardship.

G. RETURN ON INVESTMENT: Grantee is required to provide, on or before October 31, 2024, an initial report identifying actual returns on investment by fiscal year for state funding previously received (if applicable), as well as projected positive returns the state will receive by providing Grantee funding through this Agreement.

1. Beginning at the end of the first full quarter following execution of this Agreement, Grantee shall provide quarterly update reports directly to Commerce's Agreement Manager documenting the positive return on investment to the state that results from the Grantee's project and its use of monies provided under this Agreement.

2. Quarterly update reports shall be provided to Commerce's Agreement Manager within 30 calendar days after the end of each quarter thereafter until Grantee is instructed that no further reports are needed.

H. FINANCIAL CONSEQUENCES FOR FAILURE TO TIMELY AND SATISFACTORILY PERFORM: Failure to complete all deliverables in accordance with the requirements of this Agreement, and most particularly the deliverables specified above in Section D, Deliverables, will result in Commerce's assessment of the specified financial consequences. If appropriate, should the Parties agree to a corrective action plan, the plan shall specify additional financial consequences to be applied after the effective date of the corrective action plan. This provision for financial consequences shall in no manner affect Commerce's right to terminate the Agreement as provided elsewhere in the Agreement.

Attachment 2
AUDIT REQUIREMENTS

The administration of resources awarded by Commerce to the recipient (herein otherwise referred to as "Grantee") may be subject to audits and/or monitoring by Commerce as described in this Attachment 2.

MONITORING. In addition to reviews of audits conducted in accordance with 2 CFR 200, Subpart F - Audit Requirements, and section 215.97, Florida Statutes (F.S.), as revised (see AUDITS below), monitoring procedures may include, but not be limited to, on-site visits by Commerce staff, limited scope audits as defined by 2 CFR §200.425, or other procedures. By entering into this agreement, the recipient agrees to comply and cooperate with any monitoring procedures or processes deemed appropriate by Commerce. In the event the Commerce determines that a limited scope audit of the recipient is appropriate, the recipient agrees to comply with any additional instructions provided by Commerce staff to the recipient regarding such audit. The recipient further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Chief Financial Officer (CFO) or Auditor General.

AUDITS.

PART I: FEDERALLY FUNDED. This part is applicable if the recipient is a state or local government, or a nonprofit organization as defined in 2 CFR §200.1.

1. A recipient that expends $750,000 or more in federal awards in its fiscal year must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements. EXHIBIT 1 to this form lists the federal resources awarded through Commerce by this agreement. In determining the federal awards expended in its fiscal year, the recipient shall consider all sources of federal awards, including federal resources received from Commerce. The determination of amounts of federal awards expended should be in accordance with the guidelines established in 2 CFR §§200.502-503. An audit of the recipient conducted by the Auditor General in accordance with the provisions of 2 CFR §200.514 will meet the requirements of this Part.
2. For the audit requirements addressed in Part I, paragraph 1, the recipient shall fulfill the requirements relative to auditee responsibilities as provided in 2 CFR §§200.508-512.
3. A recipient that expends less than $750,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements. If the recipient expends less than $750,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from other than federal entities).

PART II: STATE FUNDED. This part is applicable if the recipient is a nonstate entity as defined by Section 215.97(2), Florida Statutes.

1. In the event that the recipient expends a total amount of state financial assistance equal to or in excess of $750,000 in any fiscal year of such recipient (for fiscal years ending June 30, 2017, and thereafter), the recipient must have a state single or project-specific audit for such fiscal year in accordance with section 215.97, F.S.; Rule Chapter 69I-5, F.A.C., State Financial Assistance; and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. EXHIBIT 1 to this form lists the state financial assistance awarded through Commerce by this agreement. In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from Commerce, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for federal program matching requirements.

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

2. For the audit requirements addressed in Part II, paragraph 1, the recipient shall ensure that the audit complies with the requirements of section 215.97(8), F.S. This includes submission of a financial reporting package as defined by section 215.97(2), F.S., and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.
3. If the recipient expends less than $750,000 in state financial assistance in its fiscal year (for fiscal years ending June 30, 2017, and thereafter), an audit conducted in accordance with the provisions of section 215.97, F.S., is not required. If the recipient expends less than $750,000 in state financial assistance in its fiscal year and elects to have an audit conducted in accordance with the provisions of section 215.97, F.S., the cost of the audit must be paid from the nonstate entity's resources (i.e., the cost of such an audit must be paid from the recipient's resources obtained from other than state entities).

PART III: OTHER AUDIT REQUIREMENTS.

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of state financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes. In such an event, the State awarding agency must arrange for funding the full cost of such additional audits.)

N/A

PART IV: REPORT SUBMISSION.

1. Copies of reporting packages for audits conducted in accordance with 2 CFR 200, Subpart F - Audit Requirements, and required by Part I of this form shall be submitted, when required by 2 CFR§200.512, by or on behalf of the recipient directly to the Federal Audit Clearinghouse (FAC) as provided in 2 CFR §200.1 and §200.512. The FAC's website provides a data entry system and required forms for submitting the single audit reporting package. Updates to the location of the FAC and data entry system may be found at the OMB website.
2. Copies of financial reporting packages required by Part II of this form shall be submitted by or on behalf of the recipient directly to each of the following:

   a. Commerce at each of the following addresses:

   Electronic copies (preferred):
   Audit@commerce.fl.gov

   or

   Paper (hard copy):
   Department of Commerce
   MSC # 75, Caldwell Building
   107 East Madison Street
   Tallahassee, FL 32399-4126

   b. The Auditor General's Office at the following address:

   Auditor General
   Local Government Audits/342
   Claude Pepper Building, Room 401
   111 West Madison Street
   Tallahassee, Florida 32399-1450

   The Auditor General's website (https://flauditor.gov/) provides instructions for filing an electronic copy of a financial reporting package.

3. Copies of reports or the management letter required by Part III of this form shall be submitted by or on behalf of the recipient directly to:

Docusign Envelope ID: BC137C8D-6FE8-4CB2-9402-41821DE97C49

Electronic copies (preferred): Audit@commerce.fl.gov	or	Paper (hard copy): Department of Commerce MSC # 75, Caldwell Building 107 East Madison Street Tallahassee, FL. 32399-4126

4. Any reports, management letters, or other information required to be submitted Commerce pursuant to this agreement shall be submitted timely in accordance with 2 CFR §200.512, section 215.97, F.S., and Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.
5. Recipients, when submitting financial reporting packages to Commerce for audits done in accordance with 2 CFR 200, Subpart F - Audit Requirements, or Chapters 10.550 (local governmental entities) and 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, should indicate the date that the reporting package was delivered to the recipient in correspondence accompanying the reporting package.

PART V: RECORD RETENTION. The recipient shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of five (5) years from the date the audit report is issued, or five (5) state fiscal years after all reporting requirements are satisfied and final payments have been received, whichever period is longer, and shall allow Commerce, or its designee, CFO, or Auditor General access to such records upon request. The recipient shall ensure that audit working papers are made available to Commerce, or its designee, CFO, or Auditor General upon request for a period of five (5) years from the date the audit report is issued, unless extended in writing by Commerce. In addition, if any litigation, claim, negotiation, audit, or other action involving the records has been started prior to the expiration of the controlling period as identified above, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the controlling period as identified above, whichever is longer.

AUDIT COMPLIANCE CERTIFICATION

Grantee Name: _____
FEIN: _____
Grantee's Fiscal Year: _____
Contact Person Name and Phone Number: _____
Contact Person Email Address: _____

1. Did Grantee expend state financial assistance, during its fiscal year, that it received under any agreement (e.g., agreement, grant, memorandum of agreement, memorandum of understanding, economic incentive award agreement, etc.) between Grantee and the Department of Commerce (Commerce)? ____ Yes ____ No

If the above answer is yes, also answer the following before proceeding to item 2:

Did Grantee expend $750,000 or more of state financial assistance (from Commerce and all other sources of state financial assistance combined) during its fiscal year? ____ Yes ____ No

If yes, Grantee certifies that it will timely comply with all applicable state single or project-specific audit requirements of s. 215.97, Florida Statutes, and the applicable rules of the Department of Financial Services and the Auditor General.

2. Did Grantee expend federal awards, during its fiscal year that it received under any agreement (e.g., agreement, grant, memorandum of agreement, memorandum of understanding, economic incentive award agreement, etc.) between Grantee and Commerce? ____ Yes ____ No

If the above answer is yes, also answer the following before proceeding to execution of this certification:

Did Grantee expend $750,000 or more in federal awards (from Commerce and all other sources of federal awards combined) during its fiscal year? ____ Yes ____ No

If yes, Grantee certifies that it will timely comply with all applicable single or program-specific audit requirements of 2 CFR Part 200, Subpart F, as revised.

By signing below, I certify, on behalf of Grantee, that the above representations for items 1 and 2 are true and correct.

EXECUTIVE SUMMARY

This Executive Summary presents the results of the Phase I environmental site assessment (ESA) conducted by Geosyntec Consultants, Inc., and its subsidiaries and affiliates (collectively, "Geosyntec") for the approximately 40-acre property located at 1000 West Moreno Street, Pensacola, Escambia County, Florida (Subject Property). The Subject Property is more specifically identified as the entirety or portions of 32 Escambia County parcels (parcel ID details are included within the enclosed Phase I ESA report). This Phase I ESA was prepared in accordance with the scope of work, terms, and conditions described in Geosyntec's proposal dated 24 May 2024. This Phase I ESA was conducted in accordance with ASTM International (ASTM) Standard E5127-21[1] to identify, to the extent feasible, "recognized environmental conditions" (RECs) at the Subject Property as the term REC is defined by E1527-21.

The Subject Property is presently owned by Baptist Health Care Inc., Lakeview Center Inc., and Pensacola POB Inc. Currently, the majority of the buildings on the Subject Property are vacant. The main hospital building, and north towers were vacated in 2023. Electrical power is still on in most portions of the vacated buildings. The laundry facility in the northwestern portion of the main hospital building is still in operation. One building is still currently in use in the southeastern portion of the Subject Property at 1000 West Blount Street (occupied by Re-Entry Alliance Pensacola, Inc.). The Subject Property was mostly undeveloped land, with one building (appeared residential) from at least 1940 to the 1950s. Based on review of historical city and aerial photographs, the Subject Property appeared to be developed as Baptist Hospital by 1951.

Based on the information set forth in this Phase I ESA, Geosyntec has concluded the following:

Recognized Environmental Conditions

- **Subsurface Piping and Oil/Water Separator at the Subject Property**: Four doubled-walled aboveground storage tanks (ASTs) were observed on the Subject Property during Geosyntec`s site reconnaissance on 18 and 19 July 2024, including one approximately 15,000-gallon aviation fuel AST located on the southwestern corner of the main hospital building. Two single-walled pipes were observed between the aviation fuel AST and the building. Based on information provided by the facility owner/operator, these pipes and the oil/water (O/W) separator appear to have been buried for approximately 45 years. Based on the age of the pipes and the O/W separator and the lack of inspection/maintenance records, this finding is considered a REC.

- **Aqueous Film Forming Foam Materials at the Subject Property:** A fire suppression system containing aqueous film forming foam (AFFF) was observed on the helicopter

[1] ASTM Standard E1527 is titled: "*Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process"*

pad on the roof of the main hospital building, during Geosyntec`s site reconnaissance on 18 and 19 July 2024. AFFF suppression systems contain per- and poly-fluoroalkyl substances (PFAS). Two of the more common types of PFAS found in AFFF are perfluorooctanoic acid (PFOA) and perfluorooctane sulfonate (PFOS), and USEPA has listed PFOA and PFOS as hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). In the absence of further detailed information regarding the composition of the AFFF previously utilized at this location, this finding was noted as a concern. Additionally, a polyethylene tank of AFFF appeared to be located next to the helipad. Based on the potential for impacts to the Subject Property associated with runoff and overspray during the annual system testing, this finding is considered a REC.

- **Lead-based Paint at the Subject Property**: Flaking exterior paint was observed on two of the vacant buildings located south of the main hospital building (1015 West Moreno Street). Buildings constructed in or before 1978 are presumed to contained lead-based paint (LBP), unless inspection or sampling are completed to refute this presumption. The potential for soil contamination with lead from the LBP in direct contact with soil is considered a REC.

Controlled Recognized Environmental Conditions

- **Petroleum Release at the Subject Property**: Based on information provided in a September 2012 Remedial Action Plan prepared by Enviro-Pro-Tech for the Baptist Hospital, two 10,000-gallon underground storage tanks (USTs) were installed on the Subject Property in July 1976. The USTs were previously used to fuel a standby generator and the fire pump. Petroleum stains were reportedly observed on the northern UST`s fill tube and on the return containment pump during a closure assessment, and a Discharge Report Form (DRF) was submitted to Florida Department of Environmental Protection (FDEP) on 19 October 2009. Based on review of the DRF, approximately 25 to 100 gallons of diesel was estimated to have discharged from the USTs. An attempt was made to remove the USTs (the northern half of the northern tank was reportedly severed and removed for disposal); however, it was decided that further excavation would jeopardize the nearby structures, and both USTs were closed in place. Vapor concentrations measured on the soil/pea gravel near the USTs' fill port area ranged from 2,750 parts per million (ppm) to 4,601 ppm. Contaminated soil/pea gravel was excavated, and soil/pea gravel exhibiting a petroleum-like odor and/or excessive vapor concentration was segregated. Based on laboratory analysis of a soil sample collected from the segregated soil, it was considered special waste and was disposed of at the Escambia County Perdido Landfill. Perched groundwater was removed from the bottom of the tank pit, first by Aaron Oil Company, Mobile, Alabama (1,724 gallons of liquid removed) and then by SWS First Response (1,800 gallons of liquid removed). A groundwater extraction system with disposal of the

groundwater to the sanitary sewer system was chosen as the remediation method. The groundwater extraction system consisted of two groundwater recovery wells that startup on 13 December 2013. A total of 3,412 gallons of groundwater were recovered by the system between startup and 18 September 2014 when the system was turned off due to impending construction at the hospital. Based on a Quarterly Operations Report prepared by Enviro-Pro-Tech, Inc. in November 2014, water samples were collected from four wells and analyzed for benzene, toluene, ethylbenzene and xylenes (BTEX) and methyl tert-butyl ether (MTBE), polycyclic aromatic hydrocarbons (PAHs) and total petroleum hydrocarbons (TRPH). Ethylbenzene, naphthalene, and 1 – and 2 – methylnaphthalene were detected at concentrations above FDEP Groundwater Cleanup Target Levels (GCTLs). A Conditional Site Rehabilitation Completion Order (CSRCO) was issued by FDEP on 1 June 2022 stating that a Supplemental Site Assessment Report, dated 7 May 2017, was reviewed and the criteria in Chapter 62-780, Florida Administrative Code was met, and that contaminants remaining were limited to groundwater. Based on the CSRCO, the groundwater contaminant plumes were located northwest of the north building and north of the energy center. A Declaration of Restrictive Covenant (DRC) was recorded by Baptist Hospital, Inc. on 10 January 2022. The restrictions imposed to the Subject Property consisted of no groundwater use, no dewatering, and no stormwater facilities affecting groundwater. Based on remaining groundwater contamination at the Subject Property and the associated DRC, this finding is considered a Conditional REC (CREC)**.**

Historical Recognized Environmental Conditions

- No historical recognized environmental conditions (HRECs) were identified during this Phase I ESA.

De Minimis Conditions

- No *de minimis* conditions were identified during this Phase I ESA.

Additional Findings

Per ASTM E1527-21, *"[s]ome findings, but not necessarily all findings, may be indicative of the presence of"* RECs, CRECs, HRECs, or *de minimis* conditions, while other findings may not be indicative as characterized above. These findings that do not fall within the defined characterizations above are therefore considered as additional findings and not classified above.

- **Transformers with Potential PCBs**: Approximately six transformers were observed throughout the Subject Property during Geosyntec`s site reconnaissance on 18 and 19 July 2024. It is unclear as to which transformers are owned by the electrical power provider (Gulf Power) and which are owned by Baptist. At least two of these transformers appear

to be owned by Baptist and were likely installed between 1973-1981. No evidence of staining or leaks, or PCB labels was observed for any transformer located onsite.

- **Petroleum Products Storage at the Subject Property**: Four doubled-walled aboveground storage tanks (ASTs) were observed on the Subject Property during Geosyntec`s site reconnaissance on 18 and 19 July 2024. Two approximately 10,000-gallon diesel fuel ASTs were located on the northwestern portion of the property; one approximately 15,000-gallon aviation fuel AST was located on the southwestern corner of the main hospital building; and one approximately 1,000-gallon diesel AST was located on the southern side of the Behavioral Health Unit (BHU). A petroleum odor was noted around the 15,000-gallon aviation fuel AST.

- **Known Contamination at Nearby Property**: Glens Service Stations Inc., located approximately 724 feet to the north-northeast (hydraulically upgradient), was identified as a contaminated site with an open release case from 2008. Based on review of environmental assessment documents identified in the FDEP Oculus database, the facility operated as a gas station since 1971 with multiple gasoline and diesel underground storage tanks (USTs) and an AST; during Geosyntec`s site reconnaissance, this property was observed to be redeveloped into Infrastructure Specialty Services. A discharge notification form (DNF) was filed in November 1988 and the facility entered the Early Detection Incentive (EDI) program in September 1989. Contamination was identified in soil and groundwater during assessment. A soil-vapor extraction (SVE) system was operated from September 1994 until March 1996, when FDEP granted no further action (NFA) to the facility. In March 2006, a system investigation was conducted for insurance purposes, and results of the soil screening and analyses conducted in the field showed petroleum impacted soil present on the eastern side of the eastern tank pit. Supplemental site assessment was conducted from February to May 2007, and contamination was confirmed. LFR Inc. determined that, in addition to the 1988 release, there was evidence of a second more recent release occurred on some point between 2003 and May 2008. Due to the discovery, FDEP rescinded the Site Rehabilitation Completion Order (SRCO) in October 2006. As of July 2024, monitoring and remediation are still ongoing at the facility.

- **Boiler Additive Chemicals:** Several containers of additives were observed on the Subject Property during the site reconnaissance. The containers were stored within the covered storage area adjacent north of the main hospital building. The 20-gallon containers were labelled RLT 35 Steam Boiler Condensate Return Line Treatment, BWT 2745 Boiler Water Treatment, ALKAPRO 6040 alkalinity source, and OXIGON 102 oxygen scavenger. Minor staining was observed in this storage area.

- **Potential Dry-cleaning Facility at the Subject Property**: A laundry area was identified during the site reconnaissance; however, interior observations were not conducted. The

Subject Property representatives indicated that to their knowledge dry cleaning activities never occurred at the facility. However, they did not work at the facility when it began operations.

A business environmental risk (BER) was identified in relation to the potential LBP located on-site. Two of the vacant buildings located south of the main hospital building (1015 West Moreno Street) were observed to have deteriorating and flaking exterior paint. Buildings constructed in or before 1978 are presumed to contained LBP, unless inspection or sampling are completed to refute this presumption. The costs associated with the removal and disposal of LBP are considered a BER. Additionally, potential asbestos containing material (ACM) was observed in transit panels, floor covering, and jacketing and spray-on covering for HVAC ducting and piping. This is consistent with asbestos that has been documented in other reports prepared for the property. The costs associated with the removal and disposal of ACM are considered a BER.

As noted earlier, a DRC was recorded by Baptist Hospital, Inc. on 10 January 2022 for the Subject Property. The following restrictions were imposed to the Subject Property: no groundwater use, no dewatering, and no stormwater facilities affecting groundwater. The ongoing obligations by the Subject Property owner associated with the restrictions defined in the DRC are considered a BER.

Data Gaps

Our assessment revealed the following data gaps, as defined by ASTM:

- ASTM E1527-21 states that "*interviews with past owners, operators, and occupants of the property who are likely to have material information regarding the potential for contamination at the property shall be conducted to the extent that they have been identified.*" Geosyntec was not provided with and did not identify owner contact information prior to the current Subject Property owner.

- Aerial imagery was not provided at five year-intervals or less pursuant to ASTM E1527-21. Geosyntec attempted to supplement aerial imagery with additional imagery from Google Earth but was unable to reduce all intervals to five years or less. This is considered a data failure, and a data gap but is not considered significant.

- During the site visit conducted on 18 and 19 July 2024, not all interior rooms were visually inspected if the other representative areas were observed during the site visit. In addition, several of the vacant single-story buildings located in the southeastern portion of the property were not accessed for interior observations. As a result of the limited observation of certain interior areas, the observations reported should be considered as broadly representative of the current conditions in this portion of the Subject Property.

- During the site visit, the laundry area was currently in operation, and interior observations were not conducted. The Subject Property representative confirmed that dry-cleaning operations were not currently conducted within the laundry facility but could not confirm whether the laundry services at the main hospital ever included on-site dry cleaning.

Collectively, these data gaps are not considered to be significant to the Findings or the identification of RECs at the Subject Property.

1. INTRODUCTION

Geosyntec Consultants, Inc., and its subsidiaries and affiliates (collectively, "Geosyntec") were retained by the City of Pensacola to conduct a Phase I environmental site assessment (ESA) for the approximately 39.70-acre property located at 1000 West Moreno Street, Pensacola, Escambia County, Florida (Subject Property). The Subject Property is more specifically identified as the entirety or portions of 31 Escambia County parcels (parcel ID details are included within this Phase I ESA). The Subject Property location is shown on **Figure 1** (Subject Property Location Map). A recent Subject Property vicinity property layout is depicted on **Figure 2** (Subject Property Layout Map) and a recent site layout is depicted on **Figure 3** (Subject Property Vicinity Map).

1.1 Objective

This Phase I ESA was conducted in general accordance with the scope and limitations of certain guidance contained within the ASTM International (ASTM) Standard Practices E1527-21. The primary purpose of the Phase I ESA was to identify, to the extent feasible, if one or more "recognized environmental conditions[2]" (RECs) exist at the Subject Property, as the "REC" terminology is defined by ASTM E1527-21. Deviations or exceptions to the guidance contained in the E1527-21 standards of practice are described in Section 1.4.

Geosyntec's effort is to provide the User with a Phase I ESA that includes a search for the existence of potential or known surface or subsurface environmental impacts at the Subject Property. For the purposes of this Phase I ESA report, the City of Pensacola is the "User," defined as "*the party seeking to use Practice E1527 to complete an environmental site assessment of the subject property*…" in partial fulfillment of the requirements of the All Appropriate Inquiry Rule under 40 CFR 312.

1.2 Scope of Services

The Phase I ESA scope of work included the following:

- Review of pertinent information/documents
- Review of environmental databases regarding the Subject Property itself as well sites in the vicinity of the Subject Property pursuant to the E1527-21 Practice

[2] As defined by ASTM E1527-21, a Recognized Environmental Condition is: "(1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment."

- Review of historical land usage via historical aerial photographs, fire insurance maps, city directories, property tax files, and topographic maps, as available
- Visit to the Subject Property for a visual reconnaissance of the major interior and exterior site features and use of adjoining properties
- Interviews with current and former owner/occupants knowledgeable with site operations
- Preparation of a Phase I ESA report

In accordance with Geosyntec's scope of work for this project, "non-scope considerations", as defined in ASTM E1527-21, were not evaluated as part of this Phase I ESA, unless as noted in Section 8.

Geosyntec's authorization and conduct to complete the scope of work are as follows:

Table 1. Scope of Services Details

Scope Item	Detailed Information
Site Name or Reference	Baptist Hospital Main Property
Site Address	Multiple including 1000 West Moreno Street
City, State, and Zip Code	Pensacola, Florida 32501

Report Date	11 September 2024
Viability Date	29 November 2024
Geosyntec Site Personnel	Mr. Kyle Carlton
Facility Personnel and Role	Mr. Eamonn Wheelock (Executive Director – Support Services at Baptist Health Care)
Report Preparer(s)	Ms. Pauline Burdette and Mr. Kyle Carlton
Report Reviewer(s)	Mr. David Latham
Environmental Professional[1]	Mr. David Latham

Note 1: The Environmental Professional meets the requirements as stated in E1527-21.

The professional qualifications of the senior reviewers, including the signatory Environmental Professional are presented in Section 11.

1.3 Significant Assumptions

Geosyntec took no significant assumptions into account as part of this project.

1.4 Limitations, Deviations, and Exceptions

This Phase I ESA was conducted according to the agreed upon scope of work consistent with the ASTM Practice E1527-21, except as follows:

- ASTM E1527-21 states that "*interviews with past owners, operators, and occupants of the property who are likely to have material information regarding the potential for contamination at the property shall be conducted to the extent that they have been identified.*" Geosyntec was not provided with and did not identify owner contact information prior to the current Subject Property owner.

- Aerial imagery was not provided at five year-intervals or less pursuant to ASTM E1527-21. Geosyntec attempted to supplement aerial imagery with additional imagery from Google Earth but was unable to reduce all intervals to five years or less. This is considered a data failure, and a data gap but is not considered significant.

- During the site visit conducted on 18 and 19 July 2024, not all interior rooms were visually inspected if the other representative areas were observed during the site visit. In addition, several of the vacant single-story buildings located in the southeastern portion of the property were not accessed for interior observations. As a result of this limited observation of interior areas, the observations reported should be considered as broadly representative of the current conditions for this portion of the Subject Property.

- During the site visit, the laundry area was currently in operation, and interior observations were not conducted. The Subject Property representative confirmed that dry-cleaning operations were not currently conducted within the laundry facility but could not confirm whether the laundry services at the main hospital ever included on-site dry cleaning

This Phase I ESA did not include sampling rock, soil, groundwater, surface water, soil vapor, air, or on-site substances or materials. Therefore, it is not possible to confirm the presence or absence of hazardous substances or petroleum products in the environments associated with the property. The findings and conclusions presented in this Phase I ESA are the result of professional interpretation of the information collected at the time of this study. Specified information contained in this report has been obtained from publicly available sources and other secondary sources of information. Although care has been taken in compiling this information, Geosyntec has not independently validated this information and provides no warranty as to its accuracy or completeness. The Phase I ESA does not necessarily include an exhaustive search of all available records nor does it include detailed assessment of all Phase I ESA findings. Therefore, Geosyntec cannot "certify" or guarantee that any property is free of environmental impairment; no warranties regarding the environmental quality of the property are expressed or implied.

1.5 Special Terms and Conditions

No special contractual terms or conditions were taken into account as part of this project.

1.6 User Reliance

This Phase I ESA report has been prepared solely for the benefit of the City of Pensacola ("User"). Geosyntec has issued the Phase I ESA report to the City of Pensacola and grants these specific parties the right to rely on the report contents. Except as specifically set forth in Geosyntec's proposal to the City of Pensacola to perform this work, no third party shall have the right to rely on Geosyntec opinions rendered in connection with the Services without Geosyntec's written consent which may be conditioned on the third party's agreement to be bound to acceptable conditions and limitations similar to those agreed to by the City of Pensacola. Please note that Geosyntec's consent to provide a right-to-rely on the Phase I ESA report is subject to the City of Pensacola`s approval and to agreement to Geosyntec's terms and conditions associated with Geosyntec's performance of this specific Phase I ESA.

2. SUBJECT PROPERTY DESCRIPTION

The subject property description presented herein is derived from information provided by the User, the City of Pensacola, and information gathered during the research of historical records and the reconnaissance unless referenced otherwise.

2.1 Subject Property Location and General Characteristics

The Subject Property is located at 1000 West Moreno Street[3] in Pensacola, Florida and is surrounded by a mix of residential and commercial. The approximately 40-acre Subject Property is comprised of 31 parcels (**Table 2),** accessed from N G Street, N F Street, N H Street, N E Street, West Lakeview Avenue, West Avery Street, West Mallory Street, West Moreno Street, and West Blount Street. The location of the Subject Property is shown on **Figure 1**. A recent Subject Property layout is depicted on **Figure 2** and a recent vicinity property layout is depicted on **Figure 3**. Ownership information, where available, is provided in **Appendix A**.

Table 2. Parcel Information

Parcel No.	Zoning	Owner	Approximate Area (Acres)	Land Use/Description
00-0S-00-9050-001-058	Residential/Office (R-2), Single Family (R-1AAA), Retail Commercial (C-1)	Baptist Health Care Inc	19.90	Commercial

2.2 Current and Former Uses of the Subject Property

The Subject Property is presently owned by Baptist Health Care Inc., Lakeview Center Inc., and Pensacola POB Inc. Currently, the majority of the buildings on the Subject Property were vacant at the time of Geosyntec's site visit. The main hospital building and north towers were vacated in 2023. Electrical power appeared to be still active in most portions of the vacated buildings. Multiple buildings south of the main hospital building are also vacant. The laundry facility in the northwestern portion of the main hospital building was still in operation. One building was still currently in use in the southeastern portion of the Subject Property at 1000 West Blount Street (occupied by Re-Entry Alliance Pensacola, Inc.). The Subject Property was mostly undeveloped land, with one building (appeared residential) from at least 1940 to the 1950s. Two buildings were observed on the Subject Property on a 1951 aerial photograph. These two buildings were listed in historical city directories as "under construction" in 1951 and as "Baptist Hospital" in 1955. By 1961, several buildings with associated parking lot were located on the Subject Property, and the number of the building increased during the 1970s and 1980s. By 1989, the two buildings located on the northern portion of the property appeared to be razed and replaced by a parking lot. No significant changes were observed on the Subject Property from 1994 to 2023.

2.3 Description of Structures, Roads, Other Improvements on the Subject Property

At the time of the site visit, the Subject Property was developed with the main hospital building, the north towers buildings, the Behavioral Health Unit (BHU), and multiple smaller office buildings. Several roads traverse through the Subject Property. General descriptions of the Subject Property, buildings and other improvements are described below.

- Main hospital building: The main hospital building is located in the central portion of the property, bounded by North E Street to the east and West Moreno Street to the south. The main hospital building is approximately 178,000 square feet (floor 1) with five floors. Floor 1 is the most extensive floor of the building, which contains multiple areas including the registration area, cafeteria, emergency room, boiler room, laundry, shipping/receiving area, facilities, etc. Floors 2 through 5 were mostly utilized for different hospital units, offices, nursing stations, and patient rooms. The rooftop of floor 4 has a helicopter pad, with a fire suppression system. Pad-mounted transformers are located near the northeastern corner of the main hospital building. Two 10,000-gallon diesel fuel aboveground storage tanks (ASTs) are located on the northwestern portion of the Subject Property. The ASTs are double-walled and appeared to be in good condition during Geosyntec's site reconnaissance. The ASTs are not located in a containment basin. Multiple groundwater monitoring wells were observed within this vicinity. When asked about the ASTs, Subject Property owner representative Eamonn Wheelock stated that Baptist plans to sell the ASTs to a third party.

- North towers: The north towers are located on the northern portion of the Subject Property, north of the main hospital building. There are three buildings, which are connected by a shared first floor and hallway encompassing approximately 78,000 square feet (floor 1). Each of the north towers have five floors and were mainly used for offices and health clinics. There is also a pharmacy, laboratory, and radiology center on the first floor. Pad-mounted transformers are located near the southeast corner of the northeast tower.

- Behavioral Health Unit: The BHU is on the southern portion of the Subject Property. The building is rectangular in shape, encompassing approximately 16,500 square feet (floor 1). The building has four floors and was used mainly as offices, nurses' stations, and patient rooms. There is a cafeteria area, recreation rooms as well. There is a single ground mounted transformer near the southeastern corner of the building. A diesel AST is located on the southern side of the BHU. This AST is located on a concrete pad adjacent to a diesel generator. Rust is present on the AST, the interstitial monitor indicated fluid within the interstitial space. No monitoring wells were observed within the vicinity of this AST.

- Other buildings: Seven stand-alone, single-story buildings are located on the southern/southeastern portion of the Subject Property. Most of these buildings were used as medical clinics or offices and are currently vacant. One building is still occupied at 1000 West Blount Street and is the office building for Re-Entry Alliance Pensacola, Inc. Two of the buildings located at 1015 West Moreno Street were observed to have deteriorating and flaking exterior paint (potentially lead-based), some of which had fallen to the ground surface.

- Roads: The Subject Property is bounded on the north by West Lakeview Avenue, on the east by North E Street, and on the south by West Blount Street. Traversing through the

southern portion of the Subject Property from east to west is West Moreno Street. West Avery Street traverses through the northern portion of the Subject Property. North H Street traverses north to south along the western boundary of the main hospital building. Paved parking areas are present in the northern portion of the Subject Property and immediately west of the main hospital building. Many subsurface utilities are present within the roads and rights-of-way.

2.4 Current and Prior Use of Adjoining and Surrounding Properties

At the time of completion of this Phase I ESA and in recent years, the vicinity surrounding the Subject Property consisted of a mix of vacant and commercial land use. The land use immediately surrounding the Subject Property is noted in **Table 3** below:

Table 3. Adjoining Property and Surrounding Land Use

Direction	Current Geosyntec-Observed Use[1]	Identified Prior Use	Considered to be More Likely to Result in Surface/Subsurface Quality Impacts to the Subject Property (Yes/No)
North	Commercial properties (Global Connections to Employment and Baptist Health Care)	Commercial and residential properties	No
South	Residential properties	Residential properties	No
East	Commercial and residential properties	Commercial and residential properties	No
West	Commercial properties (Families First Network, Baptist Health Care and Fresenius Kidney Care)	Commercial and residential properties	No

Note 1: Observations from Geosyntec's 18 and 19 July 2024 site visit.

The adjacent properties were briefly inspected during the site reconnaissance (from the vantage point of the Subject Property or public rights-of-way) to observe the associated land use practices (e.g., condition, housekeeping, evidence of chemical usage/spills). Observations made for the adjoining sites are described later in this report (**Section 5**).

2.5 Physical Setting

A summary of the physical setting of the Subject Property and vicinity including topography, geology/hydrogeology, and water resources is presented in **Table 4**. Environmental Risk Information Services (ERIS) provided Geosyntec with a Physical Setting Report (PSR) for the

area including the Subject Property which serves as a source of certain information. Other sources of information in **Table 4** are noted accordingly.

Table 4. Physical Setting

Topic	Information	Source
Topography		
USGS 7.5-Minute Quadrangle Map	West Pensacola, FL; Pensacola, FL (2021)	U.S. Geological Survey (USGS)
Elevation	Approximately 63 feet above mean sea level (ft MSL)	ERIS PSR
General Topographic Gradient	There is an average topographic slope to the south but topographic gradient is relatively flat with minor variability across the Subject Property.	USGS Quadrangle Map and Site Reconnaissance
Soils & Geology		
Subject Property Soils	Soils at the Subject Property mostly consist of Bonifay loamy sand and Escambia fine sandy loam. Lakeland sand is also present in the southeast corner, and Troup sand is present on the northeastern portion of the Subject Property. Bonifay loamy sand is well drained and belongs to hydrologic group A, and Escambia fine sandy loam is somewhat poorly drained and belongs to hydrologic group C.	ERIS PSR
Area Geology	The Subject Property and vicinity are underlain by the Pliocene-age Citronelle Formation. The Citronelle Formation consists of gray to orange, often mottled, unconsolidated to poorly consolidated, very fine to very coarse, poorly sorted, clean to clayey sands. It contains significant amounts of clay, silt and gravel which may occur as beds and lenses and may vary considerably over short distances.	ERIS PSR
Water Resources		
Nearest Water Body	Pensacola Bay is located approximately 2 miles south of the Subject Property. Freshwater ponds are located approximately 0.21 miles to the west and 0.66 miles to the east.	US Fish & Wildlife Wetland Map, ERIS PSR and USGS Quadrangle Map
Estimated Groundwater Flow Direction[4]	No groundwater flow data was reported by ERIS; however, the groundwater flow in this area is projected to be to the south toward the Pensacola Bay based on topography and the location of surface water.	ERIS PSR

[4] Local groundwater flow direction may vary depending on area groundwater pumping, surface water bodies, land use and development, localized topography, and other macro and micro features.

Table 4. Physical Setting

Topic	Information	Source
Depth of Groundwater	The wells located on the Subject Property reported in the ERIS PSR depicted depth to groundwater from 6 to 55 feet below surface (ft bgs). Based on information presented on the Supplemental Site Assessment (SSA) dated 2 May 2017, depth to the water Report on the Subject Property varied from 6 to 44 ft bgs.	ERIS Topographic Maps, PSR and Supplemental Site Assessment (SSA) Report
Wetlands (on-site)	No part of the Subject Property is classified as wetlands by the US Fish and Wildlife Service.	NWI, US Fish & Wildlife Wetland Map. ERIS PSR
Wells (on-site)	A search of local/regional water agency records by ERIS reported 54 wells located on the Subject Property. One inactive well was listed on the Safe Drinking Water Information System (SDWIS) as a transient non-community system serving 476 people. 51 wells were listed on the Water Well Completions - Northwest Florida Water Management District (Water Wells) with well use indicated as "irrigation-landscape" or "other" with some of the records indicating well abandonment. Four wells were listed on the Well Surveillance Program Water Wells database with two of the wells listed as "abandoned"; the other two wells were identified as an 8-inch irrigation well and 8-inch limited use potable water supply well. Geosyntec observed multiple monitoring wells and one irrigation supply well on-site during site reconnaissance.	ERIS PSR & Site Reconnaissance (see Section 5)
Nearby[5] Groundwater Supply and Monitoring Wells	A search of local/regional water agency records by ERIS reported: • One well was identified on the USGS National Water Information System (FED USGS) database within 1-mile of the Subject Property. • Four wells were listed on the Public Water Supply Wells (PWSW) database within 1-mile of the Subject Property.	ERIS PSR

[5] ERIS searched federal and state water well databases within one mile of the Subject Property boundary.

Table 4. Physical Setting

Topic	Information	Source
	• Over 1,700 wells were listed on the Water Wells database within 1-mile of the Subject Property.	

3. USER-PROVIDED INFORMATION

This section describes the information provided to Geosyntec by the City of Pensacola (the User of this Phase I ESA). To date, a completed questionnaire has not been provided to Geosyntec.

3.1 Title Records

Geosyntec was not provided with and did not review title records for the Subject Property. A property title search was not included in the scope of Geosyntec's services.

3.2 Environmental Liens or Activity and Use Limitations

The User did not supply Geosyntec with information regarding environmental liens or activity and land use limitations associated with the Subject Property; a search for such liens or activity and use limitations was not included as part of Geosyntec's scope of work.

3.3 Specialized Knowledge

The User did not indicate it had specialized knowledge of environmental conditions on the Site.

3.4 Knowledge of Hazardous Substances or Petroleum Products

The User did not indicate it had commonly known or reasonably ascertainable information (as defined in AAI) regarding the Site

3.5 Commonly Known or Reasonably Ascertainable Information

The User has not informed Geosyntec regarding whether or not the valuation of the Site has been reduced or otherwise impacted by environmental issues (as defined in AAI) at the Site.

3.6 Valuation Reduction for Environmental Issues

The User has not informed Geosyntec regarding whether or not the valuation of the Subject Property has been reduced or otherwise impacted by environmental issues (as defined in AAI[6]). at the Subject Property.

3.7 Degree of Obviousness

The User has not informed Geosyntec regarding degree of obviousness.

[6] The "All Appropriate Inquiry Rule", enacted under the 2002 Brownfields Amendments to the Comprehensive Environmental Response, Compensation, and Liability Act; 40 CFR 312

3.8 Litigation, Administrative Proceedings, and Notices

The User has not informed Geosyntec regarding litigation, administrative proceedings, and notices

3.9 Reason for Performing This Phase I ESA

Geosyntec understands that the City of Pensacola engaged Geosyntec to perform this Phase I ESA for the Subject Property to identify RECs (as defined in ASTM E1527-21) in order to help identify potential environmental liabilities associated with a potential purchasing of the Subject Property.

3.10 Pertinent Documents

An *Environmental Screening Report* was provided by the User and is summarized in Section 4.4 and included in **Appendix C**.

4. RECORDS REVIEW

Geosyntec reviewed the following records, to the extent we found these to be available and reasonably ascertainable:

- Identified federal, state, and local environmental databases
- Identified historical aerial photographs
- Identified historical topographic maps
- Identified fire insurance maps
- Identified city directories
- Local authority permits and records
- Available property tax information

In addition to the standard sources above, Geosyntec reviewed available Subject Property-related documents provided by the User and reviewed environmental files obtained from regulatory agencies.

4.1 Standard Environmental Records Sources

4.1.1 Database Search Approach

Geosyntec contracted ERIS to provide portions of the records reviewed as described below. ERIS conducted the environmental database search in an attempt to ascertain whether the Subject Property or neighboring properties were suspected of having environmental conditions that could have impacted the surface or subsurface at the Subject Property. ERIS reported specific records and search distances (from the approximate site boundaries) for the environmental databases to be consistent with ASTM Practice E1527-21 and are discussed in the ERIS Database Report (ERIS, 2024f) presented in **Appendix B**. Database descriptions are included in the ERIS report.

The following sections discuss listings that are projected to be located upgradient of the Subject Property and have reported (or suspected) contamination or that have the potential for significant contamination that could have impacted the Subject Property (such as National Priorities List [NPL] or Resource Conservation and Recovery Act [RCRA] Corrective Action sites). The locations of these listed sites are shown on the Overview Map and Detail Map in the ERIS Database Report (**Appendix B**).

4.1.2 Database Search Results – Subject Property

ERIS identified 21 database listings for the Subject Property. Within these databases, the Subject Property was listed as Baptist Hospital, Baptist Hospital Inc – Pensacola, Fresenius Medical Care, Baptist Reg Health Services, Baptist Hospital Parking Expansion, Drlicka & Hyland PA, and

Baptist Hospital – SCC Building. The Subject Property was also listed as being located within the Englewood Redevelopment Area and Brownsville Redevelopment Area. These databases and associated listings are as follows:

- **STCS/AST/UST/LST**: The Subject Property was listed on the Storage Tank/Contaminated Facility Search (STCS), AST, Underground Storage Tank (UST), and Leaking Tanks (LST) databases. The Subject Property, as Baptist Hospital, was listed with two 20,000-gallon emergency generator diesel AST (installed in 2011 and 2015), one in-service 1,400-gallon emergency generator diesel AST (installed in 1995), one in-service 10,000-gallon aviation gasoline AST (installed in 2009). Former on-site USTs reported by ERIS included one 1,000-gallon fuel oil UST removed from the Subject Property in 1985, two 10,000-gallon diesel USTs closed in place in 2009, and one 10,000-gallon UST removed from the Subject Property in 2009. The Subject Property, as Baptist Hospital-SCC Building, was listed with one in-service 1,000-gallon emergency generator diesel AST installed in 2002. Three petroleum releases were reported in 1990, 2006, and 2009 for the Subject Property, as Baptist Hospital, on the STCS and LST databases. According to the listings, a May 1990 release (material and quantity not reported) was listed with a status of "Site Rehabilitation Completion Report (SRCR) Complete" as of October 1992. A release of 25 gallons of jet fuel contaminated soil on-site in July 2006. The cleanup status was listed as "No Further Action (NFA) Complete" as of March 2007. The most recent release in October 2009 was reported as 100 gallons of diesel from a generator/pump which contaminated soil and groundwater. The cleanup status was listed as "NFA with Conditions (NFAC)" as of June 2022, indicating contamination remains. These listings are further discussed in Section 4.4.2.

- **DWM CONTAM**: The Subject Property, as Baptist Hospital, was listed on the Contaminated Sites (DWM CONTAM) database with three petroleum discharges reported in 1990 (Site Rehabilitation Completion Report dated 1992), 2006 (NFA issued in 2007) and 2009 (NFAC issued in 2022). This listing is further discussed in Section 4.4.2.

- **SPILLS**: The Subject Property was listed on the Oil and Hazardous Materials Incidents (SPILLS) database due to a 10-gallon diesel fuel release on 11 February 2000 (Incident No. 10008). No additional details were provided by ERIS.

- **Tier 2**: The Subject Property, as Baptist Hospital Inc - Pensacola, was listed on the Tier 2 Report database, with reports submitted from 2018 to 2023 (diesel and kerosene).

- **FINDS/FRS/ICIS**: The Subject Property was listed on the Facility Registry Service/Facility Index (FINDS/FRS) database. The facility, as Baptist Reg Health Services (EPA Registry Id: 110002527132 – this identification number is also listed as Fresenius Medical Care on the ICIS database), was listed with a National Pollutant Discharge Elimination System (ICIS-NPDES) non-major stormwater permit (FLD10MQ26) under

ICIS-NPDES, as a very small quantity generator (VSQG) under RCRAInfo, and as a state master under the Florida Department of Environmental Protection (FDEP). The facility, as Baptist Hospital (EPA Registry Id: 110041384926), was listed with an ICIS-NPDES non-major stormwater construction permit (FLR10JY40) under ICIS-NPDES and with air minor permit (12441311) under Emission Inventory System (EIS). The facility, as Baptist Hospital Parking Expansion (EPA Registry Id: 110044265372,) was listed with an ICIS-NPDES non-major permit (FLR10KY52) under ICIS-NPDES. The facility, as Baptist Hospital (EPA Registry Id: 110011890971), was listed as compliance activity interest type under the National Compliance Database (NCDB). The facility, as Drlicka & Hyland PA (EPA Registry Id: 110007417526), was listed as a state master under FLDEP and as unspecified universe under RCRAInfo.

- **RCRA**: The Subject Property, as Baptist Reg Health Services (EPA Handler ID: FLD010395739), was listed as a VSQG of ignitable waste (D001) on 20 May 2004 with several violations (Generators – Pre-transport, TSD IS-Preparedness and Prevention, TSD IS-Container Use and Management, and Generators – General) between 1985 and 1993. The Subject Property, as Drlicka & Hyland PA (EPA Handler ID: FLD981855588) was listed as a non-generator (non-gen) on 10 April 2001 with no violations.

- **ERNS:** The Subject Property was listed on the Emergency Response Notification System (ERNS) database. Based on the ERIS report, in August 2007, an unknown chemical was released in the emergency room area of the hospital and one hospital employee collapsed and a paramedic became sick. The hospital stopped accepting patients and the affected area of the ER was quarantined. A HAZMAT team was called to the facility (additional information not available).

- **WELL SURVEILLANCE:** The Subject Property, as Baptist Hospital, was listed on the Well Surveillance Program Facilities (WELL SURVEILLANCE) database as a petroleum type property.

- **BROWNFIELDS:** The Subject Property was listed as located at the Brownsville Redevelopment Area (Brownfield Area ID = BF171103000) and Englewood Redevelopment Area (Brownfield Area ID = BF171104000).

4.1.3 Database Search Results – Vicinity Properties

The search of environmental databases identified 24 site listings for properties within 1-mile of the Subject Property, some of which were in databases indicative of releases. Other than select sites discussed below based on their database listing, listed sites located greater than 0.25 miles from the Subject Property were not evaluated because they are not anticipated to adversely affect the Subject Property based on their database listing, location, and/or proximity. A summary of reviewed database listings is included below:

- **FMC Pensacola Dialysis** – This facility is located at 1305 West Moreno Street (adjacent to the west, hydraulically cross-gradient) and is listed on the STCS and AST databases, with one in use 640-gallon emergency generator diesel AST installed in 2014. The facility is listed as in compliance as of 19 July 2021. No releases were reported by ERIS.

- **Lakeview Children's Center** - This facility is located at 1200 West Lakeview Avenue (adjacent to the northwest, hydraulically upgradient) and is listed on the FINDS/FRS database with an ICIS-NPDES non-major stormwater construction permit (FLR10KH59) under ICIS.

- **7-Eleven Food Store #15329** - This facility is located at 1907 N E Street (adjacent to the north, hydraulically upgradient) and is listed on the STCS and UST databases with two 8,000-gallon leaded gasoline USTs installed in 1975 and removed from the property. No releases were reported by ERIS.

- **Gulf Power North Hill Substation** / **GP North Hill Substation** - This facility is located at West Avery and D Street (approximately 208.76 feet to the east-northeast, hydraulically upgradient to cross-gradient) and is listed on the Institutional Controls Registry (INST) database with digging and land use restriction. The facility is also listed on the Waste Cleanup Responsible Party Sites (WCRPS) and Delisted Contamination Sites (DEL CONTAM SITE) databases as a closed responsible party site with arsenic contamination (additional information not available). This facility is further discussed in Section 4.3.3.

- **Lakeview Center** - This facility is located at 1221 West Lakeview Center (approximately 292.23 feet to the west, hydraulically upgradient to cross-gradient) and is listed on the STCS and AST databases, with one in use 850-gallon emergency generator diesel AST installed in 2012. A violation was listed for the facility, failure to perform overfill protection annual operability tests, on an inspection occurred on 17 February 2021. A return to compliance letter was issued to the facility on 19 December 2022. No releases were reported by ERIS.

- **Lloyd Street and Morris Court Brownfield Area** – located approximately 547.61 feet to the southwest, hydraulically cross-gradient, is listed as a Brownfields Area (Brownfield Area ID: BF170801000).

- **Glens Service Stations Inc** – This facility is located at 2101 N E Street (approximately 724.07 feet to the north-northeast, hydraulically upgradient) and is listed on the WELL SURVEILLANCE, STCS, UST, Contaminated Sites (DWM CONTAM) and LST databases. According to ERIS, three unleaded gasoline USTs (6,000-gallons, 4,000-gallons, and 1,000-gallons) were listed as removed from the facility in 2009 and 2011 and one 4,000-gallons unleaded gasoline UST was closed in place in 2009. The facility (Id No. 8626732) was listed on the DWM CONTAM and LST databases with a release of unleaded

and leaded gasoline in 1988 (cleanup status listed as "SRCR Complete") and a release of 25 gallons of unleaded gas in 2008 (cleanup status listed as "Remedial Action (RA) Ongoing"). This facility is further discussed in Section 4.3.3.

- **Washington Court Housing –** This facility is located approximately 0.34 miles to the west-southwest (hydraulically cross-gradient) is listed on the Formerly Used Defense Sites (FUDS) database.

4.1.4 Unplottable Sites

ERIS identified two "unplottable sites" which was not mapped by ERIS due to the lack of sufficient address information. The properties, 1595 North Pace Boulevard and SIS#568 – Pace Boulevard Investigation, are listed at the DWM CONTAM database. The facilities appear to be located approximately 0.63-miles to the west. Geosyntec did not find evidence that the unplottable site offered more than a low potential for contamination that might be present to have adversely impacted the surface or subsurface quality at the Subject Property.

4.2 Historical Use Information

Geosyntec contracted ERIS to provide standard historical records, including aerial photographs, topographic maps, city directories, and fire insurance maps (ERIS, 2024a-e). The sections below identify and summarize the historical information sources reviewed for the Subject Property and vicinity. A summary of the findings from the review of the historical sources is provided in **Table 5**. Copies of the historical records reports are included in **Appendix B**.

4.2.1 Historic Aerial Photographs

ERIS provided aerial photographs from 1940, 1951, 1961, 1965, 1973, 1981, 1989, 1994, 1999, 2007, 2010, 2013, 2015, 2017, 2019, 2021, and 2023. Additional aerials were reviewed from Google Earth for 2022 and 2023.

4.2.2 Historical Topographic Maps

ERIS supplied portions of USGS topographical maps of the Subject Property and vicinity for 1921, 1941, 1942, 1944, 1970, 1987, 1994, 2015, and 2021.

4.2.3 City Directories

Available business directories, including cross reference and telephone directories, were reviewed for West Blount Street (800-1400) and West Moreno Street (800-1400) for 1927, 1928, 1931, 1936, 1940, 1946, 1950, 1955, 1960, 1964, 1968, 1973, 1978, 1983, 1986, 1990, 1995, 2000, 2003, 2008, 2012, 2016, 2020, and 2022.

4.2.4 Fire Insurance Maps

Based on ERIS' search of fire insurance maps, there was coverage for the Subject Property for 1950 and 1979.

4.2.5 Property Tax Files

Geosyntec researched publicly available online tax records through the Escambia County online database. The information retrieved included property boundary information, property owner, and property size. The Subject Property is presently owned by Baptist Health Care Inc., Lakeview Center Inc., and Pensacola POB Inc. are listed the parcels owners. The retrieved tax map parcel information is provided in Appendix A.

Table 5. Historical Records Review

Aerial Photographs	Topographic Maps	City Directory (CD)	Fire Insurance Maps
Subject Property: In 1940 the Subject Property was developed with multiple unimproved roads and paths on the southern and northern portions of the Subject Property. At least three structures (apparent residences) were observed on the central, northeast and southwest portions of the Subject Property. By 1951, a larger building and small buildings were depicted on the central portion of the Subject Property, along with several paved roads to the north and south. Additional smaller structures were observed on the northern and southern portions of the Subject Property (potentially residential). In the 1961 aerial photograph, several buildings with associated parking lot were located on the central portion of the Subject Property with additional buildings observed on the southern and northern portions of the Subject Property (some appear to be residential while others appear to be commercial based on size). The number of buildings increased during the 1970s and 1980s. By 1989, two large commercial buildings located on the northern portion of the Subject Property	**Subject Property**: The Subject Property was developed with streets on the 1921 topographic map. From 1941 to 1944 small structures were located on the central and eastern portion of the Subject Property. On the 1970 and 1987 topographic maps three larger buildings were located on the Subject Property, the one in the center was labeled Baptist Hospital, the one on the northern portion of the Subject Property was labeled Pensacola Christian School and one unlabeled building located on the southern portion of the Subject Property. By 1994, only the two labeled buildings were depicted on the topographic map. No features are depicted on the 2015 and 2021 topographic maps. **Adjoining and Vicinity:** Structures were depicted on the adjoined properties to the north, west and east on the 1944 topographic map. A pond is located approximately 0.2 miles from the Subject Property to the west. Based on the map coloring, the adjacent properties and the vicinity of the Subject property was developed by 1970. Pensacola High School was located	**Subject Property**: The Subject Property was listed on the city directories provided by ERIS as follows: *1000 West Moreno Street* - listed as under construction on the 1950 city directory and as Baptist Hospital in 1955, 1960, 1964, 1968, 1973, 1978, 1983, 1986, 1990, and 1995; as Northwest Fla Artificial Kidney Center in 1973; as Baptist Hospital Oncology Resource in 1983 and 1986; and as Care Unit Clinic in 1986. From 2000 to 2022 the Subject Property under several medical related entities, as Baptist Behavioral Medicine, Brenner Jeffrey MD (medicine practitioner), Fountain Pensacola Chapter Lupus and Gulf Coast Surgical Association, among others. *910 West Blount Street* – listed as residential (single name) in 1960, 1964, and 1968), as Baptist Health South Fl Inc. in 2020 and 2022, as Smoking Cessation in 2000 and 2003, as Baptist Hospital in 1995, as Smoking Stoppers in 1995, as a chiropractor office in 1973, 1983, 1986, 1990, and 1995, as Natural Health Foundation Inc in 1973, and	**Subject Property**: The 1950 and 1979 Fire Insurance Maps (FIMs) are incomplete, depicting only the central-eastern portion of the Subject Property. In the 1950 map, three buildings were depicted on the central portion of the Subject Property: Baptist Hospital, Crippled Childrens Hospital and a storage building. In the 1979 FIM, a dwelling was located at 1100 West Avery Street and three buildings, part of the Pensacola Christian Grade School, were depicted at 1000 and 1004 West Avery Street. Three buildings were depicted on the central portion of the property, the Crippled Childrens Hospital, the Baptist Hospital, and the Professional Office Building (1003 West Avery Street and 1000 West Moreno Street). A building labeled Hospital Supply Warehouse was depicted across North G. Street (1105 West Avery Street), four buildings labeled as "Clinic" were depicted at 1025, 1015, 1013 and 1001 West Moreno Street, an office/dwelling was located at 905 West Moreno Street, and a dwelling

Table 5. Historical Records Review

Aerial Photographs	Topographic Maps	City Directory (CD)	Fire Insurance Maps
appeared to be razed and replaced by a parking lot. No significant changes were observed from 1994 to 2023. **Adjoining and Vicinity**: On the 1940 aerial photograph the adjoined properties were mostly undeveloped land with what appeared to be single-family residences west of the Subject Property. A pond is located approximately 0.2 miles to the west. By 1951 residences and commercial buildings were located on the adjoined properties and the Pensacola High School was located approximately 0.23 miles to the northeast. Residential and commercial development increased in the area in the following decades, and no significant changes were observed from the 1990s to the present.	approximately 0.23 miles to the northeast. No significant changes were observed in the 1987 and 1994 topographic maps. No features are depicted on the 2015 and 2021 topographic maps.	1983, and as Executive Survival Systems in 1978 and 1983. *912 West Blount Street* – No listings. *1000 West Blount Street* – listed as Baptist Health South Fl Inc. in 2012, 2016, 2020, and 2022, as residential (single name) in 1968, 2003 and 2008, as a physician office in 1973, 1978, 19831995, 2000, and 2003, and as vacant in 1986. *1010 West Blount Street* – listed as Baptist Health Care Foundation in 2000, 2003, and 2010, as residential (single name) in 1990, and as a physician office in 1968, 1973, 1978, and 1983. *1200 West Blount Street* – No listings. *1218 West Blount Street* – listed as residential (single names) in 1960, 1964, 1968, 1978, 1973, 1986, 1990, 1995, 2000, 2003, and 2008. *840 West Moreno Street* – listed as Chain Reaction – Social Service & Welfare in 2012, 2016, 2020, and 2022, as Pensacola Promise – Social Service & Welfare in 2008 and 2012, as residential (single name) in	was located at 901 and 903 West Moreno Street. **Adjoining and Vicinity**: Dwellings were depicted to the south and east of the Subject Property on the 1950 and 1979 FIMs. A transformer yard was depicted east of the northern portion of the Subject Property in the 1979 FIM at the intersection of West Avery Street and North D Street.

Aerial Photographs	Topographic Maps	City Directory (CD)	Fire Insurance Maps
		(1964, 1968, 1978, 1983, 1990, and 1995), Amecon Aluminum Components (1986), Women`s Community Health Center (1990 and 1995), Lupus Foundation Pensacola (2000 and 2003), Careminders Home Care (2012) and several clinics and physicians (listed as single names). Listings for the West Blount Street were mostly residential, physicians (listed as singe names) and the Friendship Baptist Church from 1946 to 2022.	
In summary, the review of aerial photographs, topographic maps, and city directories revealed usages that could be indicative of hazardous materials or chemical storage, management, usage, or disposal at the Subject Property or in the immediate vicinity that could pose a threat to the surface or subsurface quality at the Subject Property. However, in this review, Geosyntec noted no definitive features showing chemical management, chemical spills or evidence of waste disposal on or into the ground at the Subject Property. Our opinions on the nature of the historical features of the Subject Property and the surrounding area are included in Section 7 of this report.			

4.3 Local, County, State, and Federal Files

Geosyntec contacted local, county, and state agencies via telephone and electronic mail to inquire as to whether they possessed relevant records regarding the Subject Property. Relevant information is summarized below. Excerpts of relevant regulatory agency documents are presented in **Appendix D**.

4.3.1 Local Fire Department Records

On 11 June 2024, Geosyntec contacted the City of Pensacola Fire Department via email to inquire about incidents at the Subject Property. As of the date of this report a response has not been received from the City of Pensacola Fire Department.

4.3.2 City or County Records

Geosyntec contacted the Escambia County via e-mail on 11 June 2024 regarding emergency response, spill records, and information on septic systems and supply wells available for the Subject Property. As of the date of this report, a response has not been received from Escambia County.

4.3.3 State Records

Geosyntec searched FDEP's online Information Portal[7] and Contamination Locator Map[8] for information relevant to the environmental condition of the Subject Property, including all associated physical addresses listed for the Subject Property, and vicinity properties.

Documentation was available on the FDEP database for the Subject Property as Fresenius Medical Care and Baptist Hospital West Expansion and Baptist Hospital. Documents available for the Fresenius Medical Care facility were related with NPDES permit FLR10MQ26, a Notice of Intent to Use Generic Permit for Stormwater Discharge was submitted to the FDEP in April 2013. A Stormwater Pollution Prevention Plan (SWPPP) was available for the Baptist Hospital West Expansion. Baptist Hospital hazardous waste inspection reports for the years of 1993, 1995, and 2001 were available for review.

Based on information provided in a September 2012 *Remedial Action Plan* prepared by Enviro-Pro-Tech for the Baptist Hospital, two 10,000-gallon USTs were installed on the Subject Property in July 1976. The USTs were previously used to fuel a standby generator and fire pump. Petroleum stains were reportedly observed on the northern UST`s fill tube and on the return containment pump during the closure assessment; a Discharge Report Form (DRF) was also submitted to FDEP on 19 October 2009. Based on a review of the DRF, approximately 25 to 100 gallons of diesel was

[7] https://prodenv.dep.state.fl.us/DepNexus/public/searchPortal
[8] https://prodapps.dep.state.fl.us/dep-clnup/

estimated to have discharged from the USTs. An attempt was made to remove the USTs (the northern half of the northern tank was reportedly severed and removed for disposal); however, it was decided that further excavation would jeopardize the nearby structures, and both USTs were closed in place.

Vapor concentrations measured on the soil/pea gravel near the USTs' fill port area ranged from 2,750 parts per million (ppm) to 4,601 ppm. Contaminated soil/pea gravel was excavated, and soil/pea gravel exhibiting a petroleum-like odor and/or excessive vapor concentration was segregated. Based on laboratory analysis of a soil sample collected from the segregated soil, it was considered special waste and was disposed of at the Escambia County Perdido Landfill. Perched groundwater was removed from the bottom of the tank pit, first by Aaron Oil Company of Mobile, Alabama (1,724 gallons of liquid removed) and then by SWS First Response (1,800 gallons of liquid removed). A groundwater extraction system with disposal of the groundwater to the sanitary sewer system was chosen as the remediation method for the Subject Property. The groundwater extraction system consisted of two groundwater recovery wells that was started on 13 December 2013 to address the remaining dissolved-phase hydrocarbon contamination at the site. A total of 3,412 gallons of groundwater were recovered by the system between startup and 18 September 2014 when the system was turned off due to impending construction at the hospital. Based on the Quarterly Operations Report prepared by Enviro-Pro-Tech, Inc. dated November 2014, water samples were collected from four wells and analyzed for benzene, toluene, ethylbenzene and xylenes (BTEX) and methyl tert-butyl ether (MTBE), polycyclic aromatic hydrocarbons (PAHs) and total petroleum hydrocarbons (TRPH). Ethylbenzene, naphthalene, and 1 – and 2 – methylnaphthalene were detected at concentrations above FDEP Groundwater Cleanup Target Levels (GCTLs). The apparent groundwater flow trends in a southerly direction. A Conditional Site Rehabilitation Completion Order (CSRCO) was issued by FDEP for the Subject Property on 1 June 2022; FDEP noted that a Supplemental Site Assessment Report dated 7 May 2017 was reviewed, and the criteria in Chapter 62-780, Florida Administrative Code was met. As such, contaminants remaining at the Subject Property were limited to groundwater. Based on the CSRCO, the groundwater contaminant plumes were located northwest of the north building and north of the energy center. A Declaration of Restrictive Covenant (DRC) was recorded by Baptist Hospital, Inc. on 10 January 2022. The following restrictions were identified for the Subject Property: no groundwater use, no dewatering, and no stormwater facilities affecting groundwater.

Documentation was available on the FDEP database for vicinity properties, as follows:

- ***Gulf Power North Hill Substation*** - This facility is located at West Avery and D Street (approximately 209 feet to the east-northeast, hydraulically up to cross-gradient). Based on a letter prepared by Gulf Power Company dated 31 March 1988, Gulf Power Company used a commercially available herbicide, of which the primary active ingredient was arsenic trioxide, in electrical substations for weed control. A testing program was started to determine if soil treated with the herbicide would be classified as hazardous waste if

removed from the substation and to determine any impacts on groundwater from the herbicide. Based on the May 2003 *Soil Excavation Report* prepared by Earth Science and Environmental Engineering for the North Hill Retired Substation, the soil removal at the nearby substation began on 17 March 2003 and was completed on 20 March 2003. A field portable x-ray fluorescent unit was used to define contamination (defined as arsenic concentrations above 10 mg/kg) during excavation activities. Soil confirmation samples were collected and analyzed, confirming arsenic concentrations above the guidance concentration of 10 mg/kg in five soil samples. A total of 2,169.36 tons of contaminated soil was removed and properly disposed. Upon completion of the excavation an asphalt parking lot was constructed over the substation facility. The October 2003 *Addendum to the North Hill Retired Substation Soil Excavation Report* stated that a low permeability sandy-clay to clayey-sandy layer, with an average thickness of 15 feet underlay the entire facility and that, in conjunction with groundwater depth of 30.5 feet below land surface, makes the potential for groundwater contamination highly unlikely. Based on the December 2022 *Institutional Controls/Engineering Controls Audit Report* prepared by Arcadis, soil and groundwater assessments were completed at the facility from 2003 to 2005. On 28 July 2010, Gulf Power Company recorded a DRC to address remaining soil impacts. The DRC includes a land use restriction, a digging restriction, a dewatering restriction, and an engineering control in the form of an impermeable cap. The facility received a CSRCO on 13 September 2010.

- ***Glens Service Stations Inc*** – This facility is located at 2101 N E Street (approximately 724 feet to the north-northeast). Based on an *Environmental Site Investigation Report* prepared by LFR Inc. (LFR) on 21 May 2008, the facility operated as a gas station since 1971. During Geosyntec`s site reconnaissance, this property was observed to be redeveloped into Infrastructure Specialty Services, a general contractor. The facility reportedly included four USTs, two 4,000-gallon gasoline USTs, one 1,000-gallon diesel fuel AST and one 6,000-gallon unleaded gasoline UST. In 1994, the 1,000-gallon UST and one of the 4,000-gallon USTs were closed in place. A discharge notification form (DNF) was submitted in November 1988, and the facility entered the Early Detection Incentive (EDI) program in September 1989. A *Contamination Assessment Report* was submitted in July 1993 and approved by FDEP in August 1993. Contamination was identified in soil and groundwater during the assessment. A soil-vapor extraction (SVE) system was started in September 1994. The system was operated and monitored until March 1996, when NFA status was granted to the facility.

  In March 2006, a system investigation was conducted for insurance purposes, and results of the soil screening and analyses conducted in the field showed petroleum impacted soil present on the eastern side of the eastern tank pit. Based on the elevated levels of toluene, ethylbenzene, and total xylenes, and lower levels of more soluble constituents such as benzene and MTBE, it was concluded that the contamination did not appear to be a recent

occurrence. Supplemental site assessment was conducted from February to May 2007 and contamination was confirmed. LFR determined that, in addition to the 1988 release, there was evidence of a second, more recent release, which occurred at some point between 2003 and May 2008. Based on the February 2012 *Remedial Action Plan* prepared by AMEC Environmental & Infrastructure, Inc, due to the discovery, a request to the FDEP to rescind the NFA approval letter and to reassign the facility into the EDI program was submitted. FDEP rescinded the SRCO in October 2006. Groundwater assessment and light non-aqueous phase liquid (LNAPL) recovery activities were completed at the facility between January 2009 and March 2009. During the week of 17 October 2011, three of the four USTs (1,000-gallon diesel, 4,000-gallon mid-grade gasoline and 4,000-gallon premium grade gasoline) were removed from the facility. The February 2012 *Remedial Action Plan* suggested an SVE system and air sparge in conjunction with monitoring as remedial options for the facility. The remedial system operation was initiated in January 2013, with the thirteenth quarter of system operation being concluded in February 2016. Post Active Remediation Monitoring was completed in June 2016 and September 2016. Based on the June 2016 and September 2016 groundwater analytical results, the system operation resumed in November 2016. Remediation progress monitoring was completed in February 2017 and March 2017. Based on the February 2017 and March 2017 groundwater analytical results, discontinuation of system operation was recommended. Based on the June 2024 Post Active Remediation Monitoring (PARM) Groundwater Sampling Event at Smart Fill No. 1 (Glen's Super Service Station) letter prepared by GLM & Associated, Inc., one well was sampled for BTEX, MTBE and PAHs on 19 May 2024 and total xylenes were found below Groundwater Cleanup Target Levels (GCTLs). Other than a Naphthalene detection of 26 µg/L below the GCTL, no other parameters were found above laboratory method detection limits. Based on review of previous reports and statements on historical groundwater flow directions, the groundwater flow in the property has been consistently to the south/southeast.

4.3.4 Federal Records

The Subject Property, noted as Baptist Reg Health Service located at 1000 West Moreno Street, was identified in the ECHO database with a terminated permit (FLR10MQ26) under ICIS-NPDES and as an active very small quantity generator (VSQG) under RCRAInfo with no violations. USPS Pensacola Vehicle Maintenance Facility, located at 1400 West Jordan Street (approximately 0.33 miles to the northwest of the Subject Property), was listed with an active industrial stormwater permit (FLRNEE145) under ICIS-NPDES with no violations. USPS Pensacola P & DC & VMF, located at 1400 West Jordan Street (approximately 0.33 miles to the northwest of the Subject Property), was listed as an active VSQG under RCRAInfo with no violations.

Review of the USEPA National Priorities List (NPL)[9] database on 3 August 2024 did not reveal records in connection with the Subject Property or surrounding properties. This database lists sites of national priority among the known releases or threatened releases of hazardous substances, pollutants, or contaminants throughout the United States and its territories.

4.4 Other Documents Reviewed

The User provided an *Environmental Screening Report* which was prepared by Cameron-Cole in December 2022 for the Baptist Hospital "E" Street Campus at 1000 West Moreno Street. The assessed property comprised 44.5 acres, including the Subject Property. At the time of the report, the main hospital complex was developed with a 6-story hospital building that comprised 412,790 square feet (sq ft) and was originally constructed in 1949. Evidence of Environmental Concerns (ECs) was not identified associated with the Subject Property. A copy of the report is provided in **Appendix B**.

[9] https://epa.maps.arcgis.com

5. SUBJECT PROPERTY RECONNAISSANCE

A reconnaissance of the Subject Property was conducted in accordance with the information provided in **Table 1**. Representatives from the current owner (Baptist Health Care) were present during the site reconnaissance to escort Geosyntec personnel. To meet assessment objectives, Geosyntec first observed interior operations as they related to facility activities and then observed exterior areas including the Subject Property perimeter and area reconnaissance. Business-related activities were mostly ceased at the Subject Property (excluding laundry and some IT functions), and the interior spaces were primarily vacant.

Photographs taken during the reconnaissance are included in **Appendix E**. Adjoining properties were observed from their perimeters.

The focus of the site reconnaissance was to identify evidence of hazardous substances and petroleum products used, stored, or discarded; Geosyntec also inspected the Subject Property for areas of disturbed or discolored soil, suspect equipment, and building materials that may contain hazardous substances; areas of distressed vegetation; wastewater discharge areas; storage tanks/septic systems; waste management and disposal areas; lagoons; pits; sumps; surface water management areas; and stained surfaces.

5.1 Utility Service and Materials Management Provider Information

The utility service and materials management providers and practices at the Subject Property are summarized (**Table 6**) from information supplied during Geosyntec's site reconnaissance.

Table 6. Subject Property Utilities and Materials Management

Utility Service/Materials Management	Service Provider
Electricity	Florida Power and Light
Natural gas	Pensacola Energy
Sanitary wastewater disposal	Escambia County Utility Authority
Industrial wastewater disposal	None identified.
Drinking water supply	City of Pensacola.
Irrigation water supply	On-site irrigation wells.
Stormwater disposal	Stormwater runoff from paved areas and roof drains reportedly discharges toward a stormwater outlet on the southeast corner of the Subject Property.
Solid (non-hazardous) waste disposal	Not identified.
Hazardous waste disposal	Not identified.

Table 6. Subject Property Utilities and Materials Management

Utility Service/Materials Management	Service Provider
Universal waste	Not identified.

5.2 Interior and Exterior Observations

Observations made during the site reconnaissance for the Subject Property are documented in **Table 7**.

5.3 Adjoining Property Reconnaissance

During the site reconnaissance, Geosyntec observed the adjoining properties from the Subject Property or public vantage points in an attempt to identify possible sources of obvious environmental impairment that could affect soil and groundwater quality at or result in vapor migration into the Subject Property as a result of surface water runoff, groundwater transport, or similar pathways. Geosyntec saw no obvious evidence of chemical storage or releases to the ground at adjacent properties during the reconnaissance. Additional information regarding adjoining land use is provided in Section 2.4.

Table 7. Interior and Exterior Observations

ASTM Section E1527-21	Feature or Condition	Description
Interior and Exterior Observations		
9.4.11	General Usage of Hazardous Substances and Petroleum Products	The Subject Property was formerly operated as a regional hospital, as such general usage of hazardous substances and petroleum products observed were as follows: Diesel fuel was stored and used to power emergency generators in the event of a power outage. Fuel for generators at the Subject Property was formerly stored in USTs, and later in two ASTs. A diesel fuel tank used for a generator is also located on the southern side of the BHU. Hazardous substances identified at the site included four types of boiler water treatment/additives stored in the covered area between the north towers and the main hospital building.

9.4.12	Aboveground Storage Tanks (ASTs)	Geosyntec observed the following ASTs during the site reconnaissance: • Two diesel fuel ASTs were located on the northwestern portion of the property. The ASTs were double-walled and appeared to be in good condition. The ASTs were not located in a containment basin. Multiple groundwater monitoring wells were observed within this vicinity. When asked about the ASTs, Subject Property owner representative Eamonn Wheelock stated that Baptist plans to sell the ASTs to a third party. • One aviation fuel AST (approximately 15,000-gallon capacity, double-walled) was located near the southeast corner of the main hospital building. The AST was double-walled and was situated on a concrete pad without secondary containment basin. The interstitial monitor fuel indicator showed the interstitial space was halfway full of fluid. Groundwater monitoring wells were observed near the AST. Two single-walled pipes were observed between the aviation fuel AST and the main hospital building. Based on information provided by the Subject Property owner/representative these pipes appeared to have been buried for approximately 45 years. No inspection records were identified for the pipes, and Geosyntec was unable to observe their condition. • One diesel AST (approximately 1,000-gallon capacity, double-walled) was located on the south side of the BHU. This AST was located on a concrete pad adjacent to a diesel generator. Rust was present on the AST, and the interstitial monitor indicated fluid within the interstitial space. • An AST containment area (no AST present) was observed on the southern side of the building located at 1201 W. Moreno Street. The containment area was rectangular and was constructed of concrete with approximate dimensions of 8 feet long by 7 feet wide. There were no obvious signs of staining or stressed vegetation within the area of the AST containment basin. • One approximately 100-gallon polyethylene tank containing aqueous film forming foam (AFFF) associated with a fire suppression system was located near the helicopter pad on the roof of the main hospital building.

Table 7. Interior and Exterior Observations

ASTM Section E1527-21	Feature or Condition	Description
9.4.12	Underground Storage Tanks (USTs)	During the site walk, the Subject Property owner representative identified the area where the former diesel USTs were located, adjacent to the two 10,000 diesel ASTs near the northwestern corner of the main hospital building. One UST was reported by Mr. Wheelock to be abandoned on-site and is present in this location (review of historical records indicated that two USTs were closed in place at this location).
9.4.13	Odors	Strong petroleum odors were noted in the vicinity of the aviation fuel AST located southeast of the main hospital building. Petroleum odors were also noted near the aviation fuel lift station when the covers of adjacent monitoring wells were opened.
9.4.14	Pools of Liquids	Multiple puddles of water were observed within the interior of the main hospital building, BHU, and north towers. This water was identified to be a result of roof leaks as well as piping leaks. Water was observed to be leaking from the boiler room out to the ground surface adjacent to the building.
9.4.15	Drums ≥ 5 Gallons	Several containers of additives were observed north of the main hospital building. The 20-gallon containers were labelled: “RLT 35 Steam Boiler Condensate Return Line Treatment”; “BWT 2745 Boiler Water Treatment”; “ALKAPRO 6040 alkalinity source”; and “OXIGON 102 oxygen scavenger”.
9.4.16	Hazardous Substances and Petroleum Products Containers	No hazardous substances or petroleum products in addition to those described above were observed.
9.4.17	Unidentified Substances/Containers	Unidentified substances/containers were not observed during Geosyntec’s site visit.

Table 7. Interior and Exterior Observations

ASTM Section E1527-21	Feature or Condition	Description
9.4.18	Indication of Polychlorinated Biphenyls (PCBs)	Several pad-mounted transformers were observed at several locations on the Subject Property. Two transformers were located near the northwestern corner of the main hospital building, near the two 10,000-gallon diesel ASTs. One transformer was located north of the north towers near the adjacent parking lot. Two transformers were located on the southeastern side of the northeastern north tower. One transformer was located near the southeastern corner of the BHU. Most of these transformers were owned by FPL. Pole-mounted transformers were present on several power poles within the rights-of-way of the roads traversing the Subject Property. It is unclear as to which transformers were owned by the electrical power provider (FPL) and which were owned by Baptist. At least two of these transformers appeared to be owned by Baptist and were likely installed between 1973-1981. Based on their age, PCBs may be present in the transformer oil. Pad-mounted transformers appeared to be in satisfactory condition, with some observed rust, but no observed damaged or leaking. Labels inspected on the did not indicate the presence or absence of PCBs.
Interior Observations		
9.4.19	Heating and Cooling Systems	A boiler provides heat to the main hospital building and north towers (radiant heat via pipes in the flooring). The office area of the main hospital building has central air conditioning; however, the type or quantity of refrigerant was not known by the Subject Property owner representative.
9.4.20	Stains/Corrosion	Minor staining was observed around generators for the BHU.

Table 7. Interior and Exterior Observations

ASTM Section E1527-21	Feature or Condition	Description
9.4.21	Drains and Sumps	Floor drains were present at multiple locations (bathrooms, janitor closets, morgue, etc.) within the main hospital building, the north towers, and BHU and drain to the sanitary sewer. No evidence of releases of hazardous substances or petroleum products to these drains. A sump/drain was observed within the concrete slab of the covered storage area between the north towers and the main hospital building, adjacent to the storage area of the boiler additive chemical containers. Minor staining was observed near the sump/drain. An oil-water separator (OWS) was observed on the eastern portion of the Subject Property. Geosyntec did not inspect the interior of the OWS, and inspection/maintenance records were not provided to Geosyntec for review. According to the Subject Property owner representative, runoff from the helipad is routed to the OWS via gutter, and a containment at the aviation fuel lift station may have been routed to the OWS.
Exterior Observations		
9.4.22	Pits, Ponds, or Lagoons	No evidence of pits, ponds, or lagoons was observed during Geosyntec's site visit.
9.4.23	Stained Soil or Pavement	Minor staining was observed around the AST area and beneath generators for the main hospital building and BHU.
9.4.24	Stressed Vegetation	No obviously stressed vegetation indicative of a chemical discharge or application was observed on the Subject Property.
9.4.25	Solid Waste	The Subject Property is currently producing some solid waste associated with laundry services on-site. Solid waste is placed into dumpsters collected by the City of Pensacola or others.

Table 7. Interior and Exterior Observations

ASTM Section E1527-21	Feature or Condition	Description
9.4.26	Wastewater and Stormwater Discharge	Industrial wastewater is not generated at the Subject Property. Sanitary wastewater is discharged to the sanitary sewer system owned and operated by ECUA. Stormwater from the roof and paved parking areas drain to multiple stormwater drains located around the main hospital building and enters the stormwater drainage systems.
9.4.27	Wells	Multiple monitoring wells were observed in the vicinity of the two 10,000-gallon diesel ASTs and former USTs located near the northwestern corner of the main hospital building. Additionally, extraction or injection wells associated with the former groundwater remediation system were observed. Two monitoring wells were located adjacent to the aviation fuel lift station. One irrigation well was observed near the southeastern corner of the main hospital building. Based on field observations, the monitoring wells did not appear to be abandoned.
9.4.28	Septic Systems	No septic systems were observed. ECUA maintains the sanitary sewer system in the area.

6. INTERVIEWS

6.1 Interview with Current Owner/Occupant/User

During the 18 July 2024 reconnaissance of the Subject Property, Geosyntec was escorted by and interviewed Eamonn Wheelock (Executive Director – Support Services at Baptist Health Care) as the current site owner representative. Mr. Wheelock explained that the Subject Property is owned by the Baptist Health Care, which moved the hospital operations from the Subject Property to a new Baptist Hospital location in September 2023. Mr. Wheelock escorted Geosyntec to areas of potential environmental concern and provided background and history of the facility to the best of his knowledge. Mr. Wheelock was not aware of any releases or spills (other than the ones documented in publicly available records). When asked if the laundry area had ever conducted any on-site dry-cleaning activities, he stated that he was not aware of any dry-cleaning ever performed at the Subject Property. Mr. Wheelock explained that the main fire suppression system on the rooftop helicopter landing pad was offline for at least 10 years. A temporary system, utilizing AFFF, was brought to the rooftop helicopter pad after the main system was offline. He indicated that the fire suppression system was tested annually to maintain the helipad certification and most runoff would enter a gutter which was routed to the on-site OWS. Mr. Wheelock did not recall any leaks or issues related to either the main fire suppression system. No other details were provided relating to the specific chemical content of the AFFF utilized with the fire suppression system.

6.2 Interview with Previous Owner/Occupant

Geosyntec was not provided with contact information for previous owners/operators of the Subject Property. Interviews with prior owners and occupants were not conducted as part of this assessment. This is considered a data gap (see **Section 7**).

6.3 Interview with Local Agencies

Geosyntec contacted local and county agencies via telephone or electronic mail to ask whether they possessed relevant records regarding the Subject Property, as discussed in **Section 4.3**.

7. FINDINGS AND CONCLUSIONS

Geosyntec has conducted a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 of the Subject Property located at Pensacola, Florida. Any exceptions to, or deletions from, this practice are described in Section 1.4 of this report.

Following the Findings and Opinions section (Section 7.1), we present identified data gaps and conclusions (Sections 7.2 and 7.3) regarding any identified RECs, Controlled (CRECs), Historical RECs (HRECs), or de *minimis conditions* associated with the Subject Property.

7.1 Findings and Opinions

This assessment has revealed several findings that could represent an environmental condition on the Subject Property. Each finding and our opinion relative to its significance as an environmental condition is discussed below.

Recognized Environmental Conditions (RECs)

As defined by ASTM E1527-21, a REC is: *"(1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment."*

- **Subsurface Piping and Oil/Water Separator at the Subject Property**: Four doubled-walled aboveground storage tanks (ASTs) were observed on the Subject Property during Geosyntec`s site reconnaissance on 18 and 19 July 2024, including one approximately 15,000-gallon aviation fuel AST located on the southwestern corner of the main hospital building. Two single-walled pipes were observed between the aviation fuel AST and the building. Based on information provided by the facility owner/operator, these pipes and the oil/water (O/W) separator appear to have been buried for approximately 45 years. Based on the age of the pipes and the O/W separator and the lack of inspection/maintenance records, this finding is considered a REC.

- **Aqueous Film Forming Foam Materials at the Subject Property:** A fire suppression system containing AFFF was observed on the helicopter pad on the roof of the main hospital building during Geosyntec`s site reconnaissance on 18 and 19 July 2024. AFFF suppression systems contain per- and poly-fluoroalkyl substances (PFAS). Two of the more common types of PFAS found in AFFF are perfluorooctanoic acid (PFOA) and perfluorooctane sulfonate (PFOS), and USEPA has listed PFOA and PFOS as hazardous substances under the Comprehensive Environmental Response,

Compensation, and Liability Act (CERCLA). In the absence of further detailed information regarding the composition of the AFFF previously utilized at this location, this finding was noted as a concern. Additionally, a polyethylene tank of AFFF appeared to be located next to the helipad. Based on the potential for impacts to the Subject Property associated with runoff and overspray during the annual system testing, this finding is considered a REC.

- **Lead-based Paint at the Subject Property**: Flaking exterior paint was observed on two of the vacant buildings located south of the main hospital building (1015 West Moreno Street). Buildings constructed in or before 1978 are presumed to contained lead-based paint (LBP), unless inspection or sampling are completed to refute this presumption. The potential for soil contamination with lead from the LBP in direct contact with soil is considered a REC.

Controlled Recognized Environmental Conditions

A CREC is a "*recognized environmental condition affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities with hazardous substances or petroleum products allowed to remain in place subject to implementation of required controls (for example, activity and use limitations or other property use limitations).*"

- **Petroleum Release at the Subject Property**: Based on information provided in the September 2012 Remedial Action Plan prepared by Enviro-Pro-Tech for the Baptist Hospital, two 10,000-gallon USTs were installed on the Subject Property in July 1976. The USTs were previously used to fuel a standby generator and the fire pump. Petroleum stains were reportedly observed on the northern UST`s fill tube and on the return containment pump during closure assessment, and a DRF was submitted to FDEP on 19 October 2009. Based on review of the DRF, approximately 25 to 100 gallons of diesel was estimated to have discharged from the USTs. An attempt was made to remove the USTs (the northern half of the northern tank was reportedly severed and removed for disposal); however, it was decided that further excavation would jeopardize the nearby structures, and both USTs were closed in place. Vapor concentrations measured on the soil/pea gravel near the USTs' fill port area ranged from 2,750 parts per million (ppm) to 4,601 ppm. Contaminated soil/pea gravel was excavated, and soil/pea gravel exhibiting a petroleum-like odor and/or excessive vapor concentration was segregated. Based on laboratory analysis of a soil sample collected from the segregated soil, it was considered special waste and was disposed of at the Escambia County Perdido Landfill. Perched groundwater was removed from the bottom of the tank pit, first by Aaron Oil Company of Mobile, Alabama (1,724 gallons of liquid removed) and then by SWS First Response (1,800 gallons of liquid removed). A groundwater extraction system with disposal of the groundwater to the sanitary sewer system was chosen as the remediation method. The groundwater extraction system consisted of two groundwater recovery wells that startup on 13 December 2013. A

total of 3,412 gallons of groundwater were recovered by the system between startup and 18 September 2014 when the system was turned off due to impending construction at the hospital. Based on the Quarterly Operations Report prepared by Enviro-Pro-Tech, Inc. in November 2014, water samples were collected from four wells and analyzed for benzene, toluene, ethylbenzene and xylenes (BTEX) and methyl tert-butyl ether (MTBE), polycyclic aromatic hydrocarbons (PAHs) and total petroleum hydrocarbons (TRPH). Ethylbenzene, naphthalene, and 1 – and 2 – methylnaphthalene were detected at concentrations above FDEP Groundwater Cleanup Target Levels (GCTLs). A CSRCO was issued by FDEP for the Subject Property on 1 June 2022 stating that a Supplemental Site Assessment Report dated 7 May 2017 was reviewed, and the criteria in Chapter 62-780, Florida Administrative Code was met, and that contaminants remaining were limited to groundwater. Based on the CSRCO, the groundwater contaminant plumes were located northwest of the north building and north of the energy center. It should also be noted that a well abandonment report is required by FDEP as part of the final conditions of the CRSCO (noting all remaining wells associated with the cleanup have been properly grouted/sealed up to land surface), and Geosyntec was not able to locate a copy of this type of report**.** A DRC was recorded by Baptist Hospital, Inc. on 10 January 2022. The following restrictions were imposed to the Subject Property: no groundwater use, no dewatering, and no stormwater facilities affecting groundwater. Based on remaining groundwater contamination at the Subject Property, and the associated DRC, this finding is considered a CREC**.**

Historical Recognized Environmental Conditions

An HREC is "*a previous release of hazardous substances or petroleum products affecting the subject property that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted use criteria established by the applicable regulatory authority or authorities without subjecting the subject property to any controls (for example, activity and use limitations or other property use limitations. A historical recognized condition is not a recognized environmental condition."*

- No HRECs were identified during this Phase I ESA.

De Minimis Conditions

A *de minimis* condition is "a condition *related to a release that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A condition determined to be a de minimis condition is not a recognized environmental condition nor a controlled recognized environmental condition.*".

Based on the information Geosyntec obtained, Geosyntec has concluded that the following findings do not meet the definition of a REC, CREC or HREC and are therefore *de minimis* conditions:

- No *de minimis* conditions were identified during this Phase I ESA.

Additional Findings

Per ASTM E1527-21, *"[s]ome findings, but not necessarily all findings, may be indicative of the presence of"* RECs, CRECs, HRECs, or *de minimis* conditions, while other findings may not be indicative as characterized above. These findings that do not fall within the defined characterizations above are therefore considered as additional findings and not classified above.

- **Transformers with Potential PCBs**: Approximately six transformers were observed throughout the Subject Property, during Geosyntec`s site reconnaissance on 18 and 19 July 2024. It is unclear as to which transformers are owned by the electrical power provider (Gulf Power) and which are owned by Baptist. At least two of these transformers appear to be owned by Baptist and were likely installed between 1973-1981. No evidence of staining or leaks, or PCB labels was observed for any transformer located onsite.

- **Petroleum Products Storage at the Subject Property**: Four doubled-walled aboveground storage tanks (ASTs) were observed on the Subject Property during Geosyntec`s site reconnaissance on 18 and 19 July 2024. Two approximately 10,000-gallon diesel fuel ASTs were located on the northwestern portion of the property; one approximately 15,000-gallon aviation fuel AST was located on the southwestern corner of the main hospital building; and one approximately 1,000-gallon diesel AST was located on the southern side of the BHU. A petroleum odor was noted around the 15,000-gallon aviation fuel AST.

- **Known Contamination at Nearby Property**: Glens Service Stations Inc., located approximately 724 feet to the north-northeast (hydraulically upgradient), was identified as a contaminated site with an open release case from 2008. Based on review of environmental assessment documents identified in the FDEP database, the facility operated as a gas station since 1971 with multiple gasoline and diesel USTs and an AST. During Geosyntec`s site reconnaissance, this property was observed to be redeveloped into Infrastructure Specialty Services, a general contractor. A DNF was filed in November 1988 and the facility entered the EDI program in September 1989. Contamination was identified in soil and groundwater during assessment. An SVE system was operated from September 1994 until March 1996, when FDEP granted NFA status to the facility. In March 2006, a system investigation was conducted for insurance purposes, and results of the soil screening and analyses conducted in the field showed petroleum impacted soil present on the eastern side of the eastern tank pit. Supplemental site assessment was conducted from February to May 2007, and

contamination was confirmed. LFR Inc. determined that, in addition to the 1988 release, there was evidence of a second more recent release which occurred at some point between 2003 and May 2008. Due to the discovery, FDEP rescinded the SRCO in October 2006. As of July 2024, monitoring and remediation were still ongoing at the facility.

- **Boiler Additive Chemicals:** Several containers of additives were observed on the Subject Property during the site reconnaissance. The containers were stored within the covered storage area adjacent north of the main hospital building. The 20-gallon containers were labelled RLT 35 Steam Boiler Condensate Return Line Treatment, BWT 2745 Boiler Water Treatment, ALKAPRO 6040 alkalinity source, and OXIGON 102 oxygen scavenger. Minor staining was observed in the storage area.

- **Potential Dry-cleaning Facility at the Subject Property**: A laundry area was identified during the site reconnaissance; however, interior observations were not conducted. The Subject Property representative confirmed that dry-cleaning operations were not currently conducted within the laundry facility but could not confirm whether the laundry services at the main hospital ever included on-site dry cleaning.

As noted earlier, a DRC was recorded by Baptist Hospital, Inc. on 10 January 2022 for the Subject Property. The following restrictions were imposed to the Subject Property: no groundwater use, no dewatering, and no stormwater facilities affecting groundwater. The ongoing obligations by the Subject Property owner associated with the restrictions defined in the DRC are considered a Business Environmental Risk (BER).

Another BER was identified in relation to the potential LBP located on-site. As noted earlier, two of the vacant buildings located south of the main hospital building (1015 West Moreno Street) were observed to have deteriorating and flaking exterior paint. Buildings constructed in or before 1978 are presumed to contained LBP, unless inspection or sampling are completed to refute this presumption. The costs associated with the removal and disposal of LBP are considered a BER. Additionally, potential ACM was observed in transit panels, floor covering, and jacketing and spray-on covering for HVAC ducting and piping. This is consistent with asbestos that has been documented in other reports prepared for the property. The costs associated with the removal and disposal of ACM are considered a BER.

Data Gaps

In accordance with ASTM E1527-21, this section documents data gaps in the information obtained and reviewed as part of this Phase I ESA and discusses the associated significance. A data gap is defined as being "*a lack of or inability to obtain information required by this practice [ASTM E1527-21] despite good faith efforts by the environmental professional to gather such information*". A significant data gap is defined as "*a data gap that affects the ability of the environmental professional to identify*" a REC.

Our assessment revealed the following data gaps, as defined by ASTM:

- ASTM E1527-21 states that "*interviews with past owners, operators, and occupants of the property who are likely to have material information regarding the potential for contamination at the property shall be conducted to the extent that they have been identified.*" Geosyntec was not provided with and did not identify owner contact information prior to the current Subject Property owner.

- Aerial imagery was not provided at five year-intervals or less pursuant to ASTM E1527-21. Geosyntec attempted to supplement aerial imagery with additional imagery from Google Earth but was unable to reduce all intervals to five years or less. This is considered a data failure, and a data gap but is not considered significant.

- During the site visit conducted on 18 and 19 July 2024, not all interior rooms were visually inspected if the other representative areas were observed during the site visit. In addition, several of the vacant single-story buildings located in the southeastern portion of the property were not accessed for interior observations. As a result of this limited observation of certain interior areas, the observations reported should be considered as broadly representative of the current conditions in portions of the Subject Property.

- During the site visit, the laundry area was currently in operation, and interior observations were not conducted. The Subject Property representative confirmed that dry-cleaning operations were not currently conducted within the laundry facility but could not confirm whether the laundry services at the main hospital ever included on-site dry cleaning

Collectively, these data gaps are not considered to be significant to the Findings or the identification of RECs at the Subject Property.

7.2 Conclusions

Geosyntec has performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-21 of the Subject Property located at Pensacola, Florida. Any exceptions to, or deviations from, this practice are described in **Section 1.4** of this report. This assessment has revealed no evidence of HRECs, or *de minimis* conditions in connection with the Subject Property. Three RECS, two CRECs, five additional findings and two BERs were identified in connection with the Subject Property. No *significant* data gaps were identified.

8. NON-SCOPE CONSIDERATIONS

This section presents client-requested non-scope considerations for additional due diligence that exceed AAI requirements as previously described in Section 1.4. No non-scope considerations were requested as part of this scope of work.

10. ENVIRONMENTAL PROFESSIONAL STATEMENT

I declare that, to the best of my professional knowledge and belief, I meet the definition of an Environmental professional as defined in §312.10 of 40 CFR Part 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the Subject Property. I have developed and performed all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Signed by David J. Latham - Geosyntec Consultants

The qualifications of the above-signed professional are included in Section 11.

11. QUALIFICATIONS OF STAFF

David Latham, P.G.(FL)

Mr. Latham is a licensed professional geologist (P.G.) in the State of Florida and has over 30 years of experience as a hydrogeologist dealing with assessment and remediation of impacted soil and groundwater at a wide range of commercial, industrial, and governmental facilities. His experiences include the following areas: property transaction environmental due diligence; environmental support for brownfields redevelopment; regulatory compliance; contamination assessments/site assessments; geophysical investigations for assessment of hydrogeological conditions; project and program management including compliance with quality assurance and environmental health and safety issues; applicability of remedial measures for contaminated sites; operation & maintenance of groundwater remediation systems, and preparation and implementation of remedial action plans. Mr. Latham holds both a Master's Degree and Bachelor's Degree in Geology.

Ashley Cannon, E.I.(SC)

Ms. Cannon is an environmental professional with ten years of environmental compliance and management experience in the electric utility industry in the areas of air, water, waste, and PSM. Her environmental consulting experience with Geosyntec for the past five years has included projects involving site assessment and remediation, regulatory compliance, and environmental due diligence. Her professional experience and responsibilities include: Phase I/II ESA's; field investigations; groundwater, soil, and sub-slab vapor sampling; regulatory compliance inspections and reporting; and preparation and implementation of site assessment work plans and remedial action plans. Ms. Cannon is a registered Engineer in Training and holds a Bachelor's degree in Biosystems Engineering and Master's degree in Environmental Engineering from Clemson University.

Kyle Carlton, P.G. .(FL)

Mr. Carlton is a licensed professional Geologist with 18 years of experience within the environmental industry as a consultant primarily focused on assessment and remediation of commercial and industrial sites. Currently, Mr. Carlton is supporting and managing a variety of projects focusing on environmental due diligence, contamination delineation, hydrogeological investigations, aquifer testing, alternate source demonstrations (ASDs), and groundwater monitoring and remediation at coal combustion residual (CCR) facilities for utility clients. In addition, Mr. Carlton is supporting/managing groundwater monitoring projects at power substations impacted by arsenic in soil and groundwater. He is managing dry-cleaner sites in Florida and implementing sub-slab soil vapor extraction remediation system at an active facility.

Pauline Burdette

Ms. Burdette's practice focuses on environmental due diligence, comprehensive site assessment, and remediation (monitored natural attenuation). She has prepared Phase I and Phase II ESAs for numerous properties as part of environmental due diligence for property transactions. Ms. Burdette has managed NPDES permit application (temporary dewatering) for development projects located in North Carolina. She is practiced in the preparation of risk and resilience assessment reports and emergency response plans

for water treatment facilities, in accordance with the American Water Infrastructure Act. Ms. Burdette holds a PhD in Environmental Engineering from the Federal University of Santa Catarina – Brazil.

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Inc. ("ERIS") using various sources of information, including information provided by Federal and State government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Inc. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Storage Tank Contaminated Facility Name & Address Search Details

Name: Rehabilitation Center At Park Place Llc
1717 W Avery St
Pensacola, FL 32501
LL Method: DPHO
Account Owner: Rehabilitation Center At Park Place Llc
Contact: Isaac Jackson
Phone: 850-434-2355
District: NWD
County 1: 17 - Escambia
Latitude: 30:25:49.7316
Longitude: 87:14:20.1120

FDEP - Registered Tanks from Storage Tank Contamination Monitoring (STCM) Details

Tank No: A6048
Size: 1000
Content: Emerg Generator Diesel
Installed: 04/01/2019
Placement: ABOVE
Status: In Service
Construction: C - Steel
I - Double Wall
M - Spill Containment Bucket
P - Level Gauges/Alarms
Piping: B - Steel/Galvanized Metal
Monitoring: F - Monitor Dbl Wall Tank Space

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13 and E1527-21, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List: NPL

Sites on the United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Apr 22, 2024

National Priority List - Proposed: PROPOSED NPL

Sites proposed by the United States Environmental Protection Agency (EPA), the state agency, or concerned citizens for addition to the National Priorities List (NPL) due to contamination by hazardous waste and identified by the EPA as a candidate for cleanup because it poses a risk to human health and/or the environment. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Apr 22, 2024

Deleted NPL: DELETED NPL

Sites deleted from the United States Environmental Protection Agency (EPA)'s National Priorities List. The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate. Sites are represented by boundaries where available in the EPA Superfund Site Boundaries maintained by the Shared Enterprise Geodata and Services (SEGS). Site boundaries represent the footprint of a whole site, the sum of all of the Operable Units and the current understanding of the full extent of contamination; for Federal Facility sites, the total site polygon may be the Facility boundary. Where there is no polygon boundary data available for a given site, the site is represented as a point.

Government Publication Date: Apr 22, 2024

SEMS List 8R Active Site Inventory: SEMS

The U.S. Environmental Protection Agency's (EPA) Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted. This data includes SEMS sites from the List 8R Active file as well as applicable sites from the EPA's Facility Registry Service map tool.

Government Publication Date: Mar 27, 2024

Inventory of Open Dumps, June 1985: ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites: SEMS ARCHIVE

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. This data includes sites from the List 8R Archived site file.

Government Publication Date: Mar 27, 2024

Comprehensive Environmental Response, Compensation and Liability Information System - CERCLIS: CERCLIS

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands: IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned: CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens: CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA). This database was provided by the United States Environmental Protection Agency (EPA). Refer to SEMS LIEN as the current data source for Superfund Liens.

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action: RCRA CORRACTS

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Apr 8, 2024

RCRA non-CORRACTS TSD Facilities: RCRA TSD

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites that have indicated engagement in the treatment, storage, or disposal of hazardous waste which requires a RCRA hazardous waste permit.

Government Publication Date: Apr 8, 2024

RCRA Generator List: RCRA LQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Apr 8, 2024

RCRA Small Quantity Generators List: RCRA SQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Apr 8, 2024

RCRA Very Small Quantity Generators List: RCRA VSQG

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Very Small Quantity Generators (VSQG) generate 100 kilograms or less per month of hazardous waste, or one kilogram or less per month of acutely hazardous waste. Additionally, VSQG may not accumulate more than 1,000 kilograms of hazardous waste at any time.

Government Publication Date: Apr 8, 2024

RCRA Non-Generators: RCRA NON GEN

RCRA Info is the U.S. Environmental Protection Agency's (EPA) comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Apr 8, 2024

RCRA Sites with Controls: RCRA CONTROLS

List of Resource Conservation and Recovery Act (RCRA) facilities with institutional controls in place. RCRA gives the U.S. Environmental Protection Agency (EPA) the authority to control hazardous waste from the "cradle-to-grave." This includes the generation, transportation, treatment, storage, and disposal of hazardous waste. RCRA also set forth a framework for the management of non-hazardous solid wastes. The 1986 amendments to RCRA enabled EPA to address environmental problems that could result from underground tanks storing petroleum and other hazardous substances.

Government Publication Date: Apr 8, 2024

Federal Engineering Controls-ECs: FED ENG

List of Engineering controls (ECs) made availabe by the United States Environmental Protection Agency (EPA). ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. The EC listing includes remedy component data from Superfund decision documents for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Apr 22, 2024

Federal Institutional Controls- ICs: FED INST

List of Institutional controls (ICs) made available by the United States Environmental Protection Agency (EPA). ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. The IC listing includes remedy component data from Superfund decision documents for applicable sites on the final or deleted on the National Priorities List (NPL); and sites with a Superfund Alternative Approach (SAA) Agreement in place. The only sites included that are not on the NPL; proposed for NPL; or removed from proposed NPL, are those with an SAA Agreement in place.

Government Publication Date: Apr 22, 2024

Land Use Control Information System: LUCIS

The LUCIS database is maintained by the U.S. Department of the Navy and contains information for former Base Realignment and Closure (BRAC) properties across the United States.

Government Publication Date: Sep 1, 2006

Institutional Control Boundaries at NPL sites: NPL IC

Boundaries of Institutional Control areas at sites on the United States Environmental Protection Agency (EPA)'s National Priorities List, or Proposed or Deleted, made available by the EPA's Shared Enterprise Geodata and Services (SEGS). United States Environmental Protection Agency (EPA)'s National Priorities List of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. Institutional controls are non-engineered instruments such as administrative and legal controls that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy.

Government Publication Date: Apr 22, 2024

Emergency Response Notification System: ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System: ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System: ERNS

Database of oil and hazardous substances spill reports made available by the United States Coast Guard National Response Center (NRC). The NRC fields initial reports for pollution and railroad incidents and forwards that information to appropriate federal/state agencies for response. These data contain initial incident data that has not been validated or investigated by a federal/state response agency.

Government Publication Date: Feb 20, 2024

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database: FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This data is provided by the United States Environmental Protection Agency (EPA) and includes Brownfield sites from the Cleanups in My Community (CIMC) web application.

Government Publication Date: Feb 7, 2024

FEMA Underground Storage Tank Listing: FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

Facility Response Plan: FRP

This listing contains facilities that have submitted Facility Response Plans (FRPs) to the U.S. Environmental Protection Agency (EPA). Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit FRPs. Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments. This listing includes FRP facilities from an applicable EPA FOIA file and Homeland Infrastructure Foundation-Level Data (HIFLD) data file.

Government Publication Date: Jan 9, 2024

Delisted Facility Response Plans: DELISTED FRP

Facilities that once appeared in - and have since been removed from - the list of facilities that have submitted Facility Response Plans (FRP) to EPA. Facilities that could reasonably be expected to cause "substantial harm" to the environment by discharging oil into or on navigable waters are required to prepare and submit Facility Response Plans (FRPs). Harm is determined based on total oil storage capacity, secondary containment and age of tanks, oil transfer activities, history of discharges, proximity to a public drinking water intake or sensitive environments.

Government Publication Date: Jan 9, 2024

Historical Gas Stations: HIST GAS STATIONS

This historic directory of service stations is provided by the Cities Service Company. The directory includes Cities Service filling stations that were located throughout the United States in 1930.

Government Publication Date: Jul 1, 1930

Petroleum Refineries: REFN

List of petroleum refineries from the U.S. Energy Information Administration (EIA) Refinery Capacity Report. Includes operating and idle petroleum refineries (including new refineries under construction) and refineries shut down during the previous year located in the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, and other U.S. possessions. Survey locations adjusted using public data.

Government Publication Date: Feb 28, 2024

Petroleum Product and Crude Oil Rail Terminals: BULK TERMINAL

A list of petroleum product and crude oil rail terminals from the U.S. Energy Information Administration (EIA), as well as petroleum terminals sourced from the Federal Communications Commission Data hosted by the Homeland Infrastructure Foundation-Level Database. Data includes operable bulk petroleum product terminals with a total bulk shell storage capacity of 50,000 barrels or more, and/or the ability to receive volumes from tanker, barge, or pipeline; also rail terminals handling the loading and unloading of crude oil with activity between 2017 and 2018. EIA petroleum product terminal data comes from the EIA-815 Bulk Terminal and Blender Report, which includes working, shell in operation, and shell idle for several major product groupings.

Government Publication Date: Sep 22, 2023

LIEN on Property: SEMS LIEN

The U.S. Environmental Protection Agency's (EPA) Superfund Enterprise Management System (SEMS) provides Lien details on applicable properties, such as the Superfund lien on property activity, the lien property information, and the parties associated with the lien.

Government Publication Date: Mar 27, 2024

Superfund Decision Documents: SUPERFUND ROD

This database contains a list of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include completed Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD) for active and archived sites stored in the Superfund Enterprise Management System (SEMS), along with other associated memos and files. This information is maintained and made available by the U.S. Environmental Protection Agency.

Government Publication Date: Mar 27, 2024

Formerly Utilized Sites Remedial Action Program: DOE FUSRAP

The U.S. Department of Energy (DOE) established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from the Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations. The DOE Office of Legacy Management (LM) established long-term surveillance and maintenance (LTS&M) requirements for remediated FUSRAP sites. DOE evaluates the final site conditions of a remediated site on the basis of risk for different future uses. DOE then confirms that LTS&M requirements will maintain protectiveness.

Government Publication Date: Mar 4, 2017

State

Superfund Waste Cleanup & State-Funded Action Sites: SHWS

List of hazardous waste cleanup sites participating in various federal and state funded cleanup programs. Florida's State-Funded Action Sites and Superfund Waste Cleanup Sites lists are maintained and made available by the Florida Department of Environmental Protection (FDEP). This database is state equivalent CERCLIS.

Government Publication Date: Apr 3, 2024

Delisted State-Funded Action Sites: DELISTED SHWS

This database contains a list of closed hazardous waste sites of various federal and state funded cleanup programs that were removed from the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Apr 3, 2024

ERIC Waste Cleanup: ERIC

Environmental Restoration Integrated Cleanup (ERIC) is a single database for tracking contaminated site cleanup activities in the Florida Department of Environmental Protection (DEP)'s Division of Waste Management (DWM). Includes records from 11 different DEP data systems, allowing tracking of a contaminated site throughout the course of cleanup regardless of which program area took the lead.

Government Publication Date: May 28, 2024

Florida Department of Environmental Protection Cleanup Sites: CLEANUP DEP

The Cleanup Sites layer feeds the FDEP's Contamination Locator Map (CLM). It provides locations and document links for sites currently in the cleanup process and sites awaiting cleanup funding. Cleanup programs include: Brownfields, Petroleum, EPA Superfund (CERCLA), Drycleaning, Responsible Party Cleanup, State Funded Cleanup, State Owned Lands Cleanup and Hazardous Waste Cleanup.

Government Publication Date: May 29, 2024

Waste Cleanup Responsible Party Sites: WCRPS

List of Open, Closed, and Inactive Waste Cleanup Responsible Party sites made available by the Florida Department of Environmental Protection.

Government Publication Date: Apr 11, 2021

Delisted Waste Cleanup Sites: DELISTED WCP

List of sites which once appeared on - and have since been removed from - the list of Waste Cleanup Sites made available by the Florida Department of Environmental Protection.

Government Publication Date: Mar 8, 2024

Solid Waste Facilities and Landfills: SWF/LF

The Solid Waste Facility Inventory Report made available by the Florida Department of Environmental Protection (FDEP) includes all types of authorized and unauthorized facilities: municipal solid waste, landfills, dumps, construction and demolition disposal, recycling facilities, and more.

Government Publication Date: Dec 4, 2023

Leaking Tanks: LST

The Storage Tank Regulation Section is part of the Petroleum Restoration Program in the Florida Department of Environmental Protection (FDEP)s Division of Waste Management. In 1983, Florida was one of the first states in the union to pass legislation and adopt rules for underground and aboveground storage tank systems. Since then, over 28,000 facilities have reported discharges of petroleum products from storage tank systems. Florida relies on groundwater for about 92 percent of its drinking water needs, and has some of the most stringent rules in the country.

Government Publication Date: Apr 22, 2024

Delisted Leaking Tanks: DELISTED LST

Whereas Leaking Tanks (LST) includes only facilities which currently have contamination as recorded by the Florida Department of Environmental Protection, this list contains facilities which were once included in LST data but no longer appear on the list made available by FDEP. Facilities may be removed from the current LST list because the discharge has been cleaned up, or the discharge is not required for 62-770.

Government Publication Date: Apr 24, 2024

Underground Storage Tanks: UST

List of Underground Storage Tank facilities made available by the Florida Department of Environmental Protection (FL DEP). Includes facilities tracked for active storage tanks, storage tank history, or petroleum cleanup activity. In an effort to minimize the occurrence and environmental risks of releases and discharges, FDEP administers standards pertaining to the construction, installation, operation, maintenance, repair, closure, and disposal of underground storage tank systems that store regulated substances.

Government Publication Date: Mar 7, 2024

Aboveground Storage Tanks: AST

List of Aboveground Storage Tank facilities made available by the Florida Department of Environmental Protection (FL DEP). Includes facilities tracked for active storage tanks, storage tank history, or petroleum cleanup activity.The Florida Department of Environmental Protection (FDEP) provides standards for aboveground storage tanks (ASTs) that have individual storage tank capacities greater than 550 gallons. The state also regulates the registration, construction, installation, operation, maintenance, repair, closure, and disposal of storage tank systems that store regulated substances.

Government Publication Date: Mar 7, 2024

Storage Tank Facilities: TANK

List of storage tank facilities made available by the Florida Department of Environmental Protection (FL DEP) for which tank information is not available. In the case of closed facilities - where all tanks have been removed or closed, and there is also no petroleum discharge or on-going cleanup activity - the owner data may not be current, but rather would represent the most recent information made available to FL DEP.

Government Publication Date: Mar 7, 2024

Delisted AST UST Storage Tanks: DEL UST AST TANK

This database contains a list of closed UST and AST storage tank sites that were removed from the Florida Department of Environmental Protection (FDEP) storage tank database.

Government Publication Date: Jul 2, 2015

Delisted Storage Tanks: DEL STORAGE TANK

List of sites that once appeared on - and have since been removed from - the list of UST and AST storage tank facilities made available by the Florida Department of Environmental Protection.

Government Publication Date: Mar 25, 2024

Federal Facilities Listing: FF TANKS

The Florida Department of Environmental Protection (FDEP) Storage Tank Program registers facilities and storage tanks where aboveground or underground storage tanks store pollutants, hazardous substances, and/or mineral acid substances regulated by Chapter 62-761, Florida Administrative Code, or when aboveground storage tanks or compression vessels store a hazardous substance which requires registration according to Chapter 376, Florida Statutes.

Government Publication Date: Mar 25, 2024

Storage Tank/Contaminated Facility Search: STCS

List of facilities and tanks in the Florida Department of Environmental Protection (FDEP) Bureau of Petroleum Storage Systems Storage Tank/Contaminated Facility Search. Note that tank details do not appear for facilities for which all tanks have been removed.

Government Publication Date: Apr 24, 2024

Institutional Controls Registry: INST

The Institutional Controls registry is maintained by the Florida Department of Environmental Protection (FDEP). The registry aims to help preserve adequate protection of contaminated soil regions and help to minimize any chances of exposure.

Government Publication Date: Mar 7, 2024

Engineering Controls: ENG

A listing of all engineering controls that are in place to eliminate or reduce the potential for contaminant migration and exposure to contaminants. These controls may include caps, barriers, guards or fences. The list is maintained by the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Mar 7, 2024

Voluntary Cleanup Sites: VCP

A listing of active and closed voluntary cleanup sites registered by the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Jul 1, 2022

Brownfield Sites: BROWNFIELDS

Brownfields are defined by the Florida Department of Environmental Protection (FDEP) as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. This is a list of sites within designated Brownfield Areas within Florida where Brownfield Site Rehabilitation Agreement (BSRA)s have been executed between FDEP and a responsible party.

Government Publication Date: Jan 16, 2024

Brownfield Areas: BROWNFIELD AREA

Brownfields are defined by the Florida Department of Environmental Protection (FDEP) as abandoned, idled, or underused industrial and commercial facilities where expansion or redevelopment is complicated by real or perceived environmental contamination. This is a list of Brownfield Areas, defined by the FDEP as contiguous areas of one or more brownfield sites, some of which may not be contaminated, that have been designated as such by a local government resolution. Such areas may include all or portions of community redevelopment areas, enterprise zones, empowerment zones, other such designated economically deprived communities and areas, and Environmental Protection Agency (EPA) designated brownfield pilot projects. Because a variety of sources and methods were used to derive information for this data, locations are approximate.

Government Publication Date: Apr 2, 2024

Hazardous Waste Facility List: HAZ WASTE FAC

List of Hazardous Waste Financial Assurance Facilities made available by the Division of Waste Management of the Florida Department of Environmental Protection (FDEP). The FDEP's Hazardous waste financial responsibility requirements exist to ensure that certain hazardous waste facilities and transporters have the financial resources available to provide for closure, postclosure and corrective action requirements and/or pay for bodily injury or property damage that might result from accidents, spills or other unexpected events, known as liabilities. These closure, postclosure, corrective action and liability requirements are called financial assurance.

Government Publication Date: Apr 3, 2024

Tribal

Leaking Underground Storage Tanks on Tribal/Indian Lands: INDIAN LUST

This list of leaking underground storage tanks (LUSTs) on Tribal/Indian Lands in Region 4, which includes Florida, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Oct 25, 2023

Underground Storage Tanks on Tribal/Indian Lands: INDIAN UST

This list of underground storage tanks (USTs) on Tribal/Indian Lands in Region 4, which includes Florida, is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Oct 25, 2023

Delisted Tribal Leaking Storage Tanks: DELISTED INDIAN LST

Leaking Underground Storage Tank (LUST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian LUST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Oct 25, 2023

Delisted Tribal Underground Storage Tanks: DELISTED INDIAN UST

Underground Storage Tank (UST) facilities which once appeared on - and have since been removed from - the Regional Tribal/Indian UST lists made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Oct 25, 2023

County

No County databases were selected to be included in the search.

Additional Environmental Record Sources

Federal

PFAS Greenhouse Gas Emissions Data: PFAS GHG

The U.S. Environmental Protection Agency's Greenhouse Gas Reporting Program (GHGRP) collects Greenhouse Gas (GHG) data from large emitting facilities (25,000 metric tons of carbon dioxide equivalent (CO_2e) per year), and suppliers of fossil fuels and industrial gases that results in GHG emissions when used. Includes GHG emissions data for facilities that emit or have emitted since 2010 chemicals identified in EPA's CompTox Chemicals Dashboard list of PFAS without explicit structures and list of PFAS structures by DSSTox. PFAS emissions data has been identified for facilities engaged in the following industrial processes: Aluminum Production (GHGRP Subpart F), HCFC-22 Production and HFC-23 Destruction (Subpart O), Electronics Manufacturing (Subpart I), Fluorinated Gas Production (Subpart L), Magnesium Production (Subpart T), Electrical Transmission and Distribution Equipment Use (Subpart DD), and Manufacture of Electric Transmission and Distribution Equipment (Subpart SS). Over time, other industrial processes with required GHGRP reporting may include PFAS emissions data and the list of reportable gases may change over time.

Government Publication Date: May 9, 2024

On-Scene Coordinator Response Sites: OSC RESPONSE

This list of On-Scene Coordinator (OSC) Response Sites is provided by the U.S. Environmental Protection Agency (EPA). OSCs are the federal officials responsible for monitoring or directing responses to all oil spills and hazardous substance releases reported to the federal government. OSCs coordinate all federal efforts with, and provide support and information to local, state, and regional response communities. An OSC is an agent of either EPA or the U.S. Coast Guard (USCG), depending on where the incident occurs. EPA's OSCs have primary responsibility for spills and releases to inland areas and waters. USCG OSCs have responsibility for coastal waters and the Great Lakes. In general, an OSC has the following key responsibilities during and after a response: Assessment, Monitoring, Response Assistance, and Evaluation.

Government Publication Date: Apr 4, 2024

Facility Registry Service/Facility Index: FINDS/FRS

The Facility Registry Service (FRS) is a centrally managed database that identifies facilities, sites, or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, and data collected from EPA's Central Data Exchange registrations and data management personnel. This list is made available by the U.S. Environmental Protection Agency (EPA).

Government Publication Date: Feb 9, 2024

Toxics Release Inventory (TRI) Program: TRIS

The U.S. Environmental Protection Agency's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of toxic chemicals from U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. There are currently 770 individually listed chemicals and 33 chemical categories covered by the TRI Program. Facilities that manufacture, process or otherwise use these chemicals in amounts above established levels must submit annual reporting forms for each chemical. Note that the TRI chemical list does not include all toxic chemicals used in the U.S. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment. This database includes TRI Reporting Data for calendar years 1987 through 2021 and Preliminary Data for 2022.

Government Publication Date: Sep 20, 2023

PFOA/PFOS Contaminated Sites: PFAS NPL

This list of Superfund Sites with Per- and Polyfluoroalkyl Substances (PFAS) detections is made available by the U.S. Environmental Protection Agency (EPA) in their PFAS Analytic Tools data, previously the list was obtained by EPA FOIA requests. EPA's Office of Land and Emergency Management and EPA Regional Offices maintain what is known about site investigations, contamination, and remedial actions under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) where PFAS is present in the environment. Limitations: Detections of PFAS at National Priorities List (NPL) sites do not mean that people are at risk from PFAS, are exposed to PFAS, or that the site is the source of the PFAS. The information in the Superfund NPL and Superfund Alternative Agreement (SAA) PFAS detection site list is years old and may not be accurate today. Site information such as site name, site ID, and location has been confirmed for accuracy; however, PFAS-related information such as media sampled, drinking water being above the health advisory, or mitigation efforts has not been verified. For Federal Facilities data, the other Federal agencies (OFA) are the lead agency for their data and provided them to EPA.

Government Publication Date: Mar 19, 2024

Federal Agency Locations with Known or Suspected PFAS Detections: PFAS FED SITES

List of Federal agency locations with known or suspected detections of Per- and Polyfluoroalkyl Substances (PFAS), made available by the U.S. Environmental Protection Agency (EPA) in their PFAS Analytic Tools data. EPA outlines that these data are gathered from several federal entities, such as the Federal Superfund program, Department of Defense (DOD), National Aeronautics and Space Administration, Department of Transportation, and Department of Energy. The dates this data was extracted for the PFAS Analytic Tools range from 2022 to 2024. Sites on this list do not necessarily reflect the source/s of PFAS contamination and detections do not indicate level of risk or human exposure at the site. Agricultural notifications in this data are limited to DOD sites only. At this time, the EPA is aware that this list is not comprehensive of all Federal agencies.

Government Publication Date: Apr 1, 2024

SSEHRI PFAS Contamination Sites: PFAS SSEHRI

This PFAS Contamination Site Tracker database is compiled by the Social Science Environmental Health Research Institute (SSEHRI) at Northeastern University. According to the SSEHRI, the database records qualitative and quantitative data from each known site of PFAS contamination, including timeline of discovery, sources, levels, health impacts, community response, and government response. The goal of this database is to compile information and support public understanding of the rapidly unfolding issue of PFAS contamination. All data presented was extracted from government websites, news articles, or publicly available documents, and this is cited in the tracker. Locations for the Known PFAS Contamination Sites are sourced from the PFAS Sites and Community Resources Map, credited to the Northeastern University's PFAS Project Lab, Silent Spring Institute, and the PFAS-REACH team. Disclaimer: The source conveys the data undergoes regular updates as new information becomes available, some sites may be missing and/or contain information that is incorrect or outdated, as well as their information represents all contamination sites SSEHRI is aware of, not all possible contamination sites. This data is not intended to be used for legal purposes. Access the following source link for the most current information: https://pfasproject.com/pfas-sites-and-community-resources/

Government Publication Date: May 19, 2023

National Response Center PFAS Spills: ERNS PFAS

This Per- and Poly-Fluoroalkyl Substances (PFAS) Spills dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The National Response Center (NRC), operated by the U.S. Coast Guard, is the designated federal point of contact for reporting all oil, chemical, and other discharges into the environment, for the United States and its territories. This dataset contains NRC spill information from 1990 to the present that is restricted to records associated with PFAS and PFAS-containing materials. Incidents are filtered to include only records with a "Material Involved" or "Incident Description" related to Aqueous Film Forming Foam (AFFF). The keywords used to filter the data included "AFFF," "Fire Fighting Foam," "Aqueous Film Forming Foam," "Fire Suppressant Foam, "PFAS," "PERFL," "PFOA," "PFOS," and "Genx." Limitations: The data from the NRC website contains initial incident data that has not been validated or investigated by a federal/state response agency. Keyword searches may misidentify some incident reports that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS spills/release incidents.

Government Publication Date: Apr 17, 2024

PFAS NPDES Discharge Monitoring: PFAS NPDES

This list of National Pollutant Discharge Elimination System (NPDES) permitted facilities with required monitoring for Per- and Polyfluoroalkyl (PFAS) Substances is made available via the U.S. Environmental Protection Agency (EPA)'s PFAS Analytic Tools. Any point-source wastewater discharger to waters of the United States must have a NPDES permit, which defines a set of parameters for pollutants and monitoring to ensure that the discharge does not degrade water quality or impair human health. This list includes NPDES permitted facilities associated with permits that monitor for Per- and Polyfluoroalkyl Substances (PFAS), limited to the years 2007 - present. EPA further advises the following regarding these data: currently, fewer than half of states have required PFAS monitoring for at least one of their permittees, and fewer states have established PFAS effluent limits for permittees. For states that may have required monitoring, some reporting and data transfer issues may exist on a state-by-state basis.

Government Publication Date: May 6, 2024

Perfluorinated Alkyl Substances (PFAS) from Toxic Release Inventory: PFAS TRI

List of Toxics Release Inventory (TRI) facilities at which the reported chemical is a per- or polyfluoroalkyl (PFAS) substance included in the U.S. Environmental Protection Agency's (EPA) consolidated PFAS Master List of PFAS Substances. Encompasses Toxics Release Inventory records included in the EPA PFAS Analytic Tools. The EPA's TRI database currently tracks information on disposal or releases of 770 individually listed toxic chemicals and 33 chemical categories from thousands of U.S. facilities and details about how facilities manage those chemicals through recycling, energy recovery, and treatment. This listing includes TRI Reporting Data for calendar years 1987 through 2021 and Preliminary Data for 2022.

Government Publication Date: Sep 20, 2023

Perfluorinated Alkyl Substances (PFAS) Water Quality: PFAS WATER

The Water Quality Portal (WQP) is a cooperative service sponsored by the United States Geological Survey (USGS), the Environmental Protection Agency (EPA), and the National Water Quality Monitoring Council (NWQMC). This listing includes records from the Water Quality Portal where the characteristic (environmental measurement) is in the Environmental Protection Agency (EPA)'s consolidated Master List of PFAS Substances.

Government Publication Date: Jul 20, 2020

PFAS TSCA Manufacture and Import Facilities: PFAS TSCA

The U.S. Environmental Protection Agency (EPA) issued the Chemical Data Reporting (CDR) Rule under the Toxic Substances Control Act (TSCA) and requires chemical manufacturers and facilities that manufacture or import chemical substances to report data to EPA. This list is specific only to TSCA Manufacture and Import Facilities with reported per- and poly-fluoroalkyl (PFAS) substances. Data file is sourced from EPA's PFAS Analytic Tools TSCA dataset which includes CDR/Inventory Update Reporting data from 1998 up to 2020. Disclaimer: This data file includes production and importation data for chemicals identified in EPA's CompTox Chemicals Dashboard list of PFAS without explicit structures and list of PFAS structures in DSSTox. Note that some regulations have specific chemical structure requirements that define PFAS differently than the lists in EPA's CompTox Chemicals Dashboard. Reporting information on manufactured or imported chemical substance amounts should not be compared between facilities, as some companies claim Chemical Data Reporting Rule data fields for PFAS information as Confidential Business Information.

Government Publication Date: Jan 5, 2023

PFAS Waste Transfers from RCRA e-Manifest : PFAS E-MANIFEST

This Per- and Poly-Fluoroalkyl Substances (PFAS) Waste Transfers dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. Every shipment of hazardous waste in the U.S. must be accompanied by a shipment manifest, which is a critical component of the cradle-to-grave tracking of wastes mandated by the Resource Conservation and Recovery Act (RCRA). According to the EPA, currently no Federal Waste Code exists for any PFAS compounds. To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: • PFAS • PFOA • PFOS • PERFL • AFFF • GENX • GEN-X (plus the Vermont state-specific waste codes). Limitations: Amount or concentration of PFAS being transferred cannot be determined from the manifest information. Keyword searches may misidentify some manifest records that do not contain PFAS. This dataset should also not be considered to be exhaustive of all PFAS waste transfers.

Government Publication Date: Apr 29, 2024

PFAS Industry Sectors: PFAS IND

This Per- and Poly-Fluoroalkyl Substances (PFAS) Industry Sectors dataset is made available via the U.S. Environmental Protection Agency's (EPA) PFAS Analytic Tools. The EPA developed the dataset from various sources that show which industries may be handling PFAS including: EPA's Enforcement and Compliance History Online (ECHO) records restricted to potential PFAS-handling industry sectors; ECHO records for Fire Training Sites identified where fire-fighting foam may have been used in training exercises; and 14 CFR Part 139 Airports compiled from historic and current records from the FAA Airport Data and Information Portal. Since July 2006, all certificated Part 139 Airports are required to have fire-fighting foam onsite that meet certain military specifications, which to date have been fluorinated (Aqueous Film Forming Foam). Limitations: Inclusion in this dataset does not indicate that PFAS are being manufactured, processed, used, or released by the facility. Listed facilities potentially handle PFAS based on their industrial profile, but are unconfirmed by the EPA. Keyword searches in ECHO for Fire Training sites may misidentify some facilities and should not be considered to be an exhaustive list of fire training facilities in the U.S.

Government Publication Date: Apr 15, 2024

Hazardous Materials Information Reporting System: HMIRS

The Hazardous Materials Incident Reporting System (HMIRS) database contains unintentional hazardous materials release information reported to the U.S. Department of Transportation, Pipeline and Hazardous Materials Safety Administration.

Government Publication Date: Nov 26, 2023

National Clandestine Drug Labs: NCDL

The U.S. Department of Justice ("the Department"), Drug Enforcement Administration (DEA), provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Nov 30, 2023

Toxic Substances Control Act: TSCA

The U.S. Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule. The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI). EPA CDR collections occur approximately every four years and reporting requirements change per collection.

Government Publication Date: May 12, 2022

Hist TSCA: HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.
The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing: FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing: FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List: PRP

Early in the site cleanup process, the U.S. Environmental Protection Agency (EPA) conducts a search to find the Potentially Responsible Parties (PRPs). The EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site. This listing contains PRPs, Noticed Parties, at sites in the EPA's Superfund Enterprise Management System (SEMS).

Government Publication Date: Apr 22, 2024

State Coalition for Remediation of Drycleaners Listing: SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin. Since 2017, the SCRD no longer maintains this data, refer to applicable state source data where available.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS): ICIS

The Integrated Compliance Information System (ICIS) database contains integrated enforcement and compliance information across most of U.S. Environmental Protection Agency's (EPA) programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained by the EPA Headquarters and at the Regional offices. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.

Government Publication Date: Aug 26, 2023

Drycleaner Facilities: FED DRYCLEANERS

A list of drycleaner facilities from Enforcement and Compliance History Online (ECHO) data as made available by the U.S. Environmental Protection Agency (EPA), sourced from the ECHO Exporter file. The EPA tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: Jan 20, 2024

Delisted Drycleaner Facilities: DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: Jan 20, 2024

Formerly Used Defense Sites: FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DOD) is responsible for an environmental restoration. The FUDS Annual Report to Congress (ARC) is published by the U.S. Army Corps of Engineers (USACE). This data is compiled from the USACE's Geospatial FUDS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) FUDS dataset which applies to the Fiscal Year 2021 FUDS Inventory.

Government Publication Date: May 15, 2023

FUDS Munitions Response Sites: FUDS MRS

Boundaries of Munitions Response Sites (MRS), published with the Formerly Used Defense Sites (FUDS) Annual Report to Congress (ARC) by the U.S. Army Corps of Engineers (USACE). An MRS is a discrete location within a Munitions response area (MRA) that is known to require a munitions response. An MRA means any area on a defense site that is known or suspected to contain unexploded ordnance (UXO), discarded military munitions (DMM), or munitions constituents (MC). This data is compiled from the USACE's Geospatial MRS data layers and Homeland Infrastructure Foundation-Level Data (HIFLD) MRS dataset.

Government Publication Date: May 15, 2023

Former Military Nike Missile Sites: FORMER NIKE

This information was taken from report DRXTH-AS-IA-83A016 (Historical Overview of the Nike Missile System, 12/1984) which was performed by Environmental Science and Engineering, Inc. for the U.S. Army Toxic and Hazardous Materials Agency Assessment Division. The Nike system was deployed between 1954 and the mid-1970's. Among the substances used or stored on Nike sites were liquid missile fuel (JP-4); starter fluids (UDKH, aniline, and furfuryl alcohol); oxidizer (IRFNA); hydrocarbons (motor oil, hydraulic fluid, diesel fuel, gasoline, heating oil); solvents (carbon tetrachloride, trichloroethylene, trichloroethane, stoddard solvent); and battery electrolyte. The quantities of material a disposed of and procedures for disposal are not documented in published reports. Virtually all information concerning the potential for contamination at Nike sites is confined to personnel who were assigned to Nike sites. During deactivation most hardware was shipped to depot-level supply points. There were reportedly instances where excess materials were disposed of on or near the site itself at closure. There was reportedly no routine site decontamination.

Government Publication Date: Dec 2, 1984

PHMSA Pipeline Safety Flagged Incidents: PIPELINE INCIDENT

This list of flagged pipeline incidents is made available by the U.S. Department of Transportation (US DOT) Pipeline and Hazardous Materials Safety Administration (PHMSA). PHMSA regulations require incident and accident reports for five different pipeline system types. Accidents reported on hazardous liquid gravity lines (§195.13) and reporting-regulated-only hazardous liquid gathering lines (§195.15) and incidents reported on Type R gas gathering (§192.8(c)) are not included in the flagged incident file data.

Government Publication Date: May 6, 2024

Material Licensing Tracking System (MLTS): MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: May 11, 2021

Historic Material Licensing Tracking System (MLTS) sites: HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File: MINES

The Master Index File (MIF) is provided by the United States Department of Labor, Mine Safety and Health Administration (MSHA). This file, which was originally created in the 1970's, contained many Mine-IDs that were invalid. MSHA removes invalid IDs from the MIF upon discovery. MSHA applicable data includes the following: all Coal and Metal/Non-Metal mines under MSHA's jurisdiction since 1/1/1970; mine addresses for all mines in the database except for Abandoned mines prior to 1998 from MSHA's legacy system (addresses may or may not correspond with the physical location of the mine itself); violations that have been assessed penalties as a result of MSHA inspections beginning on 1/1/2000; and violations issued as a result of MSHA inspections conducted beginning on 1/1/2000.

Government Publication Date: Feb 5, 2024

Surface Mining Control and Reclamation Act Sites: SMCRA

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by the Office of Surface Mining Reclamation and Enforcement (OSMRE) to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). This inventory contains information on the type and extent of Abandoned Mine Land (AML) impacts, as well as information on the cost associated with the reclamation of those problems. The data is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed. Disclaimer: Per the OSMRE, States and tribes who enter their data into eAMLIS (AML Inventory System) may truncate their latitude and longitude so the precise location of usually dangerous AMLs is not revealed in an effort to protect the public from searching for these AMLs, most of which are on private property. If more precise location information is needed, please contact the applicable state/tribe of interest.

Government Publication Date: Jun 13, 2023

Mineral Resource Data System: MRDS

The Mineral Resource Data System (MRDS) is a collection of reports describing metallic and nonmetallic mineral resources throughout the world. Included are deposit name, location, commodity, deposit description, geologic characteristics, production, reserves, resources, and references. This database contains the records previously provided in the Mineral Resource Data System (MRDS) of USGS and the Mineral Availability System/Mineral Industry Locator System (MAS/MILS) originated in the U.S. Bureau of Mines, which is now part of USGS. The USGS has ceased systematic updates of the MRDS database with their focus more recently on deposits of critical minerals while providing a well-documented baseline of historical mine locations from USGS topographic maps.

Government Publication Date: Mar 15, 2016

DOE Legacy Management Sites: LM SITES

The U.S. Department of Energy (DOE) Office of Legacy Management (LM) currently manages radioactive and chemical waste, environmental contamination, and hazardous material at over 100 sites across the U.S. The LM manages sites with diverse regulatory drivers (statutes or programs that direct cleanup and management requirements at DOE sites) or as part of internal DOE or congressionally-recognized programs, such as but not limited to: Formerly Utilized Sites Remedial Action Program (FUSRAP), Uranium Mill Tailings Radiation Control Act (UMTRCA Title I, Tile II), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Resource Conservation and Recovery Act (RCRA), Decontamination and Decommissioning (D&D), Nuclear Waste Policy Act (NWPA). This site listing includes data exported from the DOE Office of LM's Geospatial Environmental Mapping System (GEMS). GEMS Data disclaimer: The DOE Office of LM makes no representation or warranty, expressed or implied, regarding the use, accuracy, availability, or completeness of the data presented herein.

Government Publication Date: Dec 12, 2023

Alternative Fueling Stations: ALT FUELS

This list of alternative fueling stations is sourced from the Alternative Fuels Data Center (AFDC). The U.S. Department of Energy's Office of Energy Efficiency & Renewable Energy launched the AFDC in 1991 as a repository for alternative fuel vehicle performance data, which provides a wealth of information and data on alternative and renewable fuels, advanced vehicles, fuel-saving strategies, and emerging transportation technologies. The data includes Biodiesel (B20 and above), Compressed Natural Gas (CNG), Electric, Ethanol (E85), Hydrogen, Liquefied Natural Gas (LNG), Propane (LPG), and Renewable Diesel (R20 and above) fuel type locations.

Government Publication Date: Apr 30, 2024

Superfunds Consent Decrees: CONSENT DECREES

This list of Superfund consent decrees is provided by the Department of Justice, Environment & Natural Resources Division (ENRD) through a Freedom of Information Act (FOIA) applicable file. This listing includes Cases filed since 2010 limited to the following: Consent Decrees for CERCLA or Superfund Sites filed and/or as proposed within the ENRD's Case Management System (CMS); and applicable ENRD's Environmental Defense Section (EDS) CERCLA Cases with "Consent" in History Note. CMS may not reflect the latest developments in a case, nor can the agency guarantee the accuracy of the data. ENRD Disclaimer: Congress excluded three discrete categories of law enforcement and national security records from the requirements of the FOIA; response is limited to those records that are subject to the requirements of the FOIA; however, this should not be taken as an indication that excluded records do, or do not, exist.

Government Publication Date: Sep 15, 2023

Air Facility System: AFS

This EPA retired Air Facility System (AFS) dataset contains emissions, compliance, and enforcement data on stationary sources of air pollution. Regulated sources cover a wide spectrum; from large industrial facilities to relatively small operations such as dry cleaners. AFS does not contain data on facilities that are solely asbestos demolition and/or renovation contractors, or landfills. ECHO Clean Air Act data from AFS are frozen and reflect data as of October 17, 2014; the EPA retired this system for Clean Air Act stationary sources and transitioned to ICIS-Air.

Government Publication Date: Oct 17, 2014

Registered Pesticide Establishments: SSTS

This national list of active EPA-registered foreign and domestic pesticide and/or device-producing establishments is based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that each producing establishment must place its EPA establishment number on the label or immediate container of each pesticide, active ingredient or device produced. An EPA establishment number on a pesticide product label identifies the EPA registered location where the product was produced. The list of establishments is made available by the U.S. Environmental Protection Agency (EPA).

Government Publication Date: Feb 29, 2024

Polychlorinated Biphenyl (PCB) Transformers: PCBT

Locations of Transformers Containing Polychlorinated Biphenyls (PCBs) registered with the United States Environmental Protection Agency. PCB transformer owners must register their transformer(s) with EPA. Although not required, PCB transformer owners who have removed and properly disposed of a registered PCB transformer may notify EPA to have their PCB transformer de-registered. Data made available by EPA.

Government Publication Date: Oct 15, 2019

Polychlorinated Biphenyl (PCB) Notifiers: PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: May 23, 2024

State

Priority Ranking List: PRIORITYCLEAN

The Florida Legislature has established a state-funded program to cleanup properties that are contaminated as a result of the operations of a drycleaning facility or wholesale supply facility (Chapter 376, Florida Statutes). The program is administered by the Florida Department of Environmental Protection (FDEP). The statute was sponsored by the drycleaning industry to address environmental, economic, and liability issues resulting from drycleaning solvent contamination. The program provides limited liability protection to the owner, operator and real property owner of drycleaning or wholesale supply facilities for cleanup of drycleaning solvent contamination if the parties meet the eligibility conditions stated in the law.

Government Publication Date: Mar 8, 2024

Dry Cleaning Facilities: DRYCLEANERS

A listing of dry cleaning facilities registered with the Florida Department of Environmental Protection (FDEP). The information contains facility identification number, site location information, related party (owner) information, and facility type and status. Data is taken from the Storage Tank & Contamination Monitoring database, the registration repository of dry cleaner facility data.

Government Publication Date: Apr 29, 2024

Delisted Dry Cleaning Facilities: DELISTED DRYCLEANERS

List of sites removed from the drycleaners database made available by the Florida Department of Environmental Conservation (DEC).

Government Publication Date: Apr 29, 2024

Historical Dry Cleaners: HISTORICAL DRYC

The Florida Department of Environmental Protection (FDEP) provided this historical database of regulated and non-regulated dry cleaning facilities. These facilities were at one time tracked and registered by the FDEP OCULUS Electronic Document Management System as "drums" in the underground storage tank database.

Government Publication Date: Aug 2, 2013

Oil and Hazardous Materials Incidents: SPILLS

Statewide listing of oil and hazardous materials spills and incidents recorded by the Florida Department of Environmental Protection (FDEP).

Government Publication Date: Feb 27, 2024

Contaminated Sites: DWM CONTAM

Florida Department of Environmental Protection (FDEP) Division of Waste Management (DWM) listing of active or known sites that include sites requiring cleanup but are not actively being worked on due to the agency's lack of funding (primarily petroleum and drycleaning).

Government Publication Date: Jul 14, 2023

Delisted Contaminated Sites: DEL CONTAM SITE

List of sites which were once included on the Florida Department of Environmental Protection (FDEP) Division of Waste Management (DWM)'s Contaminated Sites list. As sites on the Contaminated Sites (CS) list are cleaned up or closed under risk based corrective action, they are removed from the CS list.

Government Publication Date: Sep 30, 2015

Aqueous Film Forming Foam (AFFF): PFAS AFFF

A list of fire fighter training facilities that use or possibly used Aqueous Film Forming Foam (AFFF). This list is made available by the Florida Department of Environmental Protection (DEP).

Government Publication Date: Jan 30, 2024

PFAS Investigation at Federal Facilities: PFAS

List of sites - including Federal Facilities - in Florida at which either a) there has been confirmed or suspected usage of Aqueous Film Forming Foam (AFFF), or b) the Division of Waste Management has identified as a potential source or environmental impact related to per- and polyfluoroalkyl substances (PFAS). The Florida Department of Environmental Protection (DEP) is committed to the protection of the groundwater resources of the state and the public health and safety of residents. The DEP will continue its efforts to investigate and understand PFAS in the environment and the ecological and human health risks associated with PFAS contamination. Listings made available by the Florida Department of Environmental Protection (DEP).

Government Publication Date: Mar 11, 2024

Ground Water Contamination Areas: GW CONTAM

List of areas of known groundwater contamination made available by the Florida Department of Environmental Protection (DEP). 38 counties have been delineated primarily for the agricultural pesticide ethylene dibromide (EDB), and to a much lesser extent, volatile organic and petroleum contaminants. Permitted water wells in these areas must meet specific well construction criteria and water testing prior to well use. This dataset only indicates the presence or absence of specific groundwater contaminants and does not represent all known sources of groundwater contamination in the state of Florida.

Government Publication Date: Jul 12, 2023

Underground Injection Control Wells: UIC

Class I Underground Injection Control (UIC) wells that are currently or were previously active, as well as proposed sites, regulated by the Florida Department of Environmental Protection (FDEP). Class I UIC wells are used to inject nonhazardous waste, hazardous waste (new hazardous waste wells were banned in 1983), or municipal waste below the lowermost underground source of drinking water.

Government Publication Date: Feb 29, 2024

Well Surveillance Program Facilities: WELL SURVEILLANCE

List of facilities made available by the Florida Health Well Surveillance group. The Well Surveillance group manages several programs to identify and monitor areas in Florida where contaminated drinking water is suspected and may pose a threat to public health. The section coordinates with the County Health Departments (CHDs) to locate potable wells and conduct water sampling for contaminants of concern. The Well Surveillance Section is composed of the State Underground Petroleum Environmental Response Act (SUPER Act), Drinking Water Toxics Program (Toxics), Drycleaner Solvent Cleanup Program (DSCP). Includes locations of known cattle dipping vats.

Government Publication Date: Feb 29, 2024

Cattle Dip Vats: CDV SOUTHEAST

A list of Cattle Dip Vats in Southeast Florida made available by the Florida Department of Environmental Protection.

Government Publication Date: Jan 19, 2017

Tier 2 Report: TIER 2

A list of Tier 2 facilities in the state of Florida. The list tracks the inventory of chemicals within a particular facility. This list is provided by the Florida Division of Emergency Management.

Government Publication Date: Sep 12, 2023

Delisted County Records: DELISTED COUNTY

Records removed from county databases. Records may be removed from the county lists made available by the respective county departments because they are inactive, or because they have been deemed to be below reportable thresholds.

Government Publication Date: May 15, 2024

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental databases were selected to be included in the search.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

HISTORICAL AERIALS

Project Property: Baptist Hospital Main Property
Baptist Phase I ESA Main Hospital Property
Pensacola FL 32501

RE: CITY DIRECTORY RESEARCH
Baptist Phase I ESA Main Hospital Property
Pensacola,FL 32501

Thank you for contacting ERIS for an City Directory Search for the site described above. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. We have provided the nearest addresses(s) when adjacent addresses are not listed. If we have searched a range of addresses, all addresses in that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on more highly developed areas. Newly developed areas may be covered in the more recent years, but the older directories will tend to cover only the "central" parts of the city. To complete the search, we have either utilized the ACPL, Library of Congress, State Archives, and/or a regional library or history center as well as multiple digitized directories. These do not claim to be a complete collection of all reverse listing city directories produced.

ERIS has made every effort to provide accurate and complete information but shall not be held liable for missing, incomplete or inaccurate information. To complete this search we used the general range(s) below to search for relevant findings. If you believe there are additional addresses or streets that require searching please contact us at 866-517-5204.

Search Criteria:
800-1400 of W Blount St
800-1400 of W Moreno St

The ERIS ***Physical Setting Report - PSR*** provides comprehensive information about the physical setting around a site and includes a complete overview of topography and surface topology, in addition to hydrologic, geologic and soil characteristics. The location and detailed attributes of oil and gas wells, water wells, public water systems and radon are also included for review.

The compilation of both physical characteristics of a site and additional attribute data is useful in assessing the impact of migration of contaminants and subsequent impact on soils and groundwater.

Disclaimer

This Report does not provide a full environmental evaluation for the site or adjacent properties. Please see the terms and disclaimer at the end of the Report for greater detail.

FEMA Flood Zone Definitions

Special Flood Hazard Areas – High Risk

Special Flood Hazard Areas represent the area subject to inundation by 1-percent-annual chance flood. Structures located within the SFHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory flood insurance purchase requirements apply in these zones.

ZONE	DESCRIPTION
A	Areas subject to inundation by the 1-percent-annual-chance flood event. Because detailed hydraulic analyses have not been performed, no Base Flood Elevations (BFEs) or flood depths are shown.
AE, A1-A30	Areas subject to inundation by the 1-percent-annual-chance flood event determined by detailed methods. BFEs are shown within these zones. (Zone AE is used on new and revised maps in place of Zones A1–A30.)
AH	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually areas of ponding) where average depths are 1–3 feet. BFEs derived from detailed hydraulic analyses are shown in this zone.
AO	Areas subject to inundation by 1-percent-annual-chance shallow flooding (usually sheet flow on sloping terrain) where average depths are 1–3 feet. Average flood depths derived from detailed hydraulic analyses are shown within this zone.
AR	Areas that result from the decertification of a previously accredited flood protection system that is determined to be in the process of being restored to provide base flood protection.
A99	Areas subject to inundation by the 1-percent-annual-chance flood event, but which will ultimately be protected upon completion of an under-construction Federal flood protection system. These are areas of special flood hazard where enough progress has been made on the construction of a protection system, such as dikes, dams, and levees, to consider it complete for insurance rating purposes. Zone A99 may be used only when the flood protection system has reached specified statutory progress toward completion. No BFEs or flood depths are shown.

Coastal High Hazard Areas – High Risk

Coastal High Hazard Areas (CHHA) represent the area subject to inundation by 1-percent-annual chance flood, extending from offshore to the inland limit of a primary front al dune along an open coast and any other area subject to high velocity wave action from storms or seismic sources. Structures located within the CHHA have a 26-percent chance of flooding during the life of a standard 30-year mortgage. Federal floodplain management regulations and mandatory purchase requirements apply in these zones.

ZONE	DESCRIPTION
V	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards associated with storm-induced waves. Because detailed coastal analyses have not been performed, no BFEs or flood depths are shown.
VE, V1-V30	Areas along coasts subject to inundation by the 1-percent-annual-chance flood event with additional hazards due to storm-induced velocity wave action. BFEs derived from detailed hydraulic coastal analyses are shown within these zones. (Zone VE is used on new and revised maps in place of Zones V1–V30.)

Hydrologic Information

Moderate and Minimal Risk Areas

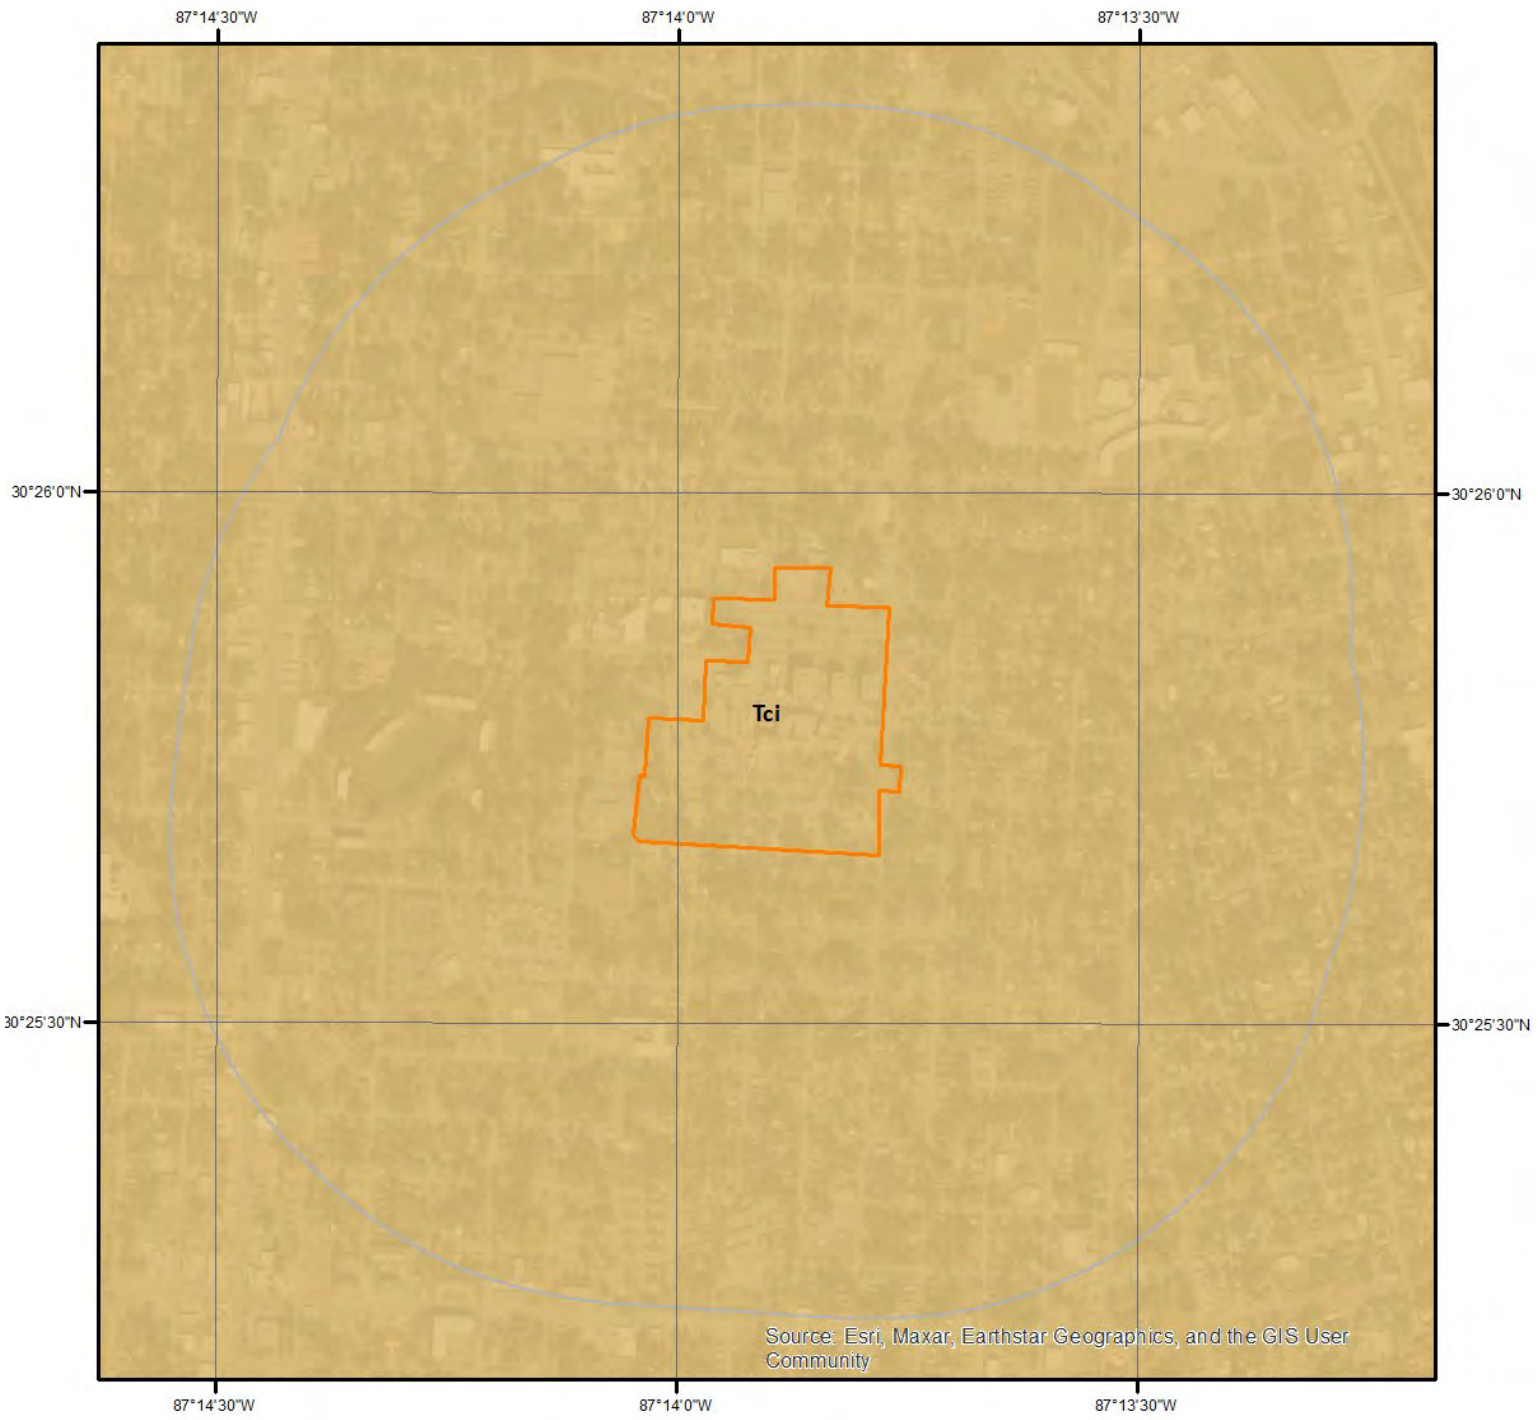
Areas of moderate or minimal hazard are studied based upon the principal source of flood in the area. However, buildings in these zones could be flooded by severe, concentrated rainfall coupled with inadequate local drainage systems. Local stormwater drainage systems are not normally considered in a community's flood insurance study. The failure of a local drainage system can create areas of high flood risk within these zones. Flood insurance is available in participating communities, but is not required by regulation in these zones. Nearly 25-percent of all flood claims filed are for structures located within these zones.

ZONE	DESCRIPTION
B, X (shaded)	Moderate risk areas within the 0.2-percent-annual-chance floodplain, areas of 1-percent-annual-chance flooding where average depths are less than 1 foot, areas of 1-percent-annual-chance flooding where the contributing drainage area is less than 1 square mile, and areas protected from the 1-percent-annual-chance flood by a levee. No BFEs or base flood depths are shown within these zones. (Zone X (shaded) is used on new and revised maps in place of Zone B.)
C, X (unshaded)	Minimal risk areas outside the 1-percent and .2-percent-annual-chance floodplains. No BFEs or base flood depths are shown within these zones. (Zone X (unshaded) is used on new and revised maps in place of Zone C.)

Undetermined Risk Areas

ZONE	DESCRIPTION
D	Unstudied areas where flood hazards are undetermined, but flooding is possible. No mandatory flood insurance purchase requirements apply, but coverage is available in participating communities.

Geologic Information



Geologic Units

This maps shows geologic units in the area. Please refer to the report for detailed descriptions.

N

Miles
0 0.175 0.35

ERIS

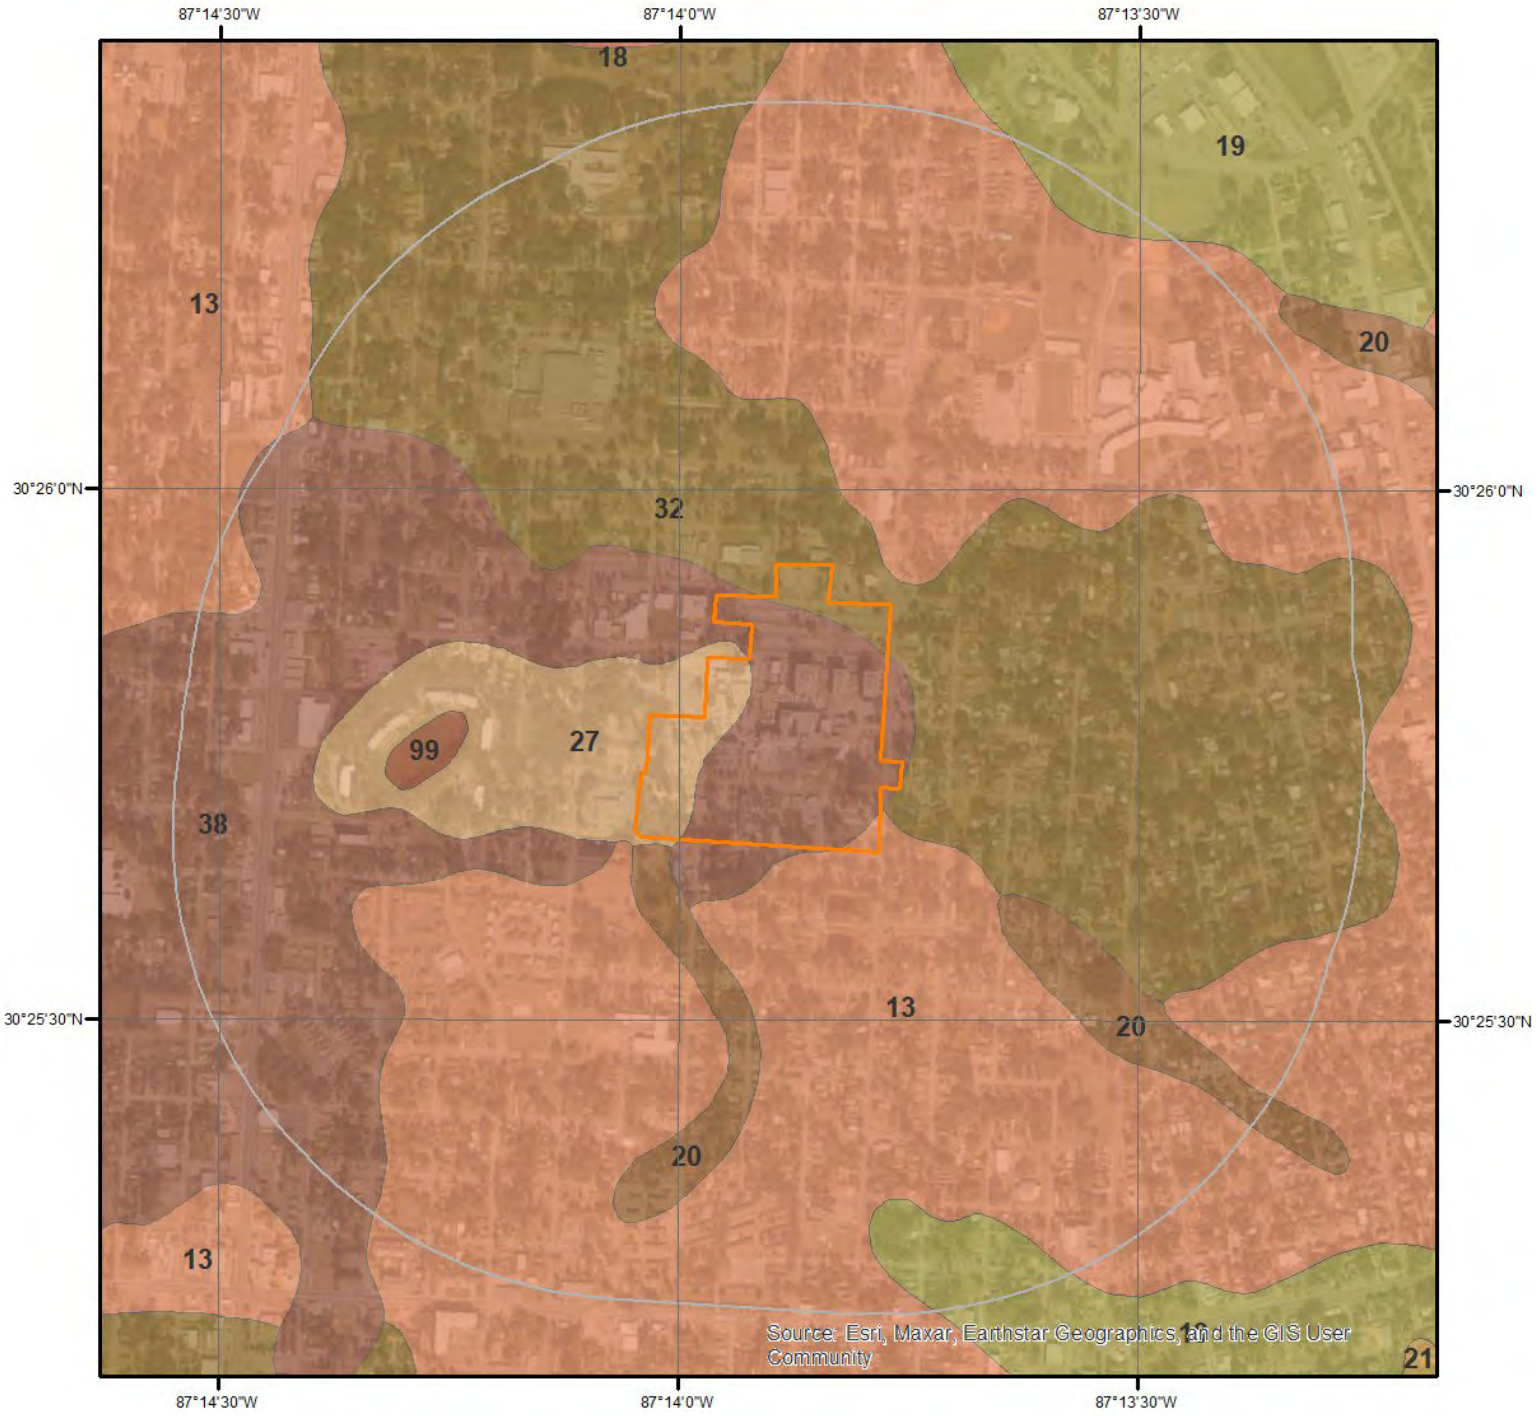
Geologic Information

The previous page shows USGS geology information. Detailed information about each unit is provided below.

Geologic Unit Tci

Unit Name:	Citronelle Formation
Unit Age:	Pliocene
Primary Rock Type:	Sand
Secondary Rock Type:	
Unit Description:	The Citronelle Formation is widespread in the Gulf Coastal Plain. The type section for the Citronelle Formation, named by Matson (1916), is near Citronelle, Alabama. The Citronelle Formation grades laterally, through a broad facies transition, into the Miccosukee Formation of the eastern Florida panhandle. Coe (1979) investigated the Citronelle Formation in portions of the western Florida panhandle. The Citronelle Formation is a siliciclastic, deltaic deposit that is lithologically similar to, and time equivalent with, the Cypresshead Formation and, at least in part, the Long Key Formation (Cunningham et al., 1998) of the peninsula. In the western panhandle, some of the sediments mapped as Citronelle Formation may be reworked Citronelle. The lithologies are the same and there are few fossils present to document a possible younger age. The Citronelle Formation consists of gray to orange, often mottled, unconsolidated to poorly consolidated, very fine to very coarse, poorly sorted, clean to clayey sands. It contains significant amounts of clay, silt and gravel which may occur as beds and lenses and may vary considerably over short distances. Limonite nodules and limonite-cemented beds are common. Marine fossils are rare but fossil pollen, plant remains and occasional vertebrates are found. Much of the Citronelle Formation is highly permeable. It forms the Sand and Gravel Aquifer of the surficial aquifer system.

Soil Information



SSURGO Soils

N

0 0.175 0.35 Miles

This maps shows SSURGO soil units around the target property. Please refer to the report for detailed soil descriptions.

ERIS

Soil Information

The previous page shows a soil map using SSURGO data from USDA Natural Resources Conservation Service. Detailed information about each unit is provided below.

Map Unit 13 (32.27%)

Map Unit Name:	Lakeland sand, 0 to 5 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Excessively drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.
Major components are printed below	
Lakeland(85%)	
horizon A(0cm to 13cm)	Sand
horizon C(13cm to 203cm)	Sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 13 - Lakeland sand, 0 to 5 percent slopes

Component: Lakeland (85%)
The Lakeland component makes up 85 percent of the map unit. Slopes are 0 to 5 percent. This component is on hills on marine terraces on coastal plains. The parent material consists of eolian or sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is excessively drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Troup (5%)
Generated brief soil descriptions are created for major soil components. The Troup soil is a minor component.

Component: Bonifay (5%)
Generated brief soil descriptions are created for major soil components. The Bonifay soil is a minor component.

Component: Foxworth (3%)
Generated brief soil descriptions are created for major soil components. The Foxworth soil is a minor component.

Component: Poarch (2%)
Generated brief soil descriptions are created for major soil components. The Poarch soil is a minor component.

Map Unit 19 (4.33%)

Map Unit Name:	Foxworth sand, 0 to 5 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	145cm
Drainage Class - Dominant:	Moderately well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.
Major components are printed below	
Foxworth(95%)	
horizon A(0cm to 15cm)	Sand
horizon C(15cm to 170cm)	Sand

horizon Cg(170cm to 203cm)	Sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 19 - Foxworth sand, 0 to 5 percent slopes

Component: Foxworth (95%)
The Foxworth component makes up 95 percent of the map unit. Slopes are 0 to 5 percent. This component is on ridges, coastal plains. The parent material consists of sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is moderately well drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 57 inches during June, July, August, September, October. Organic matter content in the surface horizon is about 1 percent. This component is in the R133AY002FL Longleaf Pine-turkey Oak Hills ecological site. Nonirrigated land capability classification is 3s. Irrigated land capability classification is 4s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface.

Component: Lakeland (4%)
Generated brief soil descriptions are created for major soil components. The Lakeland soil is a minor component.

Component: Chipley (1%)
Generated brief soil descriptions are created for major soil components. The Chipley soil is a minor component.

Map Unit 20 (0.29%)

Map Unit Name:	Lakeland sand, 5 to 8 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Excessively drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Lakeland(90%)

horizon A(0cm to 15cm)	Sand
horizon C(15cm to 203cm)	Sand

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 20 - Lakeland sand, 5 to 8 percent slopes

Component: Lakeland (90%)
The Lakeland component makes up 90 percent of the map unit. Slopes are 5 to 8 percent. This component is on -- Error in Exists On --. The parent material consists of eolian or sandy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is excessively drained. Water movement in the most restrictive layer is high. Available water to a depth of 60 inches (or restricted depth) is very low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 4s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface.

Component: Troup (5%)
Generated brief soil descriptions are created for major soil components. The Troup soil is a minor component.

Component: Blanton (3%)
Generated brief soil descriptions are created for major soil components. The Blanton soil is a minor component.

Component: Bonifay (2%)
Generated brief soil descriptions are created for major soil components. The Bonifay soil is a minor component.

Soil Information

Map Unit 27 (0.47%)

Map Unit Name:	Escambia fine sandy loam, 0 to 2 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	61cm
Drainage Class - Dominant:	Somewhat poorly drained
Hydrologic Group - Dominant:	C - Soils in this group have moderately high runoff potential when thoroughly wet. Water transmission through the soil is somewhat restricted.

Major components are printed below

Escambia(80%)

horizon A(0cm to 13cm)	Fine sandy loam
horizon E(13cm to 25cm)	Fine sandy loam
horizon Bt(25cm to 61cm)	Fine sandy loam
horizon Btv(61cm to 203cm)	Fine sandy loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 27 - Escambia fine sandy loam, 0 to 2 percent slopes

Component: Escambia (80%)
The Escambia component makes up 80 percent of the map unit. Slopes are 0 to 3 percent. This component is on rises on marine terraces on coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat poorly drained. Water movement in the most restrictive layer is moderately low. Available water to a depth of 60 inches (or restricted depth) is moderate. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 24 inches during January, February, March, April, December. Organic matter content in the surface horizon is about 1 percent. Nonirrigated land capability classification is 2w. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Poarch (5%)
Generated brief soil descriptions are created for major soil components. The Poarch soil is a minor component.

Component: Albany (5%)
Generated brief soil descriptions are created for major soil components. The Albany soil is a minor component.

Component: Bonifay (5%)
Generated brief soil descriptions are created for major soil components. The Bonifay soil is a minor component.

Component: Robertsdale (5%)
Generated brief soil descriptions are created for major soil components. The Robertsdale soil is a minor component.

Map Unit 32 (59.85%)

Map Unit Name:	Troup sand, 0 to 5 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	
Drainage Class - Dominant:	Somewhat excessively drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.

Major components are printed below

Troup(80%)

horizon A(0cm to 15cm)	Sand
horizon E(15cm to 117cm)	Sand
horizon Bt(117cm to 203cm)	Sandy clay loam

Component Description:

Soil Information

Minor map unit components are excluded from this report.

Map Unit: 32 - Troup sand, 0 to 5 percent slopes

Component: Troup (80%)
The Troup component makes up 80 percent of the map unit. Slopes are 0 to 5 percent. This component is on ridges on coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 1 percent. This component is in the R133AY002FL Longleaf Pine-turkey Oak Hills ecological site. Nonirrigated land capability classification is 3s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Blanton (10%)
Generated brief soil descriptions are created for major soil components. The Blanton soil is a minor component.

Component: Lakeland (5%)
Generated brief soil descriptions are created for major soil components. The Lakeland soil is a minor component.

Component: Foxworth (5%)
Generated brief soil descriptions are created for major soil components. The Foxworth soil is a minor component.

Map Unit 38 (2.77%)

Map Unit Name:	Bonifay loamy sand, 0 to 5 percent slopes
Bedrock Depth - Min:	
Watertable Depth - Annual Min:	130cm
Drainage Class - Dominant:	Well drained
Hydrologic Group - Dominant:	A - Soils in this group have low runoff potential when thoroughly wet. Water is transmitted freely through the soil.
Major components are printed below	
Bonifay(80%)	
horizon A(0cm to 8cm)	Loamy sand
horizon E(8cm to 137cm)	Loamy sand
horizon Btv(137cm to 203cm)	Sandy clay loam

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 38 - Bonifay loamy sand, 0 to 5 percent slopes

Component: Bonifay (80%)
The Bonifay component makes up 80 percent of the map unit. Slopes are 0 to 5 percent. This component is on ridges, coastal plains. The parent material consists of sandy and loamy marine deposits. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches (or restricted depth) is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. A seasonal zone of water saturation is at 51 inches during January, February, March, April, December. Organic matter content in the surface horizon is about 2 percent. Nonirrigated land capability classification is 3s. This soil does not meet hydric criteria. There are no saline horizons within 30 inches of the soil surface. The soil has a maximum sodium adsorption ratio of 1 within 30 inches of the soil surface.

Component: Albany (4%)
Generated brief soil descriptions are created for major soil components. The Albany soil is a minor component.

Component: Blanton (4%)
Generated brief soil descriptions are created for major soil components. The Blanton soil is a minor component.

Component: Troup (4%)
Generated brief soil descriptions are created for major soil components. The Troup soil is a minor component.

Soil Information

Component: Lakeland (4%)
Generated brief soil descriptions are created for major soil components. The Lakeland soil is a minor component.

Component: Fuquay (4%)
Generated brief soil descriptions are created for major soil components. The Fuquay soil is a minor component.

Map Unit 99 (0.03%)

Map Unit Name: Water

No more attributes available for this map unit

Component Description:

Minor map unit components are excluded from this report.

Map Unit: 99 - Water

Component: Water (100%)
Generated brief soil descriptions are created for major soil components. The Water is a miscellaneous area.
